the best selling author of the 7 minute difference demonstrates how small routine choices can enable significant positive changes in personal relationships and goals outlining specific strategies and tools for identifying key priorities and accomplishing scheduled daily tasks the british and foreign bible society is one of the most illustrious christian charities in the united kingdom founded by evangelicals in the early nineteenth century and inspired by

developments in printing technology its goal has always been to make bibles universally available over the past several decades though bible society has faced a radically different world especially in its work in england where the society once had a grateful and engaged reading public it now faces apathy even

antipathy for its cause these days it seems no one in england wants a bible and no other people telling them they should religion is supposed to be a private matter  
christians attempt to spark a renewed interest in the word of god they

~~while at the same time adopting a new way of~~  
life how do individuals go about making a  
decision to give up crime how do they plan to  
sustain this decision and in what ways does  
probation help this book explores these  
questions based on in depth interviews with a  
group of men under probation supervision sam  
king investigates the factors associated with  
making a decision to desist from crime the  
book examines strategies for desistance and  
explores the factors that individuals consider  
when they are thinking about how they will  
desist in doing so the book sheds new light on  
existing understandings of desistance from  
crime and helps to develop our understandings  
of the role that individuals play in  
constructing their own desistance journeys  
this book also highlights the role of  
probation in this process offering a timely  
and critical review of the nature of probation  
under the new labour government in the uk  
between 1997 2010 the findings indicate that  
we should allow probation officers greater  
autonomy and discretion within their roles and  
that we should free them from the bureaucracy  
of risk assessment and targets moreover the  
book warns against the potential fragmentation  
of community supervision as such the book will  
be of interest to criminology students
