discover the skiing downhill of the argentières mountain in this very detailed and documented book written by one of the most talented skiers of his generation located at the very heart of the highest mountains of europe the majestic argentières massif stands as a reference among the most sacred skiing places in the world when winter comes this snow addict heaven offers a unique range of dream slopes from the easiest to the most breathtakingly high ones anselme baud is an extreme skiing leading head and one of the best experts of this mountain from classic skiing hikes to mountaineering competitions this guide book presents a precise description of all the biggest slopes this mythic area could offer in this volume you can find all the information about the argentières thanks to his charming accounts and instructive advice anselme baud shares with us his precious and wide experience as a high mountain guide and an exceptional skier about the author born in morzine in 1948 anselme baud left his mark on the alps skiing steep slopes history as a high mountain guide in 1973 he was one the first to ski on extreme downhill in the alps the andes in antarctica or in the himalayas as an ensa professor he supervised during several years the mountain guides trainings in bolivia and nepal excerpt the argentière basin is quite unique in the french alps from piste skiing to off piste descents and ski mountaineering tours there is a fantastic selection of routes for all levels of skier on offer in this area freeriders and ski tourers can take their pick of superb off piste routes pas de chèvre argentière glacier the great couloirs chapeau poubelles and classic tours col du chardonnet col du passon and the big extreme slopes courtes verte the grands montets is the starting point for the classic chamonix zermatt haute route and it also allows access to switzerland via the col du chardonnet this means that some of the tours can be done in a day or you can do them in two stages by staying at the argentière hut unfortunately the popularity of the grands montets ski station sometimes distracts a little from the splendour of the surrounding landscape as the crowds of visitors to the slopes sometimes show a certain lack of respect for the environment that welcomes them nevertheless with a little bit of effort you can still find peace and quiet and more importantly slopes of untracked snow here

discover the skiing downhill of the géant mountain in this very detailed and documented book written by one of the most talented skiers of his generation located at the very heart of the highest mountains of europe the majestic géant massif stands as a reference among the most sacred skiing places in the world when winter comes this snow addict heaven offers a unique range of dream slopes from the easiest to the most breathtakingly high ones anselme baud is an extreme skiing leading head and one of the best experts of this mountain from classic skiing hikes to mountaineering competitions this guide book presents a precise description of all the biggest slopes this mythic area could offer in this volume you can find all the information about the géant thanks to his charming accounts and instructive advice anselme baud shares with us his precious and wide experience as a high mountain guide and an exceptional skier about the author born in morzine in 1948 anselme baud left his mark on the alps skiing steep slopes history as a high mountain guide in 1973 he was one the first to ski on extreme downhill in the alps the andes in antarctica or in the himalayas as an ensa professor he supervised during several years the mountain guides trainings in bolivia and nepal excerpt the vallée blanche forms the backbone of this area and it can be accessed quickly from the aiguille du midi the starting point for routes on the géant glacier the tacul and the périades unlike the routes in the previous chapter most of the tours here can be done in a day and the height gains are not excessive maximum of 900m also in this part of the massif there is a broad range of routes and you will find steep slopes and classic tours next door to each other for all these reasons this is a very popular area there are lots of people on the easy routes by the aiguilles marbrées and the col d entrèves while the brèche puiseux area is less

popular but also more and more amateur extreme skiers are trying routes on the tour ronde and the big couloirs on the tacul diable gervasutti jager however these figures pale into insignificance compared with the hordes of skiers and boarders who can be found on the world famous vallée blanche from the beginning of the winter right through to the end of may indeed you feel the contrast most strikingly once with skins on your skis you start climbing up towards the less accessible routes
