little boy lost little boy lost depicts the life journey of an american male as his studies in the chosen field of psychology play a

secondary role to the more profoundly influencing people places and events which he encounters along the way shaping his perceptions and beliefs it is a story about the trials and tribulations of growing up as a man in american middle class suburbia its a story told with brutal honesty humor and irony little boy lost strips away the male mystique and bravado and uncovers the fear anxiety and dark urges which many men experience but dont discuss it is not a book about men being from other planets it is a book about an actual educated professional relatively successful man who is far from perfect and who the author hopes other men will both relate to identify with and be inspired as well as allowing the female reader to more completely understand the inner workings and emotions of their male counterparts
