Langley Air Force Base (AFB), Initial F-22 Operational Wing Beddown 2001
this volume examines the persistence of poverty both rural and urban in developing countries and the response of local governments to the problem exploring the roles of governments ngos and csos in national and sub national agenda setting policy making and poverty reduction strategies it brings together a rich variety of in depth country and international studies based on a combination of original data collection and extensive research experience in developing countries taking a bottom up and multi dimensional perspective of poverty and well being as the starting point the authors develop a convincing set of arguments for putting the priorities of poor people first on any development agenda thus carving out an undisputable role for local governance in interplay with higher up governance actors and institutions

Local Governance and Poverty in Developing Nations 2013-06-17 this book explores the extent to which gendered approaches are evident and effective in spatial development in selected european countries beginning with an introduction to theories and concepts of gender space and development the book includes a brief historical review of gender in spatial planning and development throughout europe in general and an overview of different national frameworks in european countries comparing legal organisational and cultural similarities and differences this is followed by a critical reflection on how simplifications and stereotypes of gender concepts are used in the practice of spatial development the main part of the book offers a transnational discussion of planning practices on selected thematic topics it starts with gender sensitivity in urban master planning and at neighbourhood level referring to different types of planning manuals furthermore the book focuses on gender sensitive evaluation in urban planning as well as international agendas for sustainable development as a framework for a new generation of gender equality policies the chapter authors assert that climate change migration and austerity have threatened gender equality and therefore spatial development needs to be especially alert to gender dimensions the editors end with an outlook and suggestions for further action and research on gender issues in spatial development with inputs from some of europe s leading thinkers on gender space and development this volume is designed to inspire students scholars and practitioners to reflect upon the contribution that gendered approaches can make in the various fields of spatial development and environmental planning

Gendered Approaches to Spatial Development in Europe 2019-03-27 one of the few monitoring global trends related to information and communication technologies icts from a development perspective this publication is a valuable reference for policymakers in developing countries special attention is given to icts in accelerating private sector development psd in developing countries many national and donor strategies related to psd fail to take adequate account of the ict potential which has greatly expanded thanks to changes in the global ict landscape different facets of the ict psd interface are explored including ict infrastructure as a factor in the investment climate ict use by the private sector the ict sector as a part of the private sector and finally ict use in interventions aimed at facilitating psd

Information Economy Report 2011 2012-02-06 increased agricultural output

and a rise in the rural community's per capita incomes along with industrialization and urbanization lead to increased industrial demand the agriculture sector which comprises collective business activities carried out from the farm to the fork is a significant generator of jobs and income worldwide agricultural and agro industries are the key source of added value for primary agricultural goods a driver for the growth of the productive value chain a contributor to increased commodity quality and protection and a service provider for the movement of food from manufacturing to consumption this study would concentrate on how agriculture can play an important role in improving national finances *Economic Development In Agro-Finance Sector 2022-11-19* public policy interventions aimed at encouraging supporting and developing small businesses are important for understanding entrepreneurship and small business management this textbook is the first to provide teachers and students with a resource that gives an overview of how institutional and policy structures interact with small firm start ups continuation and succession failures beginning with a brief introduction to policy processes the text covers the main policy instruments for entrepreneurial market entry and start up support for on going small business advice and financial support and succession planning it particularly focuses on policies that improve the business enabling environment through macroeconomic policy institutional reform and deregulation of bureaucratic burdens theoretical rigour is complemented by detailed assessments of current policies around the world including usa advanced and emerging economies and policy support from global institutions such as the world bank and the ilo are included written by a pre eminent scholar of public policy and entrepreneurship this textbook provides a concise but thorough introduction to the subject for master's students internationally policy recommendations in the author's conclusion also highlight the book's value to policy makers as they adapt to the globalized digital world

Entrepreneurship, Small Business and Public Policy 2014-06-20 in the green leap to an inclusive economy two leading thinkers stuart l hart and fernando casado cañeque challenge head on the two biggest issues facing humanity and the planet today inequality and environmental degradation they present the new design thinking required for a more inclusive and sustainable economy which respects both people and planet far from simply presenting the problems this book offers insightful case studies that showcase the challenges and opportunities of base of the pyramid venturing in different geographical and cultural contexts as well as providing a detailed description of the tools that have been proven to enhance the innovation of business models to address the issues through telling these stories the authors provide a roadmap for how to make an inclusive and sustainable economy a reality where opportunity and prosperity are available to more of the people that participate in the economy as workers consumers owners and the wider community whilst addressing the risks to the natural capital we all depend on this book is essential reading for anyone looking to accelerate the development of an inclusive business for the benefit of society and the planet as well as those involved in the study and research of the base of the pyramid and sustainable business solutions
