

Epub free The slaver wars first strike (Read Only)

in 72 b c in the heart of rome s mediterranean empire a slave named spartacus ignited one of the most violent episodes of slave resistance in the history of the roman empire indeed in the world annals of slavery this volume organizes original translations of 80 greek and latin sources into topical chapters that look at the daily lives of slaves trained as gladiators and those who labored on farms in italy and sicily including accounts of revolts that preceded and anticipated that of spartacus in a carefully crafted introductory essay shaw places spartacus in the broader context of first and second century b c rome italy and sicily and explains why his story continues to be a popular symbol of rebellion today the volume also includes a glossary chronology selected bibliography three maps an annotated list of ancient writers and questions for consideration in 136 bc in sicily which was then a roman province some four hundred slaves of syrian origin rebelled against their masters and seized the city of henna with much bloodshed their leader a fortune teller named eunus was declared king taking the syrian royal name antiochus and tens of thousands of runaway slaves as well as poor native sicilians soon flocked to join his fledgling kingdom antiochus ambition was to drive the romans from the whole of sicily the romans responded with characteristic intransigence and relentlessness leading to years of brutal warfare and suppression antiochus kingdom of the western syrians was extinguished by 132 but his agenda was revived in 105 bc when rebelling slaves proclaimed salvius as king tryphon with similarly bitter and bloody results natale barca narrates and analyses these events in unprecedented detail with thorough research into the surviving ancient sources the author also reveals the long term legacy of the slaves defiance contributing to the crises that led to the seismic social war and setting a precedent for the more famous rebellion of spartacus in 73 71 bc army life in a black regiment is an authoritative account of the first south carolina volunteers the first slave regiment mustered into the service of the united states during the civil war the first south carolina volunteers was composed of escaped slaves from south carolina and florida and commanded by white officers including colonel thomas wentworth higinson who wrote their history and recorded their beliefs and customs including use of the gullah language introductory camp diary up the st mary s up the st john s out on picket a night in the water up the edisto the baby of the regiment negro spirituals life at camp shaw florida again the negro as a soldier conclusion index in this examination of the roman institution of slavery brent shaw presents a compelling selection of the ancient testimony relating to spartacus and the slave wars in 73 b c in the heart of rome s mediterranean empire a slave named spartacus ignited one of the most violent episodes of slave resistance in the history of the roman empire indeed in the world annals of slavery organizing 80 original greek and latin source translations into topical chapters on the daily life of slaves trained as gladiators and those who labored on farms in italy and sicily shaw includes accounts of revolts that preceded and anticipated that of spartacus in a carefully crafted introductory essay shaw places spartacus in the broader

context of first and second century b c roman italy and sicily and explains why his story continues to be a popular symbol of rebellion today the volume also includes a glossary chronology selected bibliography 3 maps an annotated list of ancient writers and questions for consideration although much has been written on greek and roman slavery slave resistance has typically been dismissed as historically insignificant and those revolts that are documented are portrayed as wholly exceptional and resulting from peculiar historical circumstances that had little to do with the intrinsic views or organizational capabilities of the slaves themselves in this book theresa urbainczyk challenges the current orthodoxy and argues that there were many more slave revolts than is usually assumed and they were far from insignificant historically she carefully dissects ancient and modern interpretations to show that there was every reason for the writers who recorded and re recorded the slave rebellions and wars to repress or to reconfigure any larger scale slave resistance as something other than what it was further she shows that we often have the accounts that we do because of the happenstance of certain ancient authors having been particularly interested in creating accounts of them for their own interests urbainczyk argues that we need to look beyond the canonical sources and episodes to see a bigger history of long term resistance of slaves to their enslavement in the modern louvre of paris you can find amidst a collection of other french sculptures a 2 12 meter tall marble statue of spartacus naked broken chains hanging from his wrists his eyes showing both a pensive serenity and a cold aggression the piece was sculpted by denis foyatier in 1830 as an addition to lallee des grands homes the avenue of great men in the jardin des tuileries it was moved to the louvre in 1877 you may have heard the name spartacus before as he has long been a symbol of the fight against repression in a nutshell he was a soldier turned gladiator turned runaway slave that fought rome as leader of a massive slave army but who really was he what kind of life did he live what do we know of his origins those are some questions that will be answered in this ebook in 72 b c in the heart of rome s mediterranean empire a slave named spartacus ignited one of the most violent episodes of slave resistance in the history of the roman empire indeed in the world annals of slavery this volume organizes original translations of 80 greek and latin sources into topical chapters that look at the daily lives of slaves trained as gladiators and those who labored on farms in italy and sicily including accounts of revolts that preceded and anticipated that of spartacus in a carefully crafted introductory essay shaw places spartacus in the broader context of first and second century b c rome italy and sicily and explains why his story continues to be a popular symbol of rebellion today the volume also includes a glossary chronology selected bibliography three maps an annotated list of ancient writers and questions for consideration an authoritative account from an expert author the spartacus war is the first popular history of the revolt in english the spartacus war is the extraordinary story of the most famous slave rebellion in the ancient world the fascinating true story behind a legend that has been the inspiration for novelists filmmakers and revolutionaries for 2 000 years starting with only seventy four men a gladiator named spartacus incited a rebellion that threatened rome itself with his fellow gladiators spartacus built an army of 60 000 soldiers and controlled the southern italian countryside a charismatic

