this is poetry at its best same blood same flesh and same chemical composition we breathe we eat we think and we feel our only difference is preception the way in which we view people places and things based on what we know and how we feel and or have felt the glass can be half full and or half empty growth and development comes in stages as children we see in black in white as young adults we see in black white and grey and as men women we see the never ending various shades of colors the more i learn the less i realized i know over the years i found that it seems everyone would like things to go their way so it started to make sense why my plans didnt always work out thats about the time i learned to role with the punches in life to make the best of everything to always breathe easy and what i feel is most important was the ability to lose small my book is a lot of deep thoughts self reflection over years of studies i dont believe that emotions should have the right to override intellect the mind controls the body so i think and i dare you to think also the choices we make are based on what we want and or feel we need to your choices are yours and they may or may not affect my life but consequences come with all choices choose wisely just know that you chose conscious or not email me at openyourmind0012 gmail com open your mind see as eye see is also on facebook feel free to let me know what you think

modern pundits give donald trump little credit for anything even though he is clearly the greatest man in our time i would say it is because the bulk of the news media simply do not like him as he does not want to have anything to do with a marxist agenda before trump set the world on fire from 2017 to 2020 the five highest rated presidents according to a c span survey

for example were abraham lincoln george washington franklin d roosevelt theodore roosevelt and dwight d eisenhower i do not contest the fact that they showed greatness in office but when you look at all of trump s accomplishments and the complexity of our times the 45th president deserves much more consideration that s why i wrote this book you may never choose to invite donald john trump over the house for breakfast or even a holiday gathering but looking back at his four years in office whether you like him or not most americans admit those were some of the most prosperous and warless years we have had in our lifetimes we have the chance again to have the greatest man in our time as president in a few more years let s do our best to assure it after you read this book i hope you feel as comfortable as i do to place donald j trump on the top of this venerable stack of great presidents with all of the flack trump received as president there are clearly a number of americans who would not cast their vote for best president his way under any circumstance but there are a lot who would i am glad you are reading this book as it will help you know what a great man and a great president we can have again as our leader
