Forensic Aspects of Dissociative Identity Disorder

2018-03-28

this ground breaking book examines the role of crime in the lives of people with dissociative identity disorder formerly known as multiple personality disorder a condition which appears to be caused by prolonged trauma in infancy and childhood this trauma may be linked with crimes committed against them crimes they have witnessed and crimes they have committed under duress this collection of essays by a range of distinguished international contributors explores the complex legal ethical moral and clinical questions which face psychotherapists and other professionals working with people suffering from dissociative identity disorder contributors to this book are drawn from a wide range of professions including psychotherapy psychoanalysis counselling psychology medicine law police and social work

Handbook of Dissociation

1996-03-31

this timely handbook provides state of the art coverage of both current and emerging theories research and treatment of dissociative phenomena the book opens with a discussion of the historic epidemiologic phenomenologic etiologic normative and cross cultural dimensions of dissociation providing an empirical foundation for the remaining chapters subsequent chapters examine the developmental aspects of dissociative disorders in addition to psychological and psychophysiological assessments eight case studies apply dissociation theory and research to specific treatment modalities

The Dissociative Mind

2013-05-13

drawing on the pioneering work of janet freud sullivan and fairbairn and making extensive use of recent literature elizabeth howell develops a comprehensive model of the dissociative mind dissociation for her suffuses everyday life it is a relationally structured survival strategy that arises out of the mind s need to allow interaction with frightening but still urgently needed others for therapists dissociated self states are among the everyday fare of clinical work and gain expression in dreams projective identifications and enactments pathological dissociation on the other hand results when the psyche is overwhelmed by trauma and signals the collapse of relationality and an addictive clinging to dissociative

solutions howell examines the relationship of segregated models of attachment disorganized attachment mentalization and defensive exclusion to dissociative processes in general and to particular kinds of dissociative solutions enactments are reframed as unconscious procedural ways of being with others that often result in segregated systems of attachment clinical phenomena associated with splitting are assigned to a model of attachment based dissociation in which alternating dissociated self states develop along an axis of relational trauma later chapters of the book examine dissociation in relation to pathological narcissism the creation and reproduction of gender and psychopathy elegant in conception thoughtful in tone broad and deep in clinical applications howell takes the reader from neurophysiology to attachment theory to the clinical remediation of trauma states to the reality of evil it provides a masterful overview of a literature that extends forward to the writings of bromberg stern ryle and others the capstone of contemporary understandings of dissociation in relation to development and psychopathology the dissociative mind will be an adventure and an education for its many clinical readers

Dissociation

1994-08-05

scientific and popular interest in dissociation and dissociative disorders has grown significantly in the past decade responding to the need for an authoritative reference on this topic steven jay lynn and judith w rhue present an unusually comprehensive volume covering the major aspects of dissociation from the predominant models and diagnostic and treatment approaches to significant research clinical and conceptual issues illuminating reading dissociation confronts many of the controversies and debates surrounding the topic founded on research and grounded in theory it is an important addition to the scholarly literature laying the groundwork for the rest of the book the first section discusses current theoretical and research perspectives on dissociation chapters set forth results of the latest research alongside actual clinical examples in the second section chapters present practical information designed to assist clinicians in diagnosing and treating clients suffering from dissociative disorders post traumatic stress disorders and the consequences of sexual victimization and cult involvement fostering an appreciation for the ways in which social and cultural factors affect the expression of dissociative symptoms this section also illustrates the ways in which transference and countertransference can affect dissociative symptoms and the treatment of multiple personality disorder mpd the third section on current issues and controversies provides invaluable information for all clinicians who encounter clients with dissociative disorders chapters probe such questions as whether trauma causes dissociative pathology whether and under what circumstances pseudomemories of child abuse can be created the relationship between conversion and dissociative disorders and their respective placement in diagnostic classification schemes and areas of

possible rapprochement between those who believe in mpd and those who are skeptical of the disorder offering the most significant contribution to scholarly coverage of dissociation to date this highly provocative volume offers valuable insights for the clinician as well as many new theories hypotheses and syntheses of the research literature as such dissociation will be welcomed by anyone who encounters dissociative disorders in clinical practice it is also a useful primary text for researchers and students of psychotherapy in a broad range of helping professions

Understanding and Treating Dissociative Identity Disorder

2011-06

building on the comprehensive theoretical model of dissociation elegantly developed in the dissociative mind elizabeth howell makes another invaluable contribution to the clinical understanding of dissociative states with understanding and treating dissociative identity disorder howell working within the realm of relational psychoanalysis explicates a multifaceted approach to the treatment of this fascinating yet often misunderstood condition which involves the partitioning of the personality into part selves that remain unaware of one another usually the result of severely traumatic experiences howell begins with an explication of dissociation theory and research that includes the dynamic unconscious trauma theory attachment and neuroscience she then discusses the identification and diagnosis of dissociative identity disorder did before moving on to outline a phase oriented treatment plan which includes facilitating a multileveled co constructed therapeutic relationship emphasizing the multiplicity of transferences countertransferences and kinds of potential enactments she then expands the treatment possibilities to include dreamwork before moving on to discuss the risks involved in the treatment of did and how to mitigate them all concepts and technical approaches are permeated with rich clinical examples

Dissociation and the Dissociative Disorders

2010-11-01

winner of isstd s 2009 pierre janet writing award for the best publication on dissociation in 2009 dissociation and the dissociative disorders is a book that has no real predecessor in the dissociative disorders field it reports the most recent scientific findings and conceptualizations about dissociation defines and establishes the boundaries of current knowledge in the dissociative disorders field identifies and carefully articulates the field s current points of confusion gaps in knowledge and conjectures clarifies the different aspects and implications of dissociation and sets forth a research agenda for the

next decade in many respects dissociation and the dissociative disorders both defines and redefines the field

Trauma and Dissociation in a Cross-Cultural Perspective

2013-05-13

an international look at the similarities and differences of long lasting trauma trauma and dissociation in a cross cultural perspective examines the psychological sociological political economic and cultural aspects of trauma and its consequences on people around the world dispelling the myth that trauma related dissociative disorders are a north american phenomenon this unique book travels through more than a dozen countries to analyze the effects of long lasting traumatization both natural and man made on adults and children working from theoretical and clinical perspectives the field s leading experts address trauma in situations that range from the psychological effects of the troubles in northern ireland to the emergence of hikikomori the phenomenon of social withdrawal in japanese youth reactions to trauma can be both unique according to a person s culture and similar to the experiences of others around the world dissociation intense grief anger and survivor s guilt are common responses as people split off mentally physically and emotionally from the source of the trauma whether it s an act of nature tsunami earthquake flood etc or the trauma created by violence physical sexual and emotional abuse assault confinement kidnapping and war trauma and dissociation in a cross cultural perspective examines the efforts of clinicians and researchers in europe asia the middle east south america australia and new zealand to develop sociopsychological methods of providing counseling to people who are suffering physically emotionally and spiritually training for professionals counted on to dispense that counseling and economic and political solutions that might help to limit the devastating effects of natural disasters trauma and dissociation in a cross cultural perspective examines the tensions between the national health service and the private sector in the united kingdom how the mandarin version of the dissociative experiences scale des is used in china djinnai a culture bound syndrome and possession trance disorder found in iran how colonialism has transmitted trauma to the maori people of new zealand transgenerational trauma in turkey religious rituals and spirit possession in the philippines memory wars in israel traumatic syndromes among the french differences in dissociative experiences among chinese and japanese youth childhood trauma in argentina and much more trauma and dissociation in a cross cultural perspective is an enlightening professional resource for anyone working in psychology sociology psychiatry and psychotherapy