leader he used religion to win support an ex soldier in the roman army spartacus excelled in combat he defeated nine roman armies and kept rome at bay for two years before he was defeated after his final battle 6 000 of his followers were captured and crucified along rome s main southern highway the spartacus war is the dramatic and factual account of one of history s great rebellions spartacus was beaten by a roman general crassus who had learned how to defeat an insurgency but the rebels were partly to blame for their failure their army was large and often undisciplined the many ethnic groups within it frequently quarreled over leadership no single leader not even spartacus could keep them all in line and when faced with a choice between escaping to freedom and looting the rebels chose wealth over liberty risking an eventual confrontation with rome s most powerful forces the result of years of research the spartacus war is based not only on written documents but also on archaeological evidence historical reconstruction and the author s extensive travels in the italian countryside that spartacus once conquered excerpt from first blows of the civil war the ten years of preliminary conflict in united states from 1850 to 1860 a contemporaneous exposition progress of the struggle shown by public records and private correspondence while the following contemporaneous exposition does not undertake to give an exhaustive history of the subjects with which it deals but presents rather a compilation of historic materials it is thought it may possess an interest and an atmosphere of its own that may commend it to public notice it especially treats of the course of public events in this country bearing on the questions of disunion and slavery during the ten or eleven years immediately preceding the civil war it offers a picture of the strenuous exertions of the slaveholders to annex cuba and to plant slavery in the territories or failing in that to accomplish secession and of the equally determined efforts of the people of the free states to prevent the execution of those purposes the leading men of the country with their vivid hopes fears and designs all pass in rapid re view before the reader the parties engaged in that great struggle are here brought face to face and their statements arguments objects and methods are it is believed delineated with sufficient distinctness to show the progress of the great question involved through the several years during which the controversy was carried on we must observe that this record is drawn from a great mass of material which it has been necessary to sift and greatly abridge in order to bring the work within reasonable compass the reader will require this explanation in order to understand some of the private correspondence which refers to events and discussions then taking place but not herein recorded many of the topics thus referred to not being germane to our present purpose have been set aside and nowhere appear in the text about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works in this prequel to the now classic makers of modern strategy victor davis hanson a leading scholar of

ancient military history gathers prominent thinkers to explore key facets of warfare strategy and foreign policy in the greco roman world from the persian wars to the final defense of the roman empire makers of ancient strategy demonstrates that the military thinking and policies of the ancient greeks and romans remain surprisingly relevant for understanding conflict in the modern world the book reveals that much of the organized violence witnessed today such as counterterrorism urban fighting insurgencies preemptive war and ethnic cleansing has ample precedent in the classical era the book examines the preemption and unilateralism used to instill democracy during epaminondas s great invasion of the peloponnesus in 369 bc as well as the counterinsurgency and terrorism that characterized rome s battles with insurgents such as spartacus mithridates and the cilician pirates the collection looks at the urban warfare that became increasingly common as more battles were fought within city walls and follows the careful tactical strategies of statesmen as diverse as pericles demosthenes alexander pyrrhus caesar and augustus makers of ancient strategy shows how greco roman history sheds light on wars of every age in addition to the editor the contributors are david l berkey adrian goldsworthy peter j heather tom holland donald kagan john w i lee susan mattern barry strauss and ian worthington a lively and comprehensive overview of roman slavery ideal for introductory level students of the ancient mediterranean world in 1865 slavery was abolished in the united states at the end of a four year civil war this pamphlet looks at the stand taken during the war by workers in britain who organised mass protests against slavery and against british ruling class plans for military intervention in support of the slave owners it tells the story of how this internationalist and anti racist struggle revived the british labour movement gave workers the confidence to fight for the vote and contributed to the birth of karl marx s international working men s association the first international this easy to use reference book covers the most important people places events and technologies of roman warfare during the republic 400 31 bce providing a wealth of reference material and invaluable primary source documents the study of ancient rome remains both a high interest topic and a staple of high school and university curricula while recent hollywood movies continue to heighten popular interest in rome this multi format handbook examines warfare in ancient rome during the republic period from approximately 400 bce to 31 bce presenting ready reference primary source documents statistical information and a chronology the title explore all aspects of conflict during this time period including key military leaders pivotal battles and sieges new weapons and technologies and the intersections of warfare and society in the ancient world the reference entries provide detailed snapshots of key people events groups places weapons systems and strategies that enable readers to easily understand the critical issues during 400 years of the roman republic while various overview causes and consequences essays offer engaging in depth coverage of the most important wars by providing students with in depth information about how the roman army operated they develop a fuller understanding roman ancient and world history excavation of the ancient city of morgantina in southeastern sicily since 1955 has recovered an extraordinary quantity and variety of pottery both locally made and imported this volume presents the fine ware pottery dating between the second half of the fourth century bce

