Brothers at Arms is a novel by Lawrence Sanders. It is a science fiction novel set in a futuristic world where a young man named Scott St. Andrew is a first-year cadet at South Point Academy on Exeter, a rocky moon circling a distant colony planet. He has to survive the toughest and most grueling training program in the military to become an officer in the Guard Corps and be on his way off his filthy, poisonous planet and into the Terran Alliance elite. But Scott's chance of being the one in a thousand to escape the colonist destiny is rapidly disappearing. His genetic flaws, scars, no memory boosting, or physical enhancement make him one of the weakest in his squad and an inevitable target for ritual hazing and events are about to spiral completely out of his control as the long-simmering resentment between the colonial worlds and the rich Terran Alliance flares into open violence and rebellion. Now every soldier has to choose his side and survive a hellishly accelerated training to join the deep space fighting before there is nothing left to fight for.
