UPRT 2015 2016-08-13 international migration and the social diversity it creates constitute one of the key global challenges of the early 21st century language and communication barriers can compromise equitable access in diverse societies and where socioeconomic disadvantage becomes entrenched it poses risks to security productivity and quality of life clearly this is an important issue and migrants and their language choices are heavily politicized though political and media debates often rely on anecdotal conjecture or are ill informed life in a new language examines the language learning and settlement experiences of 130 migrants to australia from 34 different countries in africa asia europe and latin america over a period of 20 years reusing data shared from six separate sociolinguistic ethnographies the book illuminates participants lived experience of learning and communicating in a new language finding work and doing family additionally participants experiences with racism and identity making in a new context are explored the research uncovers significant hardship but also migrants

courage and resilience the book has implications for language service provision migration policy open science and social justice movements

Step by Step 2009 the field of applied linguistics covers a diverse range of research and practice and has developed somewhat differently in various parts of the world due to variations in local socio cultural conditions needs and issues however this local diversity does not reflect a field that is incoherent but rather one which has a broad shared international agenda which is invigorated by the diversity brought to the field by local perspectives the papers in this volume represent some of the major global directions that research in applied linguistics is taking and shed light on how language is used to affect practice the aim of this volume is to explore some of the key methods and issues which are guiding applied linguistics into the future through an examination of these issues in local contexts thereby providing a basis for understanding the global directions the field is taking these directions follow two historically defined paths those related to educational studies and language teaching and those related to social issues involving language in the volume half the papers focus on the former examining issues of language teaching language teacher education and second language acquisition while the other half examine social issues related to language use bilingualism and multilingualism and language policy and planning the collection of papers presented in this book illustrates how these traditional themes are influenced by the rising forces of globalisation and the use of technology thus exemplifying both the new and old ways in which the study of language is realised

Introducing English for Specific Purposes 2018-05-15 this is the second volume in a series of three books called within language beyond theories which focuses on current linguistic research surpassing the limits of contemporary theoretical frameworks in order to provide new insights into the structure of the language system and to offer more comprehensive accounts of linguistic phenomena from a number of the world's languages the volume is composed of eighteen chapters each focusing on a significant issue in the field of applied linguistics part i covers articles relating to language learning and teaching the authors here are preoccupied with such topics as innovative methods of teaching phonetics meaning and form based instructions and call related strategies in language learning test design and the issue of conversational convergence among advanced non native speakers this section also provides interesting insights into the role of pragmatics in the business english course syllabus and content and language integrated learning clil part ii brings together papers devoted to language acquisition a psycholinguistic perspective on onomatopoeias the impact of physical attractiveness on the perception of a foreign accent and the problem of endangered languages articles included in part iii are concerned with the practical application of the conceptual theory of metaphor and metonymy and frame semantics in lexicography specialist dictionaries and recent issues in translation studies drawing on the most recent advances in applied linguistics the contributions to this volume address key issues in the field and formulate original solutions to a selection of widely debated problems the analyses are firmly based on linguistic data obtained in the course of the authors own research the applicability of existing approaches is tested against evidence from a number of languages such as latvian spanish polish hungarian english turkish and german and inspiring new ideas and creative solutions are proposed the volume will be of

Longman Dictionary of Language Teaching and Applied Linguistics 2013-11-04 applied linguistics is understood to deal with language in use particularly where institutions and interventions are involved this alphabetic guide provides definitions and discussion of key terms used in the field the selection of items offers a view of applied linguistics as an activity in its own right and therefore helps define it