when morgantina was a thriving inland center closely tied to the hellenistic east through syracuse and the first half of the first century ce when morgantina had been reduced to a dwindling roman provincial town that would soon be abandoned bearing gloss and often paint or relief these fine ceramics were mostly tableware and together they provide a well defined picture of the evolving material culture of an important urban site over several centuries and since virtually all these vessels come from dated deposits this volume provides wide ranging contributions to the chronology of hellenistic and early roman pottery an introductory chapter sketches out a comprehensive history of the city discusses the many well dated archaeological deposits that contained the excavated pottery and defines the major fabrics of the ceramics found at the site the bulk of the volume consists of a scholarly presentation of more than 1 500 pottery vessels analyzing their shapes fabrics chronology decoration and techniques of fabrication this rich ceramic material includes significant bodies of republican black gloss and red gloss vases sicilian polychrome ware and eastern sigillata as well as early italian terra sigillata with numerous examples imported from arezzo and other italian centers along with regional versions from campania and elsewhere on sicily the relief ware includes important groups of third century bce medallion cups and hemispherical moldmade cups of the second and first centuries bce morgantina was also an active center of pottery production and the debris from several workshops has been recovered enabling shelley stone to reconstruct the working techniques and materials of the local craftsmen the range of ceramics they produced and how their products were influenced by pottery imported to the site from elsewhere on sicily the italian mainland and even more distant centers the volume also presents new information about the sources of the clay used by the morgantina potters as revealed by x ray fluorescence analysis of selected vases the politics of aristocratic empires is a study of a political order that prevailed throughout much of the world for many centuries without any major social conflict or change and with hardly any government in the modern sense although previously ignored by political science powerful remnants of this old order still persist in modern politics the historical literature on aristocratic empires typically is descriptive and treats each empire as unique by contrast this work adopts an analytical explanatory and comparative approach and clearly distinguishes aristocratic empires from both primitive and more modern commercialized societies it develops generalizations that are supported and richly illustrated by data from many empires and demonstrates that a pattern of politics prevailed across time space and cultures from ancient egypt five millennia ago to saudi arabia five decades ago from china and japan to europe from the incas and the aztecs to the tutsi kautsky argues that aristocrats because they live off the labor of peasants must perform the primary governmental functions of taxation and warfare their performance is linked to particular values and beliefs and both functions and ideologies in turn condition the stakes the forms and the arenas of intra aristocratic conflict the politics of the aristocracy the author also analyzes the roles of the peasantry and the townspeople in aristocratic politics and shows that peasant revolts on any large scale occur only after commercial modernization he concludes with chapters on the modernization of aristocratic empires and on the importance in modern politics of institutional and

