Ask More 2017-01-11

the questions we ask ourselves determine our lives our thoughts are nothing more than a continuous question and answer session we have with ourselves our lives material emotional spiritual and financial are a direct reflection of our thoughts eighty five percent of these thoughts are both habitual and unconscious meaning we are asking and answering the exact same questions every day usually in the same way over and over again what all this means if there is any area of your life you re not 100 happy with the root of the needed change is in the questions you re asking of yourself and since these questions are habitual and unconscious the first order of business is to become aware of the questions only then can we change them that is exactly what we re doing with this book ask yourself a better question the improved quality of your questions will lead to an improved quality of life no matter how much skill and how many resources you add to your arsenal bad questions will always drag you backwards into failure not taking full control of your questions will lead you into the randomness of the world good days and outcomes followed by just as many bad days and outcomes if this has happened to you before there isn t anything wrong with you you just didn t know what you didn t know no one ever told you about this there aren t any classes in school teaching you the habit of asking strong empowering questions some people live 80 years and never consider what they ve been asking themselves all day every day thus they think success in life is based on randomness the luck of the draw success and happiness are not random you become exactly what you ask yourself are you ready to ask yourself better
