model 64348 is a 2 1 2 inch underwing fueling nozzle the 64348 is an improved version of the older 61428 nozzle that incorporates improved safety and better collar wear characteristics the basic nozzle would be procured under the part number 64348 which includes the standard stick handles and dust cap other options are available pressure refueling nozzle model 64348 design concepts fueling industry for many years it includes a true swivel disconnect and compact flow control handle allowing features swiveling under all conditions swivel ind connects to 3 lug international standard aircraft adapter model 64200 is a 2 1 2 inch pressure fueling nozzle that has been qualified to appropriate sections of the new sae as5877 nozzle specification released or in the process of being released at the time of publication of this manual to cover both commercial and military nozzles eaton s carter model 64348 underwing fuelling nozzle has been used worldwide in the aircraft fuelling industry for many years it includes a true swivel disconnect and compact flow control handle allowing easy connection to the aircraft the 64348 is an improved version of the older 61428 nozzle that incorporates improved safety and better collar wear characteristics the 64283 series is designed to simplify repair by simplifying component removal and minimizing wear on the integral aircraft adapter the carter model 64348 underwing nozzle has wide approval and has been used in world wide applications for several years it superseded the 61428 which also met with wide approval building on the success of earlier model 64348 the lightweight and rugged 64200 pressure refueling nozzle has been designed to increase durability and decrease maintenance costs as the 64348 nozzle all accessories now have stainless steel wear rings eaton s carter model 64348 underwing fueling nozzle has been used world wide in the aircraft fueling industry for many years it includes a true swivel disconnect and compact flow control handle allowing easy connection to the aircraft features easier swiveling under all conditions swivel independent of quick disconnect qd eaton s carter product line of ground fueling equipment includes several underwing refueling nozzle models building on the success of ear lier carter model 64348 the lightweight and rugged model 64200 pressure refueling nozzle is designed to increase durability and decrease mainte nance costs model 64200 uses the same accessories as the eaton s carter 21 2 inch iso45 aircraft type bayonet refuelling adapters connect to underwing nozzles or 21 2 inch hydrant couplers they are available with 3 inch or 4 inch ansi 150lb flanges 64040 or 61409 3 inch or 4 inch ttma flanges 61528 or 61272 and 21 2 inch npt or bspp threads 6958 order 64348 spare parts directly from becker aviation youre one stop shop for aviation fueling equipment and accessories eaton s earlier carter brand model 64348 the lightweight and rugged model 64200 pressure refueling nozzle has been designed to increase durability and decrease maintenance costs model 64200 uses the same accessories as the model 64348 nozzle all accessories now have stainless steel wear rings in swivel ball joints the interlock mechanism is interchangeable options between other eaton carter nozzles replaceable knob on operation lever eliminates razor sharp abrasion on lever meets all required sae as 5877 standards boost your uptime with top aviation products and support in this pressure fueling nozzle model 64348 eaton assessment we will explore the intricacies of the platform examining its features content variety user interface and the overall reading experience it pledges underwing nozzles eaton s carter refueling nozzles for commercial and military aircraft are designed to meet the latest sae as5877 requirements and are available with a variety of optional accessories that can be combined to meet refueling operators needs contact eaton how to buy nozzle model 64348 eaton budget friendly options 8 coltivating a reading routine pressure fueling nozzle model 64348 eaton setting reading goals pressure fueling nozzle model 64348 eaton carving out dedicated reading time 9 identifying pressure fueling nozzle model 64348 eaton exploring different genres considering fiction vs non fiction pressure fueling nozzle model 64348 eaton illustrates its literary masterpiece the website s design is a reflection of the thoughtful curation of content offering an experience that is both visually attractive and functionally intuitive the bursts of color and images blend with the intricacy of literary choices shaping a seamless journey for diversified power management company and global technology leader in electrical systems for power quality distribution and control hydraulics components systems and services for industrial and mobile equipment aerospace fuel hydraulics and pneumatic systems for commercial and military use and truck and automotive drivetrain and powertrain eaton s carter model 64348 underwing fueling nozzle has been used world wide in the aircraft fueling industry for many years it includes a true swivel disconnect and compact flow control handle allowing easy connection to the aircraft features y easier swiveling under all conditions swivel independent of quick disconnect qd y a variety of inlet fittings are available to mate industry standard hose connections eaton s carter product line offers three basic hecv models 60129 1 44646 and 47013 all three are for use on underwing refueling nozzles and one model 60129 1 may be used for line mounted applications
