The Judicial Role in a Diverse Federation

in the judicial role in a diverse federation robert schertzer uses the example of the supreme court of canada to examine how apex courts manage diversity and conflict in federal states schertzer argues that in a diverse federation where the nature of the federal system is contested the courts should facilitate negotiation between conflicting parties rather than impose their own vision of the federal system drawing on a comprehensive review of the supreme court federalism jurisprudence between 1980 and 2010 he demonstrates that the court has increasingly adopted this approach of facilitating negotiation by acknowledging the legitimacy of different understandings of the canadian federation this book will be required reading both for those interested in canada s supreme court and for those engaged in broader debates about the use of federalism in multinational states

in october 2015 the federal liberals came to power with sweeping plans to revamp canada s democratic and federal institutions a modernizing agenda intended to revitalize canada s democratic architecture the centrepiece of the agenda was the replacement of canada s first past the post electoral system but they also promised to revitalize relations with the provinces bring indigenous peoples into the intergovernmental fold and to change the ways in which senators and supreme court justices are appointed how has the reform agenda fared has it resulted in a more effective and democratic set of political and federal institutions or has it largely failed to deliver on these objectives what more broadly is the state of canada s democratic and federal institutions the queen s institute of intergovernmental relations used the occasion of canada s 150th birthday to examine these pressing issues the 2017 volume in the state of the federation series focuses on enduring questions about the functioning of federalism and intergovernmental relations in canada including how we should evaluate the quality of canada s institutions and practices in light of our federal structure and how current institutional arrangements and their possible alternatives fare according to these criteria