ideological remnants of the old aristocratic order the complex role warfare played in ancient greek and roman civilizations is examined through coverage of key wars and battles important leaders armies organizations and weapons and other noteworthy aspects of conflict conflict in ancient greece and rome the definitive political social and military encyclopedia is an outstandingly comprehensive reference work on its subject covering wars battles places individuals and themes this thoroughly cross referenced three volume set provides essential support to any student or general reader investigating ancient greek history and conflicts as well as the social and political institutions of the roman republic and empire the set covers ancient greek history from archaic times to the roman conquest and ancient roman history from early rome to the fall of the western roman empire in 476 ce it features a general foreword prefaces to both sections on greek history and roman history and maps and chronologies of events that precede each entry section each section contains alphabetically ordered articles including ones addressing topics not traditionally considered part of military history such as noncombatants and war and gender followed by cross references to related articles and suggested further reading also included are glossaries of greek and latin terms topically organized bibliographies and selected primary documents in translation a lively combination of scholarship and unorthodoxy makes these studies in ancient history and literature unusually rewarding few of the objects of conventional admiration gain much support from peter green pericles and the democracy of fifth century athens are treated to a very cool scrutiny but he has a warm regard for the real virtues of antiquity and for those who spoke with an individual voice the studies cover both history and literature greece and rome they range from the real nature of athenian society to poets as diverse as sappho and juvenal and all of them without laboring any parallels make the ancient world immediately relevant to our own there is for example a very perceptive essay on how classical history often becomes a vehicle for the historian s own political beliefs and fantasies of power the student of classical history will find plenty in this book to enrich his own studies the general reader will enjoy the vision of a classical world which differs radically from what he probably expects from the author of moon wreck comes the first full length novel in the series the human federation of worlds thought they were alone in the galaxy but now an alien spacecraft has appeared over one of their distant mining operations the frightened miners immediately call for help to deal with this worrisome first contact situation admiral streth is sent to implement talks with the aliens and to find out what they want the aliens inform the admiral that they are called hocklyns and are from a large multi world trading federation in truth they come from an empire that is expanding through the galaxy and conquering world after world for slaves and they have set their sights on the human worlds as their next conquest enormous numbers of slaves were absorbed into roman society from the third century b c onwards mainly enslaved prisoners of war they transformed the quality of life in the roman empire beyond recognition in this anthology the author offers a complete collection of greek and latin sources in an english translation which deal with the great slave rebellions in the second and first centuries b c in a postscript zvi yavetz surveys the controversy on slaves and slavery from the french revolution to our own days with an emphasis on the debate

between marxists and non marxists the book is intended for specialists and generalists alike including those who have had no previous classical education but could after delving in sources concern themselves with one of the most intriguing problems in world history zvi yavetz holds the lessing chair of roman history at tel aviv university israel and is distinguished visiting professor at queens college of the city university of new york he is the author of many books in hebrew french and german on roman history among which are julius caesar and his public image and plebs and principis this study first published in german in 1975 addresses the need for a comprehensive account of roman social history in a single volume specifically alföldy attempts to answer three questions what is the meaning of roman social history what is entailed in roman social history how is it to be conceived as history alföldy s approach brings social structure much closer to political development following the changes in social institutions in parallel with the broader political milieu he deals with specific problems in seven periods archaic rome the republic down to the second punic war the structural change of the second century bc the end of the republic the early empire the crisis of the third century ad and the late empire excellent bibliographical notes specify the most important works on each subject making it useful to the graduate student and scholar as well as to the advanced and well informed undergraduate brings the voices of roman slaves in early comedy to the history of theater and the history of slavery was the twentieth century the most violent in history are religions or tyrants capitalism or communism the cause of most human suffering has violence increased or decreased over the course of history in this wholly original and remarkably ambitious work atrocitologist matthew white considers man s inhumanity to man across several thousand years of history from the first punic war and the collapse of mayan rule to the reign of peter the great and the cataclysmic events of the second world war white s epic book spans centuries and civilisations as it measures the hundred most violent events in human history while sceptical of any grand theory for the causes of human violence white does share three big lessons gleaned from his careful statistical analysis one chaos is more deadly than tyranny two the world is even more disorganised than we realise and three wars kill more civilians than soldiers in fact the army is usually the safest place to be if we study history to avoid the mistakes of the past then there can be no more important place to start than this eye opening and entertaining book many of the wars of the late republic were largely civil conflicts there was therefore a tension between the traditional expectation that triumphs should be celebrated for victories over foreign enemies and the need of the great commanders to give full expression to their prestige and charisma and to legitimize their power triumphs in the age of civil war rethinks the nature and the character of the phenomenon of civil war during the late republic at the same time it focuses on a key feature of the roman socio political order the triumph and argues that a commander could in practice expect to triumph after a civil war victory if it could also be represented as being over a foreign enemy even if the principal opponent was clearly roman significantly the civil aspect of the war did not have to be denied carsten hjort lange provides the first study to consider the roman triumph during the age of civil war and argues that the idea of civil war as normal reflects the way civil war permeated the politics and society of the late roman

historical circumstances that had little to do with the intrinsic views or organizational capabilities of the slaves themselves in this book theresa urbainczyk challenges the current orthodoxy and argues that there were many more slave revolts than is usually assumed and they were far from insignificant historically she carefully dissects ancient and modern interpretations to show that there was every reason for the writers who recorded and re recorded the slave rebellions and wars to repress or to reconfigure any larger scale slave resistance as something other than what it was further she shows that we often have the accounts that we do because of the happenstance of certain ancient authors having been particularly interested in creating accounts of them for their own interests urbainczyk argues that we need to look beyond the canonical sources and episodes to see a bigger history of long term resistance of slaves to their enslavement

