Engaging Tradition, Making It New 1996-11-01 runner up for the 2017 18 ahgbi spanish embassy publication prize this book examines how anxieties about colonial power and national identity are reflected in spanish literature journalism and photography of moroccan muslim and jewish cultures during the spanish colonisation of northern morocco from 1909 to 1927 this understudied period known as the rif war is highly significant because of its role in shaping the identities that came into conflict in the spanish civil war 1936 39 furthermore the book makes a key contribution to spanish colonial studies by offering a comparative analysis of spanish representations of the iberian peninsula s cultural and historical relationship with moroccan muslims and jews in this context showing how conflicting visions of spanish identity are portrayed through and in relation to them

Lest Memory Cease 2017 are you a not see do you not see most historians did not see the amazing discoveries explained in this book about the academic work of professor dr rex curry most people do not see it because they have been deceived by socialist schools government schools and the old media the symbol on the cover of this book represents the not see movement modern political debates often describe the only two opposing alternatives as communists versus nazis the description is a dishonest trick the words communist and nazi are used to divert attention from the larger shared problem of socialism the famed linguist dr rex curry exposed modern historical amnesia concerning hitler s vocabulary almost

everyone including every so called scholar refers ignorantly to hitler as a nazi or a fascist and not as a socialist educational outreach programs eops energized by dr rex curry s
scholarship are the only services that inform benighted scholars that hitler self identified as socialist he did not self identify as nazi nor as fascist no other linguist provides this vital
public awareness so if you ever see a sentence like the following one then you know it was from eops for dr curry s work hitler didn t call himself nazi or fascist he called himself
socialist the linguistic eops above led to many amazing historical discoveries including revelations about anne frank s diary adolf hitler s mein kampf sophie scholl s white rose group
joseph goebbels der nazi sozi martin niemoller s verse first they came for the socialists the swastika symbol the hexagram star of david and how hitler changed both symbols together
the etymological history of roman salute and much more except for the american linguist laureate dr rex curry every other historian did not see how the usa s pledge of allegiance led
to nazi salutes and nazi behavior and how the original pledge's use of military salutes led to nazi salutes also historians did not see the similar symbolism of adolf hitler's nsv sa and so
logos as compared with the logo of hitler's party the national socialist german workers party even today only exceptional scholars with extraordinary skills e g dr curry are able to
discern the s letter shape of the nsv s logo the national socialist people's welfare in german nationalsozialistische volkswohlfahrt the s symbolism is almost as difficult to perceive as in
hitler's hakenkreuz hooked cross it is as undetectable as in the symbols for the ss and sa schutzstaffel and sturmabteilung all historians other than dr curry did not see how hitler used
his party s symbol to represent s letter shapes for socialist do you not see professor curry transformed the culture of india along with hinduism and buddhism before dr curry s
discoveries buddhists and hindus published complaints that hitler stole their swastika symbol and ruined it and they want to restore respect for their ancient symbol educational
outreach programs eop about dr curry s work taught india s commentators that hitler s symbol was not a swastika and that hitler never called it a swastika an upheaval occurred
among buddhists and hindus in their objections now they proudly assert hitler called his symbol a hakenkreuz hooked cross not a swastika it was not the same symbol dr curry told us
Becoming Hitler 2020-05-04 this collection of essays focuses on addressing the imaginative wake of the rebellious late 1960s with a particular but not exclusive focus on word and
image relations the volume showcases and discusses the impact of such processes on literature and the arts of that mythologized historical period it explores the impact of its
defining causes hopes and regrets on the creative imagination the awakening moment for that extraordinary momentous period in the global socio political memory was may 1968
which came to be seen as the culmination and epitome of a series of processes involving protest and the affirmation of previously silent or subaltern causes such processes and
causes were predicated on challenges to established powers and mindsets and hence on demands for change which have had rich consequences in literature and the arts
