~~measuring analyzing interpreting and~~
communicating financial information to
managers for the pursuit of an organization s
goals a budget is a document businesses use to
track income and expenses in a detailed enough
way to make operational decisions budgets are
typically forward looking in nature income is
based on projections and estimates for the
periods they cover as are expenses at its most
basic level a budget ensures that a team or
department has the resources needed to achieve
its goals for managers the budget serves as a
vital tool for communicating expectations and
goals to stakeholders mobilizing teams and
departments around organizational objectives
all managers must follow the budget but
setting an appropriate budget for selling and
administrative functions is complicated and is
not always thoroughly understood by managers
without a background in managerial accounting
budgeting involves the coordination of
financial and nonfinancial planning to satisfy
organizational goals and objectives no
foolproof method exists for preparing an
effective budget however budget makers should
carefully consider the conditions that follow
top management support there are four common
types of budgets that companies use 1
incremental 2 activity based 3 value based
proposition and 4 zero based these four
budgeting methods each have their own
