Tourism in the Mediterranean Sea 2021-03-01

tourism in the mediterranean sea an italian perspective is the product of a collaborative group of experts in the field of tourism academics whose research focuses on regional tourism system governance alongside several experts from the tourism sector contributed to the volume with distinct issues related to the tourism industry

The Case for The Enlightenment 2005-10-27

an interesting and ambitious comparative study of the emergence of enlightenment in scotland and naples challenging the tendency to fragment the enlightenment in eighteenth century europe into multiple enlightenments john robertson demonstrates the extent to which thinkers in two societies at the opposite ends of europe shared common intellectual preoccupations

Risorgimento in Exile 2009-08-27

the experience of exiles was fundamental for shaping italian national identity risorgimento in exile investigates the contribution to italian nationalism made by the numerous patriots who were forced to live in exile

following failed revolutions in the italian states examining the writings of such exiles maurizio isabella challenges recent historiography regarding the lack of genuine liberal culture in the risorgimento he argues that these émigrés involvement in debates with british continental and american intellectuals points to the emergence of liberalism and romanticism as international ideologies shared by a community of patriots that stretched from europe to latin america risorgimento in exile represents the first effort to place italian patriotism in a broad international framework revealing the importance and originality of the italian contribution to european anglophilia and philhellenism and to transatlantic debates on federalism in doing so it demonstrates that the risorgimento first developed as a variation upon such global trends

Immobilienrecht in Europa

2015-01-14

beim immobilienerwerb im ausland gilt es eine vielzahl länderspezifischer regelungen und besonderheiten zu beachten probleme zu bewältigen und sich vor gefahren abzusichern wer seinen mandanten rund um den immobilienerwerb im europäischen ausland auch unter steuerlichen und erbrechtlichen gesichtspunkten kompetent beraten will wird auf dieses handbuch nicht verzichten können

L'esame di dottore commercialista.

Prova orale 2012

this book explores different dimensions of the field of corporate governance and social responsibility it discusses how business and society perceive and relate to csr how the field has continued to reshape modern corporate boardrooms in both the advanced and emerging economies how csr has transformed the manner in which modern corporate entities disclose the non financial information aspect of their operations to the world at large and the way in which sustainable development has continued to contribute to improving the quintuple bottom line people planet prosperity partnership and peace of 21st century corporate entities further the book also provides evidence of how these aspects of corporate social responsibility are depicted in different forms in eleven nations around the globe

Dimensional Corporate Governance *2017-06-07*

an indispensable guide to making the transition to dual ifrs gaap financial reporting u s financial reporting will undergo an unprecedented level of change within the next several years u s companies face a convergence between u s gaap and ifrs affecting several major accounting standards most notably in the areas of leasing revenue recognition and financial instruments it is imperative that u s companies understand these major changes and their business and operational implications the ifrs u s gaap dual reporting handbook to first time adoption offers a comprehensive treatment of both the principles and techniques of dual reporting under ifrs u s gaap while

exploring the practical implications for accounting professionals of reporting under both sets of standards takes an operating approach to the implementation and application of the dual standards draws upon the author's extensive firsthand experience to dispel uncertainty and offer decision makers expert technical assistance defines systemic changes businesses will need to make to accommodate ifrs standards compares the two bodies of standards item by item and identifies solutions under one set of standards to issues arising under the other explores the strategic impact of structuring a company for ifrs transition in addition to covering the full range of critical issues surrounding adopting ifrs this indispensable handbook is a rich resource of dual reporting tools including financial statement formats charts of accounts accounting check lists reconciliation schedules and operating manuals

The Handbook to IFRS Transition and to IFRS U.S. GAAP Dual Reporting 2012-05-07

this book tells the curious story of an unexpected finding that sheds light on a crucial moment in the development of physics the discovery of artificial radioactivity induced by neutrons the finding in question is a notebook clearly written in fermi's handwriting which records the frenzied days and nights that fermi spent experimenting alone driven by his theoretical ideas on beta decay the notebook was found by the authors while browsing through documents left by oscar d agostino the chemist among fermi's group from fermi's notes they reconstruct with skill and expertise the detailed timeline of the critical days

leading up to his vital discovery while much is already known about the road that led Fermi to his important result this is the first time that it has been possible to reconstruct precisely when and how the initial evidence of neutron induced decay was obtained in relating this fascinating story the book will be of great interest not only to those with a passion for the history of science but also to a wider audience

