**Parliamentary Debates (Hansard)**. 2012 do existing measures of state fragility measure fragility accurately based on commonly used fragility measures south africa sa is classified as a relatively stable state yet rising violent crime high unemployment endemic poverty eroding public trust identity group based preferential treatment policies and the rapid rise of the private security sector are all indications that sa may be suffering from latent state fragility based on a comprehensive view of security this study examines the extent to which measures of political legitimacy and good governance effectiveness in the security system especially with respect to the police system and mounting economic challenges may be undermining the stability of sa in ways undetected by commonly used measures of state fragility using a mixed methods approach based on quantitative secondary data analysis and semi structured interviews with government officials security practitioners and leading experts in the field this study finds that the combination of colonization apartheid liberation struggle transition from autocracy to democracy high levels of direct and structural violence stagnating social political and economic developments make south africa a latently fragile state conceptually the results of this research call into question the validity of commonly used measures of state fragility and suggest the need for a more comprehensive approach to assessing state fragility practically this study offers a number of concrete policy recommendations for how south africa may address mounting levels of latent state fragility

*Beginning JavaScript Charts* 2014-01-24 law and ethics for today s journalist offers aspiring and working journalists the practical understanding of law and ethics they must have to succeed at their craft instead of covering every nuance of media law for diverse communications majors mathewson focuses exclusively on what s relevant for journalists even though media law and media ethics are closely linked together in daily journalistic practice they are usually covered in separate volumes mathewson brings them together in a clear and colourful way that practicing journalists will find more useful everything a journalist needs to know about legal protections limitations and risks inherent in workaday reporting is illustrated with highlights from major court opinions mathewson advises journalists who must often make ethical decisions on the spot with no time for the elaborate multi faceted analysis the book assigns to journalists the hard decisions on ethical questions such as whether to go undercover or otherwise misrepresent themselves in order to get a big story the ethics chapter precedes the law chapters because ethical standards should underlie a journalist s work at all times there may be occasions when ethics and law are not parallel thus calling for the journalist to make a personal judgment law and ethics for today s journalist is user friendly written in clear direct understandable language on issues that really matter to a working journalist supplementary reading of the actual court cases is recommended and links to most cases are provided in the text the text includes a fine but purposely not exhaustive bibliography listing important and useful legal cases including instructive appellate and trial court opinions state as well as federal

Security, Governance, and State Fragility in South Africa 2020-03-06 why and how did islam become such a political force in so many muslim majority countries in this book jocelyne cesari investigates the relationship between modernization politics and islam in muslim majority countries such as egypt iraq pakistan tunisia and turkey countries that were founded by secular rulers and have since undergone secularized politics

cesari argues that nation building processes in these states have not created liberal democracies in the western mold but have instead spurred the politicization of islam by turning it into a modern national ideology looking closely at examples of islamic dominance in political modernization this study provides a unique overview of the historical and political developments from the end of world war ii to the arab spring that have made islam the dominant force in the construction of the modern states and discusses islam s impact on emerging democracies in the contemporary middle east *Law and Ethics for Today's Journalist* 2014-12-18 unlike many titles on environmental issues that portend a dark future environmental success stories delves into the most daunting ecological and environmental challenges humankind has faced and shows how scientists citizens and a responsive public sector have dealt with them successfully in addition to presenting the basic chemical and environmental science underlying problems like providing clean drinking water removing ddt and lead from agriculture and our homes and curtailing industrial pollution this book also discusses the political actors agency regulators and community leaders who have collaborated to enact effective legislation sharing the stories of the people organizations and governments who have addressed these problems successfully frank m dunnivant explains how we might confront the world s largest and most complex environmental crisis climate change now is the time for rededicated scientific exploration and enlightened citizen action to save our environment and dunnivant s book offers a stirring call to action

Emergency Department Compliance Manual, 2015 Edition 2014-12-18 minorities and representation in american politics is the first book of its kind to examine underrepresented minorities with a framework based on four types of representation descriptive formalistic symbolic and substantive through this lens author rebekah herrick looks at race ethnic gender and sexual minorities not in isolation but synthesized within every chapter this enables readers to better recognize both the similarities and differences of groups underrepresentation herrick also applies her unique and constructive approach to intergroup cooperation and intersectionality highlighting the impact that groups can have on one another

