powerpoint with expert information and advice covering lotus 1 2 3 word pro approach freelance graphics and organizer scheduler for windows 95 this book includes a great overview of each application giving users the basics in easy to understand language it introduces users to common interface of applications including smartIcons and status bars installationskunsten har gået sin sejrsgang verden over og er her i det 21 århundrede en både vel og anerkendt bestanddel af samtidskunsten med påvirkning fra og udveksling mellem billedkunst på den ene side og performanceteater på den anden befinder installationskunst sig som bogens titel viser netop i feltet mellem billede og scene i installation art between image and stage undersøger anne ring petersen grundstenene for en af nutidens mest udbredte kunstformer installationer er ligesom skulpturer tredimensionelle formationer eller billeddannelser men i modsætning til skulpturen er installationen karakteriseret ved at være formet af rum eller rumlige scenografier som skaber betydning og sanseoplevelser gennem sit billedsprog som resultat af dette er installationer ofte stort anlagte kunstværker som beskueren kan gå ind i og de lever dermed til fulde op til nutidens krav om spektakulære æstetisk iscenesatte events og kulturoplevelser der taler til sanserne gennem grundige analyser af værker af kunstnere som bruce nauman olafur eliasson jeppe hein mona hatoum pipilotti rist og ilya kabakov som bagtæppe søges der i denne bog svar på hvad en installation egentlig er hvilke virkemidler den bruger hvordan installationskunstens opståen kan forklares i et kulturhistorisk perspektiv og meget mere også installationskunstens rumlige tidsmæssige og diskursive aspekter såvel som dens receptionsæstetik der sættes ind i en overordnet kunst og kulturhistorisk ramme undersøger installation art between image and stage er et nyttigt værk for alle der ønsker at forstå denne mangefacetterede kunstforms konceptuelle fundament anne ring petersen dr phil er lektor ved institut for kunst og kulturvidenskab københavns universitet har i 2009 udgivet installationskunsten mellem billede og scene og er redaktør af contemporary painting in context 2010 despite its large and growing popularity to say nothing of its near ubiquity in the world s art scenes and international exhibitions of contemporary art installation art remains a form whose artistic vocabulary and conceptual basis have rarely been subjected to thorough critical examination in installation art between image and stage anne ring petersen aims to change that she begins by exploring how installation art developed into an interdisciplinary genre in the 1960s and how its intertwining of the visual and the performative has acted as a catalyst for the generation of new artistic phenomena she investigates how it became one of today s most widely used art forms increasingly expanding into consumer popular and urban cultures where installation s often spectacular appearance ensures that it meets contemporary demands for sense provoking and immersive cultural experiences the main trajectory of the book is directed by a movement aimed at addressing a series of basic questions that get at the heart of what installation art is and how it is defined how does installation structure time space and representation how does it address and engage its viewers and how does it draw in the surrounding world to become part of the work featuring the work of such well known artists as bruce nauman pipilotti rist ilya kabakov and many others this book breaks crucial new ground in understanding the conceptual underpinnings of this multifaceted art form anne ring petersen is associate professor in the department of arts and cultural studies at the university of copenhagen and the editor of contemporary painting in context a linux smart home is about controlling and monitoring devices and information around your home using a standard personal computer linux and its vast array of open source tools you don t have to be a master programmer to create one if you like to tinker with linux linux smart homes for dummies will guide you through cool home automation projects that are as much fun to work on as they are to use home automation used to be limited to turning on lights and appliances and maybe controlling your thermostat and lawn sprinkler from your computer while you still might not be able to create all the jetsons toys today you can also build a wireless network create and set up a weather station automate your tv and sound system spy on your pets when you re not home set up an answering system that knows what to do with calls increase your home s security if you know how to use linux and a few basic development tools perl the bash shell development libraries and the gnu c compiler linux smart homes for dummies will help you do all these tricks and more for example you can discover the best sources for linux based home automation devices set up a wireless network create a wireless access point build a bridge between wired and wireless networks and route your own network traffic build a personal video recorder with mythtv that will record to dvd or set up a wireless streaming music system create a smart phone system that takes messages and forwards them to your fax modem or answering machine build a weather station that notifies you of severe weather alerts control and secure your home automation network and even check on your house when you re away the bonus cd rom includes all kinds of cool open source software for your home automation projects linux smart homes for dummies even includes lists of cool gadgets to check out and great ways to automate those boring household chores a smart home s a happy home develop the key administration skills required to deal with hardware software memory and network issues in the small office it network annotation a guide to selecting installing testing and maintaining water meters coverage includes selecting meter types impacts on service adequacy meter installation testing of meters and maintenance and repair of displacement meters also discusses shop layout and equipment records and remote registration includes a list of awwa manuals this manual discusses recommended practices it is
