tired disoriented and confused robert east was no match for the wolves when they arrived robert east loved his older brother tom but always resented tom s favored role in the family cattle business based at their san antonio viejo ranch near hebronville texas just north of the rio grande tom was a figure to be reckoned with a cattleman with ambitions to supplant their uncle bob kleberg head of the enormous king ranch as the leading cattle raiser in texas robert by contrast was a cowboy who cared little for what occurred beyond the san antonio viejo s main gate handsome and ornery with no head for business he nevertheless chafed in his brother s shadow until 1984

2023-04-23

11/22

introduction to mechanical engineering ppt

when tom died young of a heart attack just as their father tom east sr had 40 years earlier suddenly robert was the new and untested patrón of 250 000 acres of east family ranchland and the majority owner of the ocean of natural gas pooled beneath east rangeland it was his turn to issue the orders robert s contentious nature drove the easts into bitter intra family legal hostilities that persisted for a decade he lost his beloved sister lica to cancer and as old age advanced he found himself alone and isolated on a remote ranch with only an unreliable foreman and a scattering of vaqueros and other workers for company the physical wear and tear from decades of working cattle on horseback began to show robert s knees gave out and he developed serious cardiovascular problems his doctors prescribed pain pills sedatives and medications for his chronic depression in 2000 drillers hit the most productive gas well in the u s if not the world on east property making the rich old man suddenly and spectacularly wealthy beyond his comprehension soon enough the wolves began to circle and robert s grotesque final days were at hand

recovering our ancestral foodways is the first relational ethnography of quechua and maaori peoples philosophies of well being traditional ecological knowledge and contributions to sustainable food systems based on over ten years of fieldwork in peru and aotearoa new zealand this book explores how quechua and maaori peoples describe define and enact well being through the lens of foodways by analyzing how two indigenous communities operationalize knowledge to promote sustainable food

systems physical and spiritual well being and community health marialena huambachano unearths a powerful philosophy of food sovereignty called the chakana maahutonga huambachano argues that this indigenous food sovereignty framework offers a foundation for understanding the practices and policies needed to transform the global food system to nourish the world and preserve the earth one of the key features of this book written for indigenous communities students and scholars is the development of the author s original research methodology called the khipu model which will serve as a vital resource for future research on indigenous ways of knowing
