## ***Cambridge Economics in the Post-Keynesian Era 2022-11-11***

this book chronicles the rise and especially the demise of diverse revolutionary heterodox traditions in cambridge theoretical and applied economics investigating both the impact of internal pressures within the faculty as also the power of external ideological and political forces unleashed by the global dominance of neoliberalism using fresh archival materials personal interviews and recollections this meticulously researched narrative constructs the untold story of the eclipse of these heterodox and post keynesian intellectual traditions rooted and nurtured in cambridge since the 1920s and the rise to power of orthodox mainstream economics also expunged in this neoclassical counter revolution were the structural and radical policy oriented macro economic modelling teams of the iconic department of applied economics along with the atrophy of sociology development and economic history from teaching and research in the self purifying faculty this book will be of particular interest to researchers in the history of economic thought sociology of knowledge political economy especially those engaged in heterodox and post keynesian economics and to everyone wishing to make economics fit for purpose again for negotiating the multiple economic social and environmental crises rampant at national and global levels

## ***Literature, Science and Exploration in the Romantic Era 2007-07-23***

the authors of this study examine the massive impact of colonial exploration upon british scientific and literary activity between the 1760s and 1830s this broad ranging survey will appeal to literary and cultural studies scholars

## ***Merchants, Companies and Trade 2007-07-12***

the main objective of this book is to dispel some of the conventionally held views surrounding trade between europe and asia in the sixteenth and eighteenth centuries for instance through a comparative and comprehensive study of merchant communities markets and commodities the individual authors demonstrate that asian merchants were in no way inferior to europeans in terms of their commercial operations and business acumen the book as a whole attempts to view trade between europe and asia in its totality and emphasizes similarities rather than differences in the two regions

## ***Changing Course in Latin America 2014***

this book explores the impact of economic crises and free market reforms on party systems and political representation in contemporary latin america it explains why some patterns of market reform align and stabilize party systems whereas other patterns of reform leave party systems vulnerable to widespread social protest and electoral instability in contrast to other works on the topic this book accounts for both the institutionalization and the breakdown of party systems and it explains why latin america turned to the left politically in the aftermath of the market reform process ultimately it explains why this left turn was more radical in some countries than others and why it had such varied effects on national party systems

## ***Feminist Theory and International Relations in a Postmodern Era 1994-02-25***

this book evaluates the major debates around which the discipline of international relations has developed in the light of contemporary feminist theories

## **The Oxford Handbook of Industrial Hubs and Economic Development 2020-07-23**

this edited book explores diverse contestations and transformations of sovereignty around the world sovereignty plays a central role in modern political thought and practice but it also remains fundamentally contested depending on the context and perspective it seems either omnipresent or elusive liberating or oppressive fading or resilient indeed if in recent decades sovereignty has been expected to wane today it is back on the agenda not as the solid bedrock of modern international politics which it never was but as variations on a concept and institution that are ever contested and as a result constantly transforming bringing together perspectives from various disciplines including international relations ir political theory geography law and anthropology this volume goes beyond debates over the resilience or decline of sovereignty to instead emphasize how precisely the inherent ambiguities tensions and contestations in scholarship and practice spark sovereignty s manifold transformations offers three theoretical chapters that examine the illusions contradictions transformation and lasting appeal of sovereignty and the nation state explores sovereignty from various disciplinary perspectives in 11 empirical chapters that highlight its role in different contexts around the world from the european union eu to the south china sea to western sahara and palestine problematizes the interplay between theory and practice of statehood and sovereignty as in the perception of northern cyprus as a fake state scholars promotion of kurkish statehood in iraq and studies affirming the islamic state this book will be of much interest to students of statehood sovereignty conflict studies and international relations chapters 8 of this book are available for free in open access at taylorfrancis com it has been made available under a creative commons attribution no derivatives 4 0 license

