Solved Papers for Manipal Engineering 2021 2020-08-18 the european union faces several interlinked challenges how to protect the environment and favour sustainability how to reduce unemployment and foster competitiveness in a context of growing globalization how to reduce regional disparities among and within member countries the recent policy debate has

clarified that the above objectives are not a trade off if jointly tackled in particular win win policy options are available to the european union by an appropriate integration of regulation macro policy social policy fiscal policy and environmental policy evidence shows that optimising on each single policy will not meet the needs of the european union on the contrary an integrated approach will make it possible to reach the various objectives as stated in the treaty on european union in the 5th environmental action programme in the white paper on growth competitiveness and employment this integrated approach would im plement a genuine sustainable development policy
