**Sermons and Lectures** 1871 inspired by the heritage of african american churches mark ellingsen has created innovative visionary sermons on old testament texts from the revised common lectionary his messages reflect his unique vantage point as a lutheran of norwegian heritage teaching at a historically black seminary and they are a model for anyone who wants to learn how to relate the bible to the cutting edge social issues of our day ellingsen suggests that many american christians have abdicated their responsibility to advocate justice in our society or to talk about what the gospel can do in our lives and society as a whole from monday through saturday ellingsen believes these old testament texts are relevant to our contemporary lives an all too common view of many christians is look to the new testament to find the liberating word of god while viewing the old testament as being about the law and the confining demands of tradition but ellingsen says that the history of christianity proves this is not true he observes that martin luther was primarily an old testament scholar and that african american churches have based many of their traditions of liberation on old testament stories and prophetic traditions mark ellingsen s offering of sermons based on old testament texts reflects his usual thorough biblical scholarship and his readable down to earth style that consistently render his material useful to both scholars and those seeking the inspiration of a faithful christian richard h stough publisher king publications mark ellingsen has had a rich and varied career as a parish pastor and a seminary professor in addition to serving several lutheran congregations in pennsylvania and north carolina he has held teaching positions at luther northwestern seminary and the institute for ecumenical research in strasbourg france ellingsen currently is on the faculty of the interdenominational theological center in atlanta the largest historic african american seminary in the united states a regular contributor to several homiletics periodicals ellingsen is also the author of ten books some of which have been used as homiletics texts in many american and canadian seminaries

*Family Sermons* 1863 spurgeon examines the nature of free will and uses the text john 5 40 you will not come to me that you might have life he observes the will is well known by all to be directed by the understanding to be moved by motives to be guided by other parts of the soul and to be a secondary thing he puts forth the calvinist doctrine that a person cannot come to christ by their own means but christ must come to the person he expounds on the nature of legal spiritual and eternal deadness and how people are unable to overcome this by themselves he then goes on to describe legal spiritual and eternal life that is in christ jesus this sermon has been updated to modern language

**Words from a Free Pulpit** ... 1906 expository outlines that can lead to sermons or lessons filled with a deeper understanding of the truth of god s word

**Sermons** 1837 preaching is an art but not all preachers are artists i hate to say it but you know that it s true it s rare to hear a really great sermon what s even more rare is to hear really great sermons week after week after week but it does happen every now and then and these days it s happening in a presbyterian church in a small new jersey town i know this church because i used to stand in its pulpit week after week i went there as a young inexperienced pastor and a newly single mother of two small children i was also the first installed minister of the church who happened to be a woman now some twenty five years later this same church has welcomed another first the first installed minister who happens to be openly gay it gives me particular pleasure then to introduce william stell s book of sermons from his first year in ministry first of all they re great sermons second william s identity as a gay christian informs his preaching in profound ways third these sermons cut to the heart of the faith and speak gospel truth wise beyond his years william stell possesses a narrative gift he has an ear for story his

story god s story and our story he tells us about the contours of his own life but these sermons aren t all about him in fact he s never the hero rather he shares anecdotes from his journey so he can show us what god has shown him he bears witness to wonders he has seen and enables us to see them too here s another thing about william stell he knows us he gets how we crave simple answers he knows we hold grudges he understands that we often miss the point of scripture because our readings are too literal or too narrow or too fearful he names the difficult questions that come along with being people of faith and gently but confidently leads us to answers we can hold on to he has a deep sense of the sacred in the midst of the ordinary which means he has a sacramental way about him in worship and in the world he is attentive to what god is up to when we re not looking and he calls us to be watchful along with him william s own journey toward inclusion and openness helps to shape our own in these pages you will hear about his being the only white boy in an all black baptist church in texas how his encounters with a wide range of christians enabled him to embrace his own sexuality how god uses surprising people in unexpected ways to open his own eyes to what it means to love god and follow jesus and trust in the holy spirit along the way in hearing how god has led him we are also led to new realizations about ourselves the world and what god is doing about it all read these sermons read them because william stell is a new queer voice in the church read them because he is helping to carve a new path for people of faith most of all read them because this child of god knows how to preach and we are the richer for it thanks be to god kimberly bracken long cambridge maryland december 20 2017

*Models for Biblical Preaching* 2014-04-15 this book strongly challenges the notion that there is no place for preaching in

the contemporary world it sets out the theological case for preaching and then goes on to describe what constitutes good preaching it does not focus on techniques to be used but on the nature of the task and the character of the one who preaches the good preacher works to build a bridge between the listeners and the truth being proclaimed to be able to do this the preacher must study both the scriptures and the today s world the book offers some suggestions on how to go about preparing a sermon and calls for preaching delivered with sincerity earnestness courage and humility john stott s thoughtful and practical advice given at some length in *i believe in preaching* has here been abridged by eliminating quotations and examples that spoke more directly to readers in the uk and the us in the 1980s greg scharf has retained the core of the original book but made it more accessible to contemporary readers