## **Literature and Culture: Oxford Bibliographies Online Research Guide 2010-06**

this book analyses unamendability in democratic constitutionalism and engages critically and systematically with its perils offering a much needed corrective to existing understandings of this phenomenon whether formalized in the constitutional text or developed as part of judicial doctrines of implicit unamendability eternity clauses raise fundamental questions about the core democratic commitments underpinning any given constitution the book takes seriously the democratic challenge eternity clauses pose and argues that this goes beyond the old tension between constitutionalism and democracy instead eternity clauses reveal themselves to be a far more ambivalent constitutional mechanism one with greater and more insidious potential for abuse than has been recognized the dark side of unamendability includes its propensity to insulate majoritarian exclusionary and internally incoherent values as well as its sometimes purely pragmatic role in elite bargaining the book adopts a contextual approach and brings to the fore a variety of case studies from non traditional jurisdictions these insights from the periphery illuminate the prospects of unamendability fulfilling its intended aims protecting constitutional democracy foremost among them with its promise most appealing in transitional post conflict and fragile democracies unamendability reveals itself counterintuitively to be both less potent and potentially more dangerous in precisely these contexts the book also places the rise of eternity clauses in the context of other significant trends in recent constitutional practice the transnational embeddedness of constitution making and of constitutional adjudication the rise of popular participation in constitutional reform processes and the ongoing crisis of democratic backsliding in liberal democracies

## **Quarterly of Film, Radio and Television 1997**

using a unique interdisciplinary cultural institutional analysis politics of control is the first comprehensive study of how in the early decades of the people s republic of china the chinese communist party reshaped people s minds using multiple methods of control with newly available archival material internal circulars memoirs interviews and site visits the book explores the fascinating world of mass media book publishing education religion parks museums and architecture during the formative years of the republic when the communists assumed power in 1949 they projected themselves as not only military victors but also as peace restorers and cultural protectors believing that they needed to manage culture in every arena they created an interlocking system of agencies and regulations that was supervised at the center documents show however that there was internal conflict censors introduced early at the beijing daily

operated under the twofold leadership of municipal level editors but with final authorization from the communist party propaganda department politics of control looks behind the office doors where the ideological split between party chairman mao zedong and head of state liu shaoqi made pragmatic editors bite their pencil erasers and hope for the best book publishing followed a similar multi tier system preventing undesirable texts from getting into the hands of the public in addition to designing a plan to nurture a new generation of chinese revolutionaries the party state developed community centers that served as cultural propaganda stations new urban parks were used to stage political rallies for major campaigns and public trials where threatening sects could be attacked a fascinating part of the story is the way in which architecture and museums were used to promote ethnic unity under the chinese party state umbrella besides revealing how interlocking systems resulted in a pervasive method of control politics of control also examines how this system was influenced by the soviet union and how nevertheless chinese nationalism always took precedence chang tai hung convincingly argues that the prc s formative period defined the nature of the communist regime and its future development the methods of cultural control have changed over time but many continue to have relevance today

### ***Variations on Sovereignty 2023-05-24***

this book studies the funding problems with shareholder litigation through a functionally comparative way in fact funding problems with shareholder lawsuits may largely discourage potential shareholder litigants who bear high financial risk in pursuing such a claim but on the other hand they may not have much to gain considering the lack of incentives for potential shareholder claimants effective funding techniques should be in place to make shareholder actions function as a corporate governance tool and discipline corporate management the book analyzes among others the practice of funding shareholder litigation in the australia canada the uk the us and israel and covers all of the typical approaches being used in financing shareholder litigation in the current world for instance israel and canada quebec and ontario are probably unique in having a public funding mechanism for derivative actions and class actions while australia is the country where third party litigation funding is originated and is growing rapidly based on this comparative research the last part of this book discusses how to fund shareholder litigation in china in context of its social and legal background and what kind of problems need to be solved if certain funding techniques are used