The Awakening of Muslim Democracy 2014-04-14 consistent with international trends there is an active pursuit of more engaging science education in the asia pacific region the aim of this book is to bring together some examples of research being undertaken at a range of levels from studies of curriculum and assessment tools to classroom case studies and investigations into models of teacher professional learning and development while neither a comprehensive nor definitive representation of the work that is being carried out in the region the contributions from china hong kong taiwan korea japan singapore australia and new zealand give a taste of some of the issues being explored and the hopes that researchers have of positively influencing the types of science education experienced by school students the purpose of this book is therefore to share contextual information related to science education in the asia pacific region as well as offering insights for conducting studies in this region and outlining possible questions for further investigation in addition we anticipate that the specific resources and strategies introduced in this book will provide a useful reference for curriculum developers and science educators when they design school science curricula and science both pre service and in service teacher education programmes the first section of the book examines features of science learners and learning and includes studies investigating the processes associated with science conceptual learning scientific inquiry model construction and students attitudes towards science the second section focuses on teachers and teaching it discusses some more innovative teaching approaches adopted in the region including the use of group work inquiry based instruction developing scientific literacy and the use of questions and analogies the third section reports on initiatives related to assessments and curriculum reform

including initiatives associated with school based assessment formative assessment strategies and teacher support accompanying curriculum reform the open access version of this book available at taylorfrancis com books e 9781315717678 has been made available under a creative commons attribution non commercial no derivatives 4 0 license

□□□□□□□□□□□□□□ 1949 this book provides a dynamic and comprehensive interprofessional approach to building a culture of safety by using simulation across clinical and education spheres in healthcare this is a comprehensive guide and resource for healthcare organizations educators and diverse interprofessional healthcare team members to use to improve patient safety efforts to adapt to the ever changing complex world of healthcare its practical application is pertinent in transforming the education and practice of medicine nursing and other health related fields weighted numerical score 99 5 stars patricia west ms bsn michigan state university college of nursing doody s medical reviews ì the authors have brought together a core group of national leaders to produce what i think is a paradigm busting book that will help to transform education at the graduate level in medicine nursing and all related fields the book speaks expertly about the high fidelity of simulation training the need for synthetic models the adult learning theory behind the debriefÖit is a manifesto about where we must go as an interprofessional team caring for the patient of the future ì from the foreword by david b nash md mba dean jefferson school of population health philadelphia pa this groundbreaking book reflects the accomplishments of an internationally recognized leader of innovation regarding interprofessional clinical learning through simulation based on the north shore lij health system corporate university experience the book describes how this organization used simulation to successfully tackle the major interprofessional health issue of our time patient safety this health system created a transformative simulation center that involves nurses doctors and related health professionals whose work in clinical teams has resulted in measurable improvements in all aspects of clinical decision making critical thinking teamwork and communication skillsótoward the ultimate goal of improved patient safety key features describes in detail a groundbreaking system of achieving patient safety that uses interprofessional clinical learning through simulation detailed case studies using concrete methods and examples illustrate the application of theory to practice presents simulations scalable to any size organization and for use by health care professionals in all specialties includes theoretical foundations and practical applications for teaching and learning focuses on interprofessional cooperation and learning

Notes on Building Construction 1875 dionysus resurrected analyzes the global resurgence since the late 1960s of euripides the bacchae by analyzing and contextualizing these modern day performances the author reveals striking parallels between transformational events taking place during the era of the play s revival and events within the play itself puts forward a lively discussion of the parallels between transformational eventsduring the era of the play s revival and events within the play itself the first

comparative study to analyse and contextualize performances of the bacchae that took place between 1968 and 2009 from the united states africa latin america europe and asia argues that presentations of the play not only represent liminal states but also transfer the spectators into such states contends that the play s reflection on various stages of globalization render the tragedy a contemporary play establishes the importance of the bacchae within euripides work as the only extant tragedy in which the god dionysus himself appears not just as a character but as the protagonist
