JANE's Fighting Ships of World War II.

1998

this new textbook offers the reader an accessible introduction to the study of modern naval warfare providing a thorough grounding in the vocabulary

concepts issues debates and relevant history navies operate in an environment that most people do not understand and that many avoid they are equipped with a bewildering range of ships craft and other vessels and types of equipment whose purpose is often unclear writings on naval warfare are usually replete with references to obscure concepts explained in arcane language that can serve as an effective barrier to understanding it is the objective of this book to cut through the obscure and the arcane to offer a clear coherent and accessible guide to the key features of naval warfare that will equip the reader with the knowledge and understanding necessary for a sophisticated engagement with the subject understanding naval warfare is divided into two key parts the first focuses on concepts of naval warfare and introduces readers to the key concepts and ideas associated with the theory and practice of naval operations the second part focuses on the conduct of war at sea and also on peacetime roles for contemporary navies this section concludes with a chapter that looks ahead to the likely future of naval warfare assessing whether navies are likely to be more or less useful than in the past this textbook will be essential reading for students of naval warfare seapower and maritime security and highly recommended for students of military history strategic studies and security studies in general

The Encyclopedia of the World's Warships

1985

this report tracks and analyzes trends in chinese military strategy force structure and regional activity open source material is used to detail how each branch of the people s liberation army has pursued modernization chinese perspectives on their military s role and development are featured as well as the views of other relevant regional actors the purpose of this report is to provide the basis for an unclassified dialogue on the military developments in china by presenting data on the regional military balance alongside perspectives on china s military development the burke chair hopes that readers can better understand how china s strategic goals military development and regional views interact with each other

JANE'S FIGHTING SHIPS, 2011-2012

2012

the indian ocean region ior is one of the most areas of the world in human terms this study provides a comprehensive overview of the subregions and countries in the ior drawing heavily on a new country risk assessment model developed by abdullah toukan a senior associate with the burke chair at csis it provides detailed graphs tables and maps covering the ior as a whole each major subregion and each of the thirty two countries in the region as well as the impact of u s and chinese military forces

Jane's Fighting Ships 2015 2016

2015-07

a rand study analyzed trends in the development of chinese and u s military capabilities in two scenarios centered on taiwan and the spratly islands and multiple types of operations from 1996 to 2017

Jane's All the World's Fighting Ships

1898

this book argues that the uk as a post modern globalised state will require means to have influence over events and opponents that threaten the uk s interests in the 21st century and that its means is the royal navy however unlike other studies this research emphasizes the role of logistics especially afloat support logistics and the royal fleet auxiliary in doing so the author rejects the current theory underpinning military operations at distance that distance degrades capability and posits an alternative theory that time is the key factor for maritime based forces the uk must reengage with its maritime status and maintain a maritime based capability to protect its interests in the new maritime century as a leader within the international community the book will be of use to scholars and researchers interested in naval history and defence policy

The Handbook of European Defence Policies and Armed Forces

2018-06-20

all naval professionals without exception encounter directly participate or play a supporting role in naval cooperation it is a key element in the u s defense strategy because military and naval operations today are usually conducted by international coalitions and fighting alongside foreign navies is an expected aspect of current and future naval warfare activities in support of mutual defense include bilateral and multilateral exercises international programs such as cooperative acquisition and foreign military sales combined training and efforts towards increased interoperability this volume is intended to provide a basic familiarization to all aspects of the subject and detailed understanding of relevant recent issues since there is no formal training offered on the subject for naval professionals with the exception of certain specialized personnel the book is designed to bridge the existing gap in knowledge about naval cooperation

Security Dynamics in the South China Sea

2024-05-16

this book analyzes the rise of china s naval power and its possible strategic consequences from a wide variety of perspectives technological economic and geostrategic while employing a historical comparative approach throughout since naval development requires huge financial resources and mostly takes place within the context of transnational industrial partnerships this study also consciously adopts an industry perspective the systemic problems involved in warship production and the associated material financial technological and political requirements currently remain overlooked aspects in

the case of china drawing on first hand working experience in the naval shipbuilding industry the author provides transparent criteria for the evaluation of different naval technologies strategic value which other researchers can draw upon as a basis for further research in such diverse fields as international security studies naval warfare studies chinese studies and international relations

Terrorism

1979

this book presents an interdisciplinary examination of cross taiwan strait relations and the complex dynamics at play in the region since the election of ma ying jeou as taiwan s president in 2008 the relationship across the taiwan strait long viewed as one of asia s most volatile potential flashpoints has experienced a remarkable détente whether the relationship has been truly transformed however remains an open question and the taiwan strait remains a central regional and global security issue a return to turbulence in the taiwan strait could also add a new dimension of instability in the already tense maritime disputes in the east and south china seas while the relationship across the taiwan strait remains critically important it is also changing rapidly and the chapters in this volume present new thinking to help make sense of complex cross strait dynamics specifically these essays explore different security and or globalization dimensions of china taiwan ties as well as the globalization security linkages that have emerged as the balance of power in asia shifts dramatically several chapters in this volume explore how traditional security forces are evolving at the same time there are new dynamics emerging as a consequence of globalization forces such as the tremendous economic and social integration across the taiwan strait and several chapters in this volume consider some of these new problems finally several chapters consider the often under researched dynamics associated with the globalization security interface such as cyber threats transnational criminal networks and the security spill over impact of production globalization this book will of much interest to students of chinese politics asian security globalisation diplomacy and international relations

Jane's Fighting Ships of World War II

2001

this book sheds light on one of the most under studied but powerful navies in the world using a multifaceted approach it examines how the republic of korea navy rokn has sought to transform itself from a coastal naval force focused solely on deterring north korea to a navy capable of operating in the blue waters of east asia and beyond the project argues that peninsular and regional security dynamics technological developments the us south korea alliance and internal politics combine to inform and shape rokn modernisation

Jane's Fighting Ships 2009-2010

2009-06-24

this volume provides the first comprehensive history of the arms racing phenomenon in modern international politics drawing both on theoretical approaches and on the latest historical research written by an international team of specialists it is divided into four sections before 1914 the inter war years the cold war and extra european and post cold war arms races twelve case studies examine land and naval armaments before the first world war air land and naval competition during the 1920s and 1930s and nuclear as well as conventional weapons since 1945 armaments policies are placed within the context of technological development international politics and diplomacy and social politics and economics an extended general introduction and conclusion and introductions to each section provide coherence between the specialized chapters and draw out wider implications for policymakers and for political scientists arms races in international politics addresses two key questions what causes arms races and what is the connection between arms races and the outbreak of wars

Jane's Fighting Ships 2016/2017

2015-08-07

with over 260 images this is a highly illustrated history of the ships and operations of the royal navy during the reign of the late queen elizabeth ii during the 70 years spanned by the reign of the late queen elizabeth ii the royal navy changed out of all recognition its status as a superpower navy with worldwide bases and operations has been eclipsed but it remains a powerful force because of its potency if not its size maritime history author paul brown takes us through each decade in turn outlining the key events and developments and charting the changes to the size structure and capabilities of the navy fully illustrated with over 260 colour and black and white images this book also provides a stunning visual record of the ships and operations that featured most prominently in each decade
