Focus On: 100 Most Popular Sedans 1999

includes evidence taken before sub committee of social and consumer affairs

The Parliamentary Debates (Hansard). 2004

exploring employee relations provides students without previous knowledge of the subject with a good grounding in the theory and practice of employee relations the practical business element is combined with academic underpinning in a student friendly style emphasising the real life nature of the subject matter and using learning features such as objectives examples and case studies review and discussion questions chapter summaries straightforward and accessible exploring employee relations is aimed at students who are taking the subject for the first time the structure is clear and logical leading the newcomer through the topics in a way to maximise comprehension key issues are highlighted and supported by a small case or example from business chapters are structured to enable progressive learning with a logical development of the content each chapter ends with a summary of the key points met in the text and these are further reinforced by review and discussion questions with answers and feedback on the activities included at the end of the book the chapters are grouped thematically into parts and longer case studies are included that are suitable for assignment and seminar work the text is accompanied by a lecturer's handbook

Autocar 2004

publikace zachycuje zajímavý a v mnoha ohledech jedinečný příběh značky metalex zkráceně mtz vypráví o osudech hlavních aktérů a zároveň přináší technický popis okruhových a soutěžních speciálů i dalších výrobků kromě unikátních fotografií a kreseb jsou zde vůbec poprvé publikovány souhrnné tabulky s kompletními technickými údaji jednotlivých vozidel

The Motor Industry of Great Britain 2004

indexes the times sunday times and magazine times literary supplement times educational supplement and the times higher education supplement

Sexual Equality in Access to Goods and Services 2012-10-12

globalisation has had a major impact on manufacturing competitiveness and industrial development in transitional and developing economies this up to date book critically examines the experience of a wide range of countries focusing on the policy challenges they face in the new global economy the rising demand for manufactured goods is causing increased pressure on developing and transitional countries to introduce policies aimed at enhancing productivity mobilising resources building capabilities and changing internal structures yet policymakers face difficult trade offs between allocative efficiency and sustainable development this book begins by looking at key policy issues in manufacturing including international best practices policy convergence and policy benchmarking the discussion then moves on to discuss the measurement of manufacturing competitiveness and the policies necessary for companies to compete successfully in the new global economy the policy recommendations are underpinned through a wide range of case studies from different regions and countries the book offers policymakers scholars and researchers a unique perspective and serves as a comprehensive guide for formulating policies vital for national industrial development and integration into the world economy it will help those concerned with policy formulation in developing and transitional countries take informed decisions and better cope with the challenges and opportunities of the global economy