The Lost Notebook of ENRICO FERMI 2017-11-27

this book contains the proceedings of the seventh national conference of the Italian Systems Society the title *Systemics of Incompleteness and Quasi-Systems* aims to underline the need for systemics and systems science to deal with the concepts of incompleteness and quasiness classical models of systemics are intended to represent comprehensive aspects of phenomena and processes they consider the phenomena in their temporal and spatial completeness in these cases possible incompleteness in the modelling is assumed to have a provisional or practical nature which is still under study and because there is no theoretical reason why the modelling cannot be complete in principle this is a matter of non-complex phenomena to be considered using the concepts of the first systemics when dealing with emergence there are phenomena which must be modelled by systems having multiple models depending on the aspects being taken into consideration here incompleteness in the modelling is intrinsic theoretically relating changes in properties structures and status of system rather than consider the same system parametrically changing over time we consider sequences

of systems coherently we consider contexts and processes for which modelling is incomplete being related to only some properties as well as those for which such modelling is theoretically incomplete as in the case of processes of emergence and for approaches considered by the second systemics in this regard we consider here the generic concept of quasi explicating such incompleteness the concept of quasi is used in various disciplines including quasi crystals quasi particles quasi electric fields and quasi periodicity in general the concept of quasiness for systems concerns their continuous structural changes which are always meta stable waiting for events to collapse over other configurations and possible forms of stability whose equivalence depends on the type of phenomenon under study interest in the concept of quasiness is not related to its meaning of rough approximation but because it indicates an incompleteness which is structurally sufficient to accommodate processes of emergence and sustain coherence or generate new equivalent or non equivalent levels the conference was devoted to identifying discussing and understanding possible interrelationships of theoretical disciplinary improvements recognised as having prospective fundamental roles for a new quasi systemics the latter should be able to deal with problems related to complexity in more general and realistic ways when a system is not always a system and not always the same system in this context the inter disciplinarity should consist for instance of a constructionist incomplete non ideological multiple contradiction tolerant systemics always in progress and in its turn emergent

Dal problema al programma. Introduzione al problem-solving in linguaggio C 2016

this book discusses the foundations of social and environmental accounting and highlights local differences in countries like italy and bulgaria it also describes the institutional environment which affects the development and application of environmental accounting and reporting as a basis for evaluating current achievements and the future steps that need to be taken to develop and spread environmental accounting the book is unique in presenting exemplary cases from different emerging and developed countries it is a valuable resource for theorists in the field practitioners in companies as well as investors and other stakeholders moreover it provides students with the necessary theoretical constructs empirical studies as well as practical and managerial tools to allow for a quick orientation in the methodology techniques and selected practices used in environmental accounting and reporting

Systemics of Incompleteness and Quasi-Systems 2019-06-20

this monograph provides an account of how the synthetic nitrogen industry became the forerunner of the 20th century chemical industry in europe the united states and asia based on an earlier springerbrief by the same author which focused on the period of world war i it expands considerably on the international aspects of the development of the synthetic nitrogen industry in the decade and a half following the war including the new

technologies that rivalled the haber bosch ammonia process travis describes the tremendous global impact of fixed nitrogen as calcium cyanamide and ammonia including the perceived strategic need for nitrogen mainly for munitions and increasingly its role in increasing crop yields including in italy under mussolini and in the soviet union under stalin the author also reviews the situation in imperial japan including the earliest adoption of the italian casale ammonia process from 1923 and the role of fixed nitrogen in the industrialization of colonial korea from the late 1920s chemists historians of science and technology and those interested in world fertilizer production and the development of chemical industry during the first four decades of the twentieth century will find this book of considerable value

Environmental Accounting and Reporting 2017-04-05

the aim of the eu directive 2014 95 eu requiring the mandatory disclosure of non financial information nfi by large undertakings and groups is to rebuild trust with stakeholders this book aims to summarize the relevant literature about company information with particular reference to the voluntary vis a vis mandatory nfi

Società a responsabilità limitata. Manuale e formulario. Con CD-ROM 2012

the european company se is a legal entity offering a european perspective for businesses its purpose is to allow

businesses that wish to extend their activities beyond their home member state to operate throughout the eu on the basis of one set of rules and a unified management system the book explains how to set up and organise a european company as well as setting out the text of the ec instruments a regulation and a directive serving as its legal basis and a list of national implementing laws this second volume reports on the countries which have legislated during 2005 and 2006 divided into two sections it first offers critical review of the usefulness of and the opportunities presented by this new vehicle analyses the regulation and the directive and examines the tax aspects of the se the second part reports on each of the member states

Nitrogen Capture 2018-04-24

this 2006 textbook introduces the various theories of case and how they account for its distribution across languages

Mandatory and Discretionary Non-financial Disclosure After the European Directive 2014/95/EU 2020-06-04

the critically acclaimed serialized review journal for over 50 years advances in geophysics is a highly respected publication in the field of geophysics since 1952 each volume has been eagerly awaited frequently consulted and praised by researchers and reviewers alike now in its 56th volume it contains much material still relevant today truly an essential publication for researchers in all fields of

geophysics contributions from leading authorities informs and updates on all the latest developments in the field

