The Inner Path 2012-06-01 this is not another book about dogmatic christianity it is about the

discipline given to us through the hidden message of the new testament it is a path that has been hidden because it was lived and not spoken the early christians discovered something extraordinary it completely changed lives healed sickness made people want to go out and tell others and in some cases was worth dying for and that has been true for me too as i took this path of discipleship those early christians expressed what they found in language and in imagery that was understandable to them what they found was something that worked just as in a more recent age the use of electricity was discovered and applied and this discovery of electricity was the application of previously unknown natural processes so the christian discovery was one of natural processes of the mind and emotions too unfortunately as time has passed the language in which those findings were expressed has come to mean less and less to many people in fact we may view their statements as perhaps referring to the realm of beliefs or dogma rather than of practical principles
