between the church and the state which in the case of an established church are of paramount importance theological questions and in particular the conflicting influences of catholicism and protestantism in its various forms are also examined the religious settlement engineered by elizabeth i and her advisers in the 16th century saved england from the atrocities of religious war however the countless theological battles and party feuds which have punctuated the history of the church suggest that the elizabethan settlement was not entirely successful the church of england today is a broad church hosting within its fold a wide range of traditions and beliefs the coexistence between liberals and conservatives and to a lesser extent between anglo catholics and evangelicals remains uneasy and the unity of the church is fragile the church of england whose increasingly vague doctrine and multifaceted liturgy can be baffling is furthermore confronted with other pressing challenges such as the rapidly growing secularization of british society and the issue of disestablishment which are seriously undermining its role and influence as a national church

A History of the Church in England, from the Earliest Period to the Re-establishment of the Hierarchy in 1850 1857 first published in 1969 this book studies the years of decline in the victorian church between 1868 and 1882 it centres on the archbishop tait who was paradoxically the most powerful archbishop of canterbury since the seventeenth century and follows the policies he pursued the high church opposition it provoked and the involvement of parliament this book will be of interest to students of history and religion of the victorian era *The Church of England and Episcopacy* 1914 for most people in england today the church is simply the empty building at the end of the road visited for the first time if at all when dead it offers its sacraments to a population that lives without rites of passage and which regards the national health service rather than the national church as its true spiritual guardian in our church scruton argues that the anglican church is the forlorn trustee of an architectural and artistic inheritance that remains one of the treasures of european civilization he contends that it is a still point in the centre of english culture and that its defining texts the king james bible and the book of common prayer are the sources from which much of our national identity derives at once an elegy to a ~~why we sleep unlocking~~
