in the fields of accounting accounting education and ethics

New Trends in Finance and Accounting 2020-11-04

the global financial crisis that began in 2007 was the most destructive since the 1930s the rapid spread of the crisis across borders and the complexity of these cross border linkages highlighted the importance for authorities of working together in responding to the crisis this book examines the transnational response that relied heavily on a set of relatively informal transnational regulatory groupings that had been constructed over previous decades during the crisis these arrangements were made stronger and more inclusive but they remain very complex thousands of pages of new rules have been created by various transnational bodies and the implementation of these rules relies heavily on domestic law and regulation and private rules and practices this book analyses this complex response showing that its overly technical and incremental character the persistence of tensions between transnational processes and state centred politics and the ongoing power of private actors have made the regulatory response fall short of what is needed transnational financial regulation after the crisis provides new insights that are relevant for theory and practice not only for transnational financial regulation but for global governance more generally

Accounting Ethics Education 2017-09-11

this volume provides a history of the domination of the big four in the chinese accounting industry explaining why china was unable to keep the market for its own accounting firms the book details how easy access to u s capital markets led to major accounting scandals and a clash between u s and chinese regulators

Transnational Financial Regulation after the Crisis 2017-03-27

accounting ethics education teaching virtues and values gathers a diversity of contributions from invited well known experts it promotes a comprehensive reflection around how ethics can and should be taught to accounting students discussing and highlighting the most updated research on accounting ethics education and it is an essential reference in the field the subject of accounting ethics education is critical to foster ethical awareness that may prevent the way in which one acts or behaves especially towards others the point is that accounting education cannot exist without ethical education and accountants must be technically proficient and ethically sensible since ethical behavior is vital to the status and credibility of the accountancy profession and this sensibility must be developed while the future professional is still cultivating his or her moral and intellectual structure within the school learning environment character and practical reasoning are crucial because they include not only knowledge of rules and principles and their correct application but also values and virtues examining multiple perspectives accounting ethics education teaching virtues and values advances the scholarly debate by providing cuttingedge and insightful research vital for all those interested and immersed in these matters it begins with a historical perspective of accounting ethics education and continues by exploring challenges opportunities and developments in the area it will be of great value to academics students researchers and professionals in the fields of accounting accounting education and ethics

The Big Four and the Development of the Accounting Profession in China
