pseudo martyr was donne s first published work and the only one he wrote as a lawyer it is also an autobiographical document which reveals how donne resolved his own lapse from catholicism so that he could remain loyal to the king a descendant of thomas more s sister donne had inherited a rich tradition from the counter reformation which he sought to reconcile with the political absolutes of his day anthony raspa provides a definitive critical edition of this long neglected work setting it in its historical context and making the forest of quotations and references given by donne in the main body of the text and its margins intelligible to the modern reader

the liturgy the public worship of the catholic church was a crucial factor in forging the society of early medieval rome as the roman empire dissolved a new world emerged as christian bishops stepped into the power vacuum left by the dismantling of the empire among these potentates none was more important than the bishop of rome the pope the documents archaeology and architecture that issued forth from papal rome in the seventh and eighth centuries preserve a precious glimpse into novel societal patterns the underexploited liturgical sources in particular enrich and complicate our historical understanding of this period they show how liturgy was the social glue that held together the christian society of early medieval rome and excluded those who did not belong to it this study places the liturgy center stage filling a gap in research on early medieval rome and demonstrating the utility of investigating how the liturgy functioned in medieval europe it includes a detailed analysis of the papal mass the central act of liturgy and the most obvious example of the close interaction of liturgy social relations and power the first extant mass liturgy the first roman ordo is also given a new presentation in latin here with an english translation and commentary other grand liturgical events such as penitential processions are also examined as well as more mundane acts of worship far from a pious business with limited influence the liturgy established an exchange between humans and the divine that oriented roman society to god and fostered the dominance of the clergy

a serious and thoughtful interpretation of machiavelli's life and thought and its relevance today from the acclaimed author of terror and consent the times london constitutional scholar philip bobbitt turns his expert attention to the life and work of niccolo machiavelli the sixteenth century political philosopher whose classic text the prince remains one of the most important and controversial works of political theory ever written in the garments of court and palace bobitt argues that the perception of machiavelli's prince as a ruthless immoral tyrant stems from mistranslations political agendas and readers who overlooked the philosopher's earlier work discourses on livy he explains that machiavelli was instead advocating for rulers to distinguish between their personal ethos and state governance rather than a mirror book advising rulers the prince prophesied the end of the feudal era and the birth of the neoclassical state using both renaissance examples and cases drawn from the current era bobitt shows machiavelli's work is both profoundly moral and inherently constitutional a turning point in our understanding of the relation between war law and the state

a veteran non commissioned officer tells of his experiences among the shells wounded and diseases of the egyptian campaign of world war one includes 32 illustrations this account of the work of the royal army medical corps in egypt from the earliest days of the british occupation in 1883 to the close of the sinai desert campaign at the beginning of 1917 is in no way official nor must it be regarded as in any sense officially inspired it is due to the reader however to say at once that though the book must be taken solely as the independent work of one man possessing no official status whatever it has been produced under privilege without which indeed it could never have been written for the facts as to the doings of the r a m c on the battlefield and in respect of the corps many activities in other branches of medical war service the writer has been able to draw largely on his own experience it having been his lot to serve as a member of the royal army medical corps both with the dardanelles army and with the egyptian expeditionary force very few names are here set down albeit many

fine achievements and instances of singular devotion to duty have been necessarily recorded seeing that it was practically impossible to mention by name all in the service who had won or deserved to win distinction it was thought better to leave names alone altogether and to let the great sum of heroism enterprise exertion merge itself into the common honour of the corps