Spartacus

2011

in the modern louvre of paris you can find amidst a collection of other french sculptures a 2 12 meter tall marble statue of spartacus naked broken chains hanging from his wrists his eyes showing both a pensive serenity and a cold aggression the piece was sculpted by denis foyatier in 1830 as an addition to l allée des grands hommes the avenue of great men in the jardin des tuileries it was moved to the louvre in 1877 you may have heard the name spartacus before as he has long been a symbol of the fight against repression in a nutshell he was a soldier turned gladiator turned runaway slave that fought rome as leader of a massive slave army but who really was he what kind of life did he live what do we know of his origins those are some questions that will be answered in this ebook

the politics of aristocratic empires is a study of a political order that prevailed throughout much of the world for many centuries without any major social conflict or change and with hardly any government in the modern sense although previously ignored by political science powerful remnants of this old order still persist in modern politics the historical literature on aristocratic empires typically is descriptive and treats each empire as unique by contrast this work adopts an analytical explanatory and comparative approach and clearly distinguishes aristocratic empires from both primitive and more modern commercialized societies it develops generalizations that are supported and richly illustrated by data from many empires and demonstrates that a pattern of politics prevailed across time space and cultures from ancient egypt five millennia ago to saudi arabia five decades ago from china and japan to europe from the incas and the aztecs to the tutsi kautsky argues that aristocrats because they live off the labor of peasants must perform the primary governmental functions of taxation and warfare their performance is linked to particular values and beliefs and both functions and ideologies in turn condition the stakes the forms and the arenas of intra aristocratic conflict the politics of the aristocracy the author also analyzes the roles of the peasantry and the townspeople in aristocratic politics and shows that peasant revolts on any large scale occur only after commercial modernization he concludes with chapters on the modernization of aristocratic empires and on the importance in modern politics of institutional and ideological remnants of the old aristocratic order

social and political institutions of the roman republic and empire the set covers ancient greek history from archaic times to the roman conquest and ancient roman history from early rome to the fall of the western roman empire in 476 ce it features a general foreword prefaces to both sections on greek history and roman history and maps and chronologies of events that precede each entry section each section contains alphabetically ordered articles including ones addressing topics not traditionally considered part of military history such as noncombatants and war and gender followed by cross references to related articles and suggested further reading also included are glossaries of greek and latin terms topically organized bibliographies and selected primary documents in translation

The Politics of Aristocratic Empires

2017-09-29

a lively combination of scholarship and unorthodoxy makes these studies in ancient history and literature unusually rewarding few of the objects of conventional admiration gain much support from peter green pericles and the democracy of fifth century athens are treated to a very cool scrutiny but he has a warm regard for the real virtues of antiquity and for those who spoke with an individual voice the studies cover both history and literature greece and rome they range from the real nature of athenian society to poets as diverse as sappho and juvenal and all of them without laboring any parallels make the ancient world immediately relevant to our own there is for example a very perceptive essay on how classical history often becomes a vehicle for the historian s own political beliefs and fantasies of power the student of classical history will find plenty in this book to enrich his own studies the general reader will enjoy the vision of a classical world which differs radically from what he probably expects

Conflict in Ancient Greece and Rome [3 volumes]

The Shadow of the Parthenon

2008-12

was the twentieth century the most violent in history are religions or tyrants capitalism or communism the cause of most human suffering has violence increased or decreased over the course of history in this wholly original and remarkably ambitious work atrocitologist matthew white considers man s inhumanity to man across several thousand years of history from the first punic war and the collapse of mayan rule to the reign of peter the great and the cataclysmic events of the second world war white s epic book spans centuries and civilisations as it measures the hundred most violent events in human history while sceptical of any grand theory for the causes of human violence white does share three big lessons gleaned from his careful statistical analysis one chaos is more deadly than tyranny two the world is even more disorganised than we realise and three wars kill more civilians than soldiers in fact the army is usually the safest place to be if we study history to avoid the mistakes of the past then there can be no more important place to start than this eye opening and entertaining book

Hermathena

1890

many of the wars of the late republic were largely civil conflicts there was therefore a tension between the traditional expectation that triumphs should be celebrated for victories over foreign enemies and the need of the great commanders to give full expression to their prestige and charisma and to legitimize their power triumphs in the age of civil war rethinks the nature and the character of the phenomenon of civil war during the late republic at the same time it focuses on a key feature of the roman socio political order the triumph and argues that a commander could in practice expect to triumph after a civil war victory if it could also be represented as being over a foreign enemy even if the principal opponent was