### ***Eternity Clauses in Democratic Constitutionalism 2021-05-20***

the organization and characteristics of early and ancient states have become the focus of a renewed interest from archaeologists ancient historians and anthropologists in recent years on the one hand neo evolutionary schemas of political transformation find it difficult to define some of their most basic concepts such as chiefdom complex chiefdom and state not to mention the transition between them on the other hand teleological interpretations based on linear dynamics from less to increasingly more complex political structures in successive steps impose biased and too rigid views on the available evidence in fact recent research stresses the existence of other forms of socio political organization less vertically integrated and more heterarchical that proved highly successful and resilient in the long term in tying together social groups what is more such forms quite often represented the basic blocks on which states were built and that managed to survive once states collapsed finally nomadic maritime and mountain populations provide fascinating examples of societies that experienced alternative forms of political organization sometimes on a seasonal basis in other cases their consideration as marginal populations that cultivated specialized skills ensured them a certain degree of autonomy when living either within or at the borders of states this book explores such small scale socio political organizations their potential and the historical trajectories they stimulated a selection of historical case studies from different regions of the world may help rethink current concepts and views about the emergence and organization of political complexity and the mechanisms that prevented occasionally the emergence of solid polities they may also cast some light over trajectories of historical transformation still poorly understood as are the limits of effective state power this book explores the importance of comparative research and long term historical perspectives to avoid simplistic interpretations based on the characteristics of modern western states abusively used retrospectively

brazil has famously been called a country of contradictions it is a place where narratives of racial democracy exist in the face of stark inequalities and where the natural environment is celebrated as a point of national pride but at the same time is exploited at alarming rates to people on the outside looking in these contradictions seem hard to explain understanding contemporary brazil tackles these problems head on providing the perfect critical introduction to brazil s ongoing social political economic and cultural complexities key topics include national identity and political structure economic development environmental contexts and social policy urban issues and public security debates over culture race gender and spirituality social inequality protest and social movements foreign diplomacy and international engagement by considering more broadly the historical political economic and socio cultural roots of brazil s internal dynamics this interdisciplinary book equips readers with the contextual understanding and critical insight necessary to explore this fascinating country written by renowned authors at one of the world s most important centers for the study of brazil understanding contemporary brazil is ideal for university students and researchers yet also accessible to any reader looking to learn more about one of the world s largest and most significant countries

## **The Globalization of World Politics** 2014

nowhere has the u s military established more bases lost more troops or spent more money in the last thirty years than in the middle east and central asia these regions fall under the purview of united states central command centcom not coincidentally they include the most energy rich places on earth from its inception centcom was tasked with the military and economic security of this key strategic area the safeguarding of commercial opportunities therein and ultimately the policing of a pivotal yet precarious space in the broader global economy centcom calls this mission its long war this book tells the story of that long war a war underpinned by a range of entangled geopolitical and geoeconomic visions and involving the

use of the most devastating western interventionary violence of our time starting with a historical perspective john morrissey explores centcom s cold war origins and evolution before addressing key elements of the command s grand strategy including its interventionary rationales and use of the law in war engaging a wide range of scholarship on neoliberalism imperialism geopolitics and orientalism the book then looks in depth at the military interventions centcom has spearheaded and critically assesses their consequences in terms of human geography recent books on centcom have focused on command structures intelligence issues and interpersonal rivalries in contrast the long war asks critical questions about centcom s leading role in shaping and enacting u s foreign policy over the last thirty years the book positions centcom pivotally in the story of u s global ambition over this period by documenting its efforts to oversee a global security strategy defined in military economic terms and enabled via specific legal territorial tactics this is an important new study on the blurring of war and economic aims on a global scale

the essays in the volume deal with a broad range factors integral to indian history in the early modern era they unfold many facets of the trade politics and society of the country and offer new perspectives which will help dispel some long held misconceptions the first part of the book is concerned mainly with trade and commerce in bengal while subsequent chapters provide an extensive survey of maritime trade in the indian ocean and the unique contribution of armenian communities in dhaka s commercial and social life of the eighteenth century

