as the night advanced a fierce wind arose from the woods and quickly dispersed the clouds that had loitered in the heavens the blast tore along like a mighty avalanche and produced a kind of insanity in my spirits that burst all bounds of reason and reflection i lighted the dry branch of a tree and danced with fury around the devoted cottage my eyes still fixed on the western horizon the edge of which the moon nearly touched a part of its orb was at length hid and i waved my brand it sunk and with a loud scream i fired the straw and heath and bushes which i had collected the wind fanned the fire and the cottage was quickly enveloped by the flames which clung to it and licked it with their forked and destroying tongues the mutated hybrid of enlightenment optimism and gothic cynicism of humanism and environmentalism frankenstein offers a chilling postmortem of humanity s confident drive to master and operate the cosmos generative and degenerative functions the disastrous fable of man s bastardization of nature is as much a tragedy of the neglected offspring of human ingenuity and cosmic nature as it is an elegy of the hopes for mankind s progress in the gory wake of the french revolution

## **Frankenstein Or the Modern Prometheus - Original 1818 Text**

1974

mary wollstonecraft shelley godwin 30 august 1797 1 february 1851 was an english novelist who wrote the gothic novel frankenstein or the modern prometheus 1818 which is considered an early example of science fiction she also edited and promoted the works of her husband the romantic poet and philosopher percy bysshe shelley her father was the political philosopher william godwin and her mother was the philosopher and feminist activist mary wollstonecraft shelley s mother died less than a month after giving birth to her she was raised by her father who provided her with a rich if informal education encouraging her to adhere to his own anarchist political theories when she was four her father married a neighbor mary jane clairmont with whom shelley came to have a troubled relationship in 1814 shelley began a romance with one of her father s political followers percy bysshe shelley who was already married together with her stepsister claire clairmont she and percy left for france and traveled through europe upon their return to england shelley was pregnant with percy s child over the next two years she and percy faced ostracism constant debt and the death of their prematurely born daughter they married in late 1816 after the suicide of percy shelley s first wife harriet in 1816 the couple and her stepsister famously

spent a summer with lord byron and john william polidori near geneva switzerland where shelley conceived the idea for her novel frankenstein the shelleys left britain in 1818 for italy where their second and third children died before shelley gave birth to her last and only surviving child percy florence shelley in 1822 her husband drowned when his sailing boat sank during a storm near viareggio a year later shelley returned to england and from then on devoted herself to the upbringing of her son and a career as a professional author the last decade of her life was dogged by illness most likely caused by the brain tumor which killed her at age 53 until the 1970s shelley was known mainly for her efforts to publish her husband s works and for her novel frankenstein which remains widely read and has inspired many theatrical and film adaptations recent scholarship has yielded a more comprehensive view of shelley s achievements scholars have shown increasing interest in her literary output particularly in her novels which include the historical novels valperga 1823 and perkin warbeck 1830 the apocalyptic novel the last man 1826 and her final two novels lodore 1835 and falkner 1837 studies of her lesser known works such as the travel book rambles in germany and italy 1844 and the biographical articles for dionysius lardner s cabinet cyclopaedia 1829 1846 support the growing view that shelley remained a political radical throughout her life shelley s works often argue that cooperation and sympathy particularly as practiced by women in the family were the ways to reform civil society this view was a direct challenge to the individualistic romantic ethos promoted by percy shelley and the enlightenment political theories articulated by her father william godwin
