have you ever had a new idea or a goal that excites you but not enough time to execute it what about a goal you really want to accomplish but can t because instead of taking action you procrastinate do you feel like the only way things are going to get done is if you do them but what if it wasn t that way what if you had a team of people around you that helped you accomplish your goals while you helped them accomplish theirs when we want something done we ve been trained to ask ourselves how can i do this well there is a better question to ask one that unlocks a whole new world of ease and accomplishment expert

coach dan sullivan knows the question we should ask instead who can do this for me this may seem simple and it is but don t let the lack of complexity fool you by mastering this question you will quickly learn how billionaires and successful entrepreneurs like dan build incredible businesses and personal freedom this book will teach you how to make this essential paradigm shift so you can build a successful business effectively while not killing yourself immediately free up 1 000 hours of work that you shouldn t be doing anyway bypass the typical scarcity and decline of aging and other societal norms increase your vision in all areas of life and build teams of whos to support you in that vision never be limited in your goals and ambitions again expand your abundance of wealth innovation relationships and joy build a life where everything you do is your choice how you spend your time how much money you make the quality of your relationships and the type of work you do making this shift involves retraining your brain to stop limiting your potential based on what you solely can do and instead focus on the nearly infinite and endless connections between yourself and other people as well as the limitless transformation possible through those connections

Who Not How

2020-10-20

when the covid 19 pandemic hit it was clear that it would impact all of our lives in important ways and we would have to drastically change the way we communicated with one another and did business would we fight back against the changes and wait for the old normal to return or adopt new technologies and adapt to the new way of doing things though the zoom video conferencing platform was already being used by individuals and businesses around the world the pandemic made its use a necessity and those who embraced it and mastered it thrived while those who resisted it would find them selves struggling to keep up when it comes to adapting to new circumstances the question is are you zooming ahead or being left behind

Zooming Ahead

the impact of ict on the teaching of classical languages literature and culture has not until now been extensively described and evaluated nevertheless educational technology has made a huge difference to the ways in which classics is taught at junior senior and college level the book brings together twenty major approaches to the use of technology in the classroom and presents them for a wide international audience it thus forms a record of current and developing practice promotes further discussion and use among practitioners teachers learners and trainers and offers suggestions for changes in pedagogical practices in the teaching of classics for the better the many examples of practice from both uk and us perspectives are applicable to countries throughout the world where classics is being taught the more traditional curricula of high school education in the uk and europe are drawing more and more on edutech whereas educational jurisdictions in the us are increasingly expecting high school students to use ict in all

lessons with some actively dissuading schools from using traditional printed textbooks this book presents school teachers with a vital resource as they adapt to this use of educational technology in classics teaching this is no less pertinent at university level in the uk and us where pedagogy tends to follow traditionalist paradigms this book offers lecturers frameworks for understanding and assimilating the models of teaching and learning which are prevalent in schools and experienced by their students

the great chicago fire of 1871 swallowed up more than three square miles in two days leaving thousands homeless and 300 dead throughout history the fire has been attributed to mrs o leary an immigrant irish milkmaid and her cow on one level the tale of mrs o leary s cow is merely the quintessential urban legend but the story also represents a means by which the upper classes of chicago could blame the fire s chaos on a member of the working poor although that fire destroyed the official county documents some land tract records were saved using this and other primary source information richard f bales created a scale drawing that reconstructed the o leary neighborhood next he turned to the transcripts more than 1 100 handwritten pages from an investigation conducted by the board of police and fire commissioners which interviewed 50 people over the course of 12 days the board s final report published in the chicago newspapers on december 12 1871 indicates that commissioners were unable to determine the cause of the fire and yet by analyzing the 50 witnesses testimonies the author concludes that the commissioners could have determined the cause of the fire had they desired to do so being more concerned with saving their own reputation from post fire reports of incompetence drunkenness and bribery the commissioners failed to press forward for an answer the author has uncovered solid evidence as to what really caused the great chicago fire