## ***Understanding Contemporary Brazil 2018-12-18***

how can policymakers effectively reduce poverty most mainstream economists advocate promoting economic growth on the grounds that it generally reduces poverty while bringing other economic benefits however this dominant hypothesis offers few alternatives for economies that are unable to grow or in places where economic growth fails to reduce or actually exacerbates poverty in small works john a donaldson draws on his extensive fieldwork in two chinese provinces yunnan and guizhou that are exceptions to the purported relationship between economic growth and poverty reduction in yunnan an outward oriented developmental state one that focuses on large scale urban development has largely failed to reduce poverty even though it succeeded in stimulating economic growth provincial policy shaped roads tourism and mining in ways that often precluded participation by poor people by contrast guizhou is a micro oriented state one that promotes small scale low skill economic opportunities and so reduces poverty despite slow economic growth it is no coincidence that this guizhou approach parallels the ideas encapsulated in the scientific development view of china s current president hu jintao after all hu when guizhou s leader helped establish the micro oriented state in the province donaldson s conclusions have implications for our understanding of development and poverty reduction economic change in china and the thinking behind china s policy decisions

## ***The Long War 2017-06-15***

cosmopolitan conceptions of justice in global politics are gaining in importance in the field of international political theory cosmopolitanism claims that we owe duties of justice to all the persons of the world and thus that normative theories of global politics should focus first on the interests or welfare of persons rather than of states providing a thorough analysis of relevant literature and covering issues such as war and conflict peace and human security accountability for gross violations of human rights environmental degradation and the democratic deficit in transnational political actions and institutions patrick hayden deftly examines the connections between accounts of cosmopolitanism and the part they play in contemporary global politics he identifies competing theories of cosmopolitanism and defends them as strategies for serving the aims of justice in world affairs furthermore he explores how cosmopolitan theories can function positively in processes of shaping international norms

## ***Trade, Politics and Society 2016-09-13***

what would medieval english literature look like if we viewed it through the lens of the compendium in that case john trevisa might come into focus as the major author of the

fourteenth century trevisa d 1402 made a career of translating big informational texts from latin into english prose these included ranulph higden s polychronicon an enormous universal history bartholomaeus anglicus s well known natural encyclopedia de proprietatibus rerum and giles of rome s advice for princes manual de regimine principum these were shrewd choices accessible and on trend de proprietatibus rerum and de regimine principum had already been translated into french and copied in deluxe manuscripts for the french and english nobility and the polychronicon had been circulating england for several decades this book argues that john trevisa s translations of compendious informational texts disclose an alternative literary history by way of information culture bold and lively experiments these translations were a gamble that the future of literature in england was informational prose this book argues that trevisa s oeuvre reveals an alternative literary history more culturally expansive and more generically diverse than that which we typically construct for his contemporaries geoffrey chaucer and william langland thirteenth and early fourteenth century european writers compiled massive reference books which would shape knowledge well into the renaissance this study maintains that they had a major impact on english poetry and prose in fact what we now recognize to be literary properties emerged in part from translations of medieval compendia with their inventive ways of handling vast quantities of information

### ***Small Works 2011-08-15***

this is an accessible new examination of what security means today contextualizing the term amongst other key ideas such as the nation state diplomacy war and autonomy by exploring the many differing conceptions of security this study clearly explains how the idea of security in world affairs can be understood in relation to other ideas and points of view it shows how when standing alone the word security is meaningless or just an empty term when divorced from other ideas distinctive to international life this essential new volume tackles the key questions in the debate what norms of sovereignty relate to security does security necessarily follow from the recognition of identity what sort of obligations in respect of security attach to power how far can a political arrangement of empire remedy human insecurity can trusteeship provide security in a world of legally equal sovereign states is security the guarantor of freedom this book is an excellent resource for students and scholars of security studies and politics and international relations
