why would someone write a book on mind control because as
much as we try to elevate ourselves above being human animals
we are in fact animals we are subject to the wants and
desires of any being with a genome and vertebrae to rise
above that is an admirable and a task we should take on as a
worthy spiritual endeavor but to deny that we are truly
animals is to lie to ourselves we must deal with people who
may not be so enlightened advanced as we are they may desire
what we have and be secretly filled with envy and contempt
the worst event is to have these suspicions fulfilled and
then be pulled down into the politics of man do we deny that