The European Company: Volume 2 2008-03-13

la truffa è il meccanismo con il quale si convince una persona di avere un vantaggio di qualche tipo circa una certa questione e la certezza di avere questo vantaggio riduce o in certi casi annulla le difese mentali del truffato come per difendersi dagli aggressori si frequentano corsi di difesa personale così per diventare immuni agli attacchi informatici bisogna fare allenamento una ginnastica mentale che ci consenta di cambiare il punto di vista non leggere i messaggi con gli occhi di una potenziale vittima ma con quelli del truffatore che li ha scritti questo libro vuole essere a metà tra un romanzo ed un saggio dove è possibile guardare attraverso una serie di raggiri informatici dapprima con gli occhi di una vittima e poi con quelli dell'aggressore ed imparare in questo modo ad osservare i fatti dai due diversi ma complementari punti di vista

Theories of Case 2006-02-16

a companion that examines together two pivotal periods of greek archaeology and offers a rich analysis of early greek culture a companion to the archaeology of early greece and the mediterranean offers an original and inclusive review of two key periods of greek archaeology which are typically treated separately the late bronze age and the early iron age it presents an in depth exploration of the society and material culture of greece and the mediterranean from the

14th to the early 7th centuries bc the two volume companion sets aegean developments within their broader geographic and cultural context and presents the wide ranging interactions with the mediterranean the companion bridges the gap that typically exists between prehistoric and classical archaeology and examines material culture and social practice across greece and the mediterranean a number of specialists examine the environment and demography and analyze a range of textual and archaeological evidence to shed light on socio political and cultural developments the companion also emphasizes regionalism in the archaeology of early greece and examines the responses of different regions to major phenomena such as state formation literacy migration and colonization comprehensive in scope this important companion outlines major developments in the two key phases of early greece the late bronze age and the early iron age includes studies of the geography chronology and demography of early greece explores the development of early greek state and society and examines economy religion art and material culture sets aegean developments within their mediterranean context written for students and scholars interested in the material culture of the era a companion to the archaeology of early greece and the mediterranean offers a comprehensive and authoritative guide that bridges the gap between the late bronze age and the early iron age

Advances in Geophysics 2015-04-07

in this study henk th van veen reassesses how cosimo de medici represented himself in images during the course of his rule the text examines not only art and architecture but also literature historiography religion and festive culture

Davide contro Golia nel mondo delle truffe 2015-06-13

la morale universale è un'opera composta da tre tomi qui riuniti in un unico volume pubblicata nel 1776 dal filosofo illuminista d'holbach l'opera tradotta per la prima volta in italiano inizia con la trattazione dei principi della morale essi sono fondati sulla natura dell'uomo che cerca sempre di conservarsi e di rendere la propria esistenza felice segue l'analisi delle virtù e dei vizi degli uomini ossia delle disposizioni che li possono portare alla felicità o all'infelicità infine sono delineati i doveri della vita pubblica e della vita privata ovvero come sia saggio comportarsi in ogni condizione della vita

A Companion to the Archaeology of Early Greece and the Mediterranean 2019-11-13

this book focuses on maritime employment from a private international law perspective the first chapter analyzes the background against which international jurisdiction and conflict of laws rules are drawn up and examines uniform law in this context in particular the 2006 maritime labour convention and the 2007 ilo convention no 188 on work in fishing the second chapter addresses international jurisdiction issues as regards individual employment contracts while also exploring other issues e.g. insolvency related and social security matters that are subsequently revisited in the third chapter while discussing conflict of laws issues related to said contracts in turn chapter four focuses on collective labour relations and private

international law i e collective agreements strikes and other forms of collective action and information and on the participation rights of employees in business matters

Statistica delle casse di risparmio per l'anno... 1891

a unique series of fascinating research papers on subjects related to the work of niels henrik abel written by some of the foremost specialists in their fields some of the authors have been specifically invited to present papers discussing the influence of abel in a mathematical historical context others have submitted papers presented at the abel bicentennial conference oslo june 3 8 2002 the idea behind the book has been to produce a text covering a substantial part of the legacy of abel as perceived at the beginning of the 21st century

Cosimo I De' Medici and His Self-Representation in Florentine Art and Culture 2006-08-21

this book analyzes the modern trend in the japanese m and a market it reveals from different perspectives the process of convergence to a new monitoring model of the corporation the market for corporate control the book contains a systematic survey of all relevant economic and legal information in this field analysis of 17 recent cases of hostile takeover is presented

