this book is made of notes and digressions not just intending to rub the reader with the perpetual error of the human fate but as a warning that we stand on the verge of rationality and a few steps further in the current direction and despite the constant forewarnings of illustrious minds we ll fall into the abyss of irrationality these notes aphorisms or long diatribes according to the patience of the reader apart from their admonitory nature include a considerable part of personal relief also i confess they try to perpetuate the spirit of those pessimistic thinkers that according to mood or luck have walked into my reading s path this book avoids discursive modalities in rattle prose this book wants to remind the reader that he carries from boyhood a skull inside this book is written to calm down my obsessions my angry moods my hostility against the selfish citizens that are around me

literature utters the unutterable not through logic not through science not through argument but through a pitch of eloquence so pronounced the conscientious reader cannot fail to pay attention louis groarke argues that literature is an honorific term we use to describe texts that are so overpowering they lift us to an encounter with an ineffable ultimate that is beyond logical or scientific explanation in uttering the unutterable he proposes a wisdom epistemology that identifies an experience of transcendence as the defining criterion of literature offering four mutually reinforcing definitions of literature in line with aristotle s theory of four causes groarke compares the experience of reading to aristotle s account of philosophical contemplation and maintains that literature has inevitable ethical content moving beyond the aristotelianism of the late chicago school groarke presents a new synthesis that breaks through essentialist stereotypes and contends that literature like religion points to an ineffable transcendental to something beyond what we can adequately explain prove systematize quantify or enclose in a theory uttering the unutterable explores how aristotelian philosophy provides the most complete and compelling account of literature for philosophers literary critics and theorists
