Soil Survey Field and Laboratory Methods Manual – Soil Survey Investigations Report No. 51 (Version 2) Issued 2014

2015-02-02

the first edition of this manual appeared in 1992 and was entitled ecat assay
procedures it was the result of a unique cooperation between experts brought together
by the european concerted action on thrombosis and disabilities ecat the concerted
action was at that time under the auspices of the commission of the european union
the second edition like the first edition deals with diagnostic tests within the
field of thrombosis however the second edition has a broader scope because it is no
longer limited by the frontiers of ecat experts all over the world in and outside ecat
have contributed to this edition the editors are very grateful for their
contributions the need for a new edition is obvious since 1992 new assays have been
introduced for research diagnosis and therapy of thrombosis for other assays

improvements have been suggested while a few others became redundant the editors waived the radioimmunoassays of thromboglobulin and platelet factor 4 due to the fact that the kits required for these assays are rarely or no longer available also the pai 1 activity assay was waived as it is liable to many inconsistencies and to large variations a list of names and addresses of manufacturers marketing the kits and reagents has been compiled together with a list of the recommended nomenclature of quantities in thrombosis and haemostasis in order to facilitate the use of the updated version these lists have been carefully compiled by johannes j sidelmann phd department of clinical biochemistry in esbjerg denmark