La Morale Universale 2018-10-10

this book explores the various connections between law and opera providing a comprehensive multinational and multidisciplinary with approaches from jurists philosophers musicologist historians resource on the subject further it makes a valuable contribution to studies on law and the humanities while for example the relationship between law and literature has been extensively researched the relationship between law and opera remains largely overlooked the book approaches the topic from three perspectives in three main sections law in opera law on opera and law around opera

International Maritime Labour Law 2015-05-25

the insightful essays in this book shine a new light on the roles of women within criminal networks roles that in reality are often less traditional than researchers used to think the book seeks to answer questions from a wide range of academic disciplines and traces the portrait of women tied to organized crime in italy and around the world the book offers up accounts of mafia women and also tales of severe abuse and violence against women

The Legacy of Niels Henrik Abel 2011-06-28

dai periodici convegni e seminari organizzati dalla confservizi cispel sardegna tesi ad approfondire le tematiche più scottanti le più recenti novelle legislative

nonché tutte le problematiche segnalate dagli associati in tema di società partecipate e società in house nasce il presente volume nello stesso si ripercorrono tutte le novità legislative e giurisprudenziali più recenti fino alla direttiva sugli appalti pubblici 2014/24/UE del 26 febbraio 2014 che porterà numerosi cambiamenti nella materia in esame lo scritto è suddiviso in due parti una prima sezione di carattere storico illustra disposizioni normative anche recenti che sono state poi superate a livello giurisprudenziale o legislativo ma che restano di grande utilità ai fini della conoscenza della materia nella seconda parte sono invece affrontati tutti i temi di più attuale interesse alla luce della normativa vigente e della giurisprudenza più recente la confservizi cispel sardegna è l'associazione regionale senza scopo di lucro che rappresenta il sindacato d'impresa dei soggetti gestori di servizi pubblici in sardegna essa è una delle diciassette associazioni regionali nelle quali la confservizi nazionale si ripartisce e svolge numerosi compiti e servizi a favore dei propri associati tra cui quello di supporto costante per la formazione e l'aggiornamento degli associati stessi

The Market for Corporate Control in Japan 2007-09-04

in questo libro aggiornato nel 2019 si trattano la sicurezza delle informazioni i relativi processi di valutazione e trattamento del rischio con un'ampia parte teorica bilanciata da molti esempi i controlli di sicurezza il testo si basa sulle norme ISO/IEC 27001 e ISO/IEC 27002 secondo interpretazioni maturate durante i lavori di scrittura della norma stessa a cui l'autore ha partecipato le appendici riportano brevi presentazioni sulla gestione degli auditor

sulla certificazione iso iec 27001 sui common criteria e sulle fips 140 e delle check list per la gestione dei cambiamenti l'identificazione delle minacce e i contratti con i fornitori

Law and Opera 2018-01-30

the purpose of the edited collection families in economically hard times experiences and coping strategies in europe is to provide readers with unique sociological knowledge on european families experiences and behavioural strategies a decade after economic crisis of the 21st century

Women and the Mafia 2007-09-04

this book collects 4 keynote and 15 theme lectures presented at the 2nd european conference on earthquake engineering and seismology 2007 held in istanbul turkey from august 24 to 29 2007 the conference was organized by the turkish earthquake foundation earthquake engineering committee and prime ministry disaster and emergency management presidency under the auspices of the european association for earthquake engineering eae and european seismological commission esc the book contains nineteen state of the art chapters were written by the most prominent researchers in europe and address a comprehensive collection of topics on earthquake engineering as well as interdisciplinary subjects such as engineering seismology and seismic risk assessment and management further topics include engineering seismology geotechnical earthquake engineering seismic performance of buildings earthquake resistant engineering structures new techniques and technologies and managing risk in seismic regions the book also presents the first professor

inge lehmann distinguished award lecture given by prof shamita das in honor of prof dr inge lehmann the aim of this work is to present the state of the art and latest practices in the fields of earthquake engineering and seismology with europe s most respected researchers addressing recent and ongoing developments while also proposing innovative avenues for future research and development given its cutting edge conten t and broad spectrum of topics the book offers a unique reference guide for researchers in these fields audience this book is of interest to civil engineers in the fields of geotechnical and structural earthquake engineering scientists and researchers in the fields of seismology geology and geophysics not only scientists engineers and students but also those interested in earthquake hazard assessment and mitigation will find in this book the most recent advances

Giornale dei lavori pubblici e delle strade ferrate 1896

volume xxii 2 of history of universities contains the customary mix of learned articles book reviews and bibliographical information which makes this publication such an indispensable tool for the historian of higher education its contributions range widely geographically chronologically and in subject matter the volume is as always a lively combination of original research and invaluable reference material
