Progress in Episodic Memory Research 2016-05-25

during the period of aztec expansion and empire ca 1325 1525 scribes of high social standing used a pictographic writing system to paint hundreds of manuscripts detailing myriad aspects of life including historical calendric and religious information following the spanish conquest native and mestizo tlacuiloque artist scribes of the sixteenth century continued to use pre hispanic pictorial writing systems to record information about native culture three of these manuscripts codex boturini codex azcatitlan and codex aubin document the origin and migration of the mexica people one of several indigenous groups often collectively referred to as aztec in portraying the aztec past angela herren rajagopalan offers a thorough study of these closely linked manuscripts articulating their narrative and formal connections and examining differences in format style and communicative strategies through analyses that focus on the materials stylistic traits facture and narrative qualities of the codices she places these annals in their historical and social contexts her work adds to our understanding of the production and function of these manuscripts and explores how mexica identity is presented and framed after the conquest

Story in Children's Lives: Contributions of the Narrative Mode to Early Childhood Development, Literacy, and Learning 2019-09-27

narrative and media first published in 2006 applies narrative theory to media texts including film television radio advertising and print journalism drawing on research in structuralist and post structuralist theory as well as functional grammar and image analysis the book explains the narrative techniques which shape media texts and offers interpretive tools for analysing meaning and ideology each section looks at particular media forms and shows how elements such as chronology character and focalization are realized in specific texts as the boundaries between entertainment and information in the mass media continue to dissolve understanding the ways in which modes of story telling are seamlessly transferred from one medium to another and the ideological implications of these strategies is an essential aspect of media studies

Nineteenth-Century Serial Narrative in Transnational Perspective, 1830s–1860s 2019-05-24

blood narrative is a comparative literary and cultural study of post world war ii literary and activist texts by new zealand maori and american indians groups who share much in their responses to european settler colonialism chadwick allen reveals the complex narrative tactics employed by writers and activists in these societies that enabled them to realize unprecedented practical power in making both their voices and their own sense of indigeneity heard allen

shows how both maori and native americans resisted the assimilationist tide rising out of world war ii and how in the 1960s and 1970s they each experienced a renaissance of political and cultural activism and literary production that culminated in the formation of the first general assembly of the world council of indigenous peoples he focuses his comparison on two fronts first the blood land memory complex that refers to these groups struggles to define indigeneity and to be freed from the definitions of authenticity imposed by dominant settler cultures allen s second focus is on the discourse of treaties between american indians and the u s government and between maori and great britain which he contends offers strong legal and moral bases from which these indigenous minorities can argue land and resource rights as well as cultural and identity politics with its implicit critique of multiculturalism and of postcolonial studies that have tended to neglect the colonized status of indigenous first world minorities blood narrative will appeal to students and scholars of literature american and european history multiculturalism postcolonialism and comparative cultural studies

ICE-BEES 2021 2022-03-17

information design provides citizens business and government with a means of presenting and interacting with complex information it embraces applications from wayfinding and map reading to forms design from website and screen layout to instruction done well it can communicate across languages and cultures convey complicated instructions even change behaviours information design offers an authoritative guide to this important multidisciplinary subject the book weaves design theory and methods with case studies of professional practice from leading information designers across the world the heavily illustrated text is rigorous yet readable and offers a single must have reference to anyone interested in information design or any of its related disciplines such as interaction design and information architecture information graphics document design universal design service design map making and wayfinding

HQMC Supplement to the Department of the Navy (DON) Correspondence Manual 1992
