Rethinking Sustainability Towards a Regenerative Economy 2021 this open access book is based on work from the cost action restore rethinking sustainability towards a regenerative economy and highlights how sustainability in buildings facilities and urban governance is crucial for a future that is socially just ecologically restorative and economically viable for europe and the whole planet in light of the search for fair solutions to the climate crisis the authors outline the urgency for the built environment sector to implement adaptation and mitigation strategies as well as a just transition as shown in the chapters this can be done by applying a broader framework that enriches places people ecology culture and climate at the core of the design task with a particular emphasis on the benefits towards health and resilient business practices this book is one step on the way to a paradigm shift towards restorative sustainability for new and existing buildings the authors want to promote forward thinking and multidisciplinary knowledge leading to solutions that celebrate the richness of design creativity in this vision cities of the future will enhance users experience health and wellbeing inside and outside of buildings while reconciling anthropic ecosystems and nature a valuable resource for scientists and students in environmental sciences and architecture as well as policy makers practitioners and investors in urban and regional development

Water Resources of Italy 2020-04-17 this book offers a comprehensive framework of the current state of water resources in italy and of the main stages of the evolutionary way in the last decades for achieving an integrated sustainable and equitable water resources management the main paradigms of water resources development are identified as i engineering and economic approach to water resources exploitation ii focus on pollution control and water excess management iii a comprehensive approach toward a sustainable and equitable distribution of resources and effective risk reduction of water related disasters after a section devoted to the analysis of some historic stages in the legislation framework and the governance of water and soil with particular reference to planning design building and operation of water systems two sections deal with the estimation of water resources availability on national territory and estimation of water demands in municipal agricultural industrial ecosystem sectors the complex problems that the italian society has to solve in the water field and the main challenges of a changing world are discussed in the fourth section of the volume the book will not only be useful for water professionals but also for citizen who like to discern the key factors which delay the recognition of water as a resource for life the description of the problems and adopted solutions could also serve as a guideline for similar situations encountered in other countries improving the preparation of the responsible people

New Metropolitan Perspectives 2020-08-31 this book presents the outcomes of the symposium new metropolitan perspectives held at mediterranea university Reggio Calabria Italy on May 26-28 2020 addressing the challenge of knowledge dynamics and innovation driven policies towards urban and regional transition the book presents a multi disciplinary debate on the new frontiers of strategic and spatial planning economic programs and decision support tools in connection with urban rural area networks and metropolitan centers the respective papers focus on six major tracks innovation dynamics smart cities and ICT urban regeneration community led practices and PPP local development inland and urban areas in territorial cohesion strategies mobility accessibility and infrastructures heritage landscape and identity and risk management environment and energy the book also includes a special section on the region United Nations 2020-2030 given its scope the book will benefit all researchers practitioners and policymakers interested in issues concerning metropolitan and marginal areas

Local Governance in the New Urban Agenda 2020-10-19 the book explores and discusses some of the changes challenges and opportunities confronting local governance in the context of the new urban paradigm associated with the Habitat III New Urban Agenda a 20 year strategy for sustainable urbanization adopted in October 2016 in Quito Ecuador the chapters included in the book address public policy issues from different theoretical perspectives and methodological approaches written by authors from different academic disciplines within the broad area of social sciences geography political science public administration spatial planning law regional science among other fields and offer an inter disciplinary vision of these issues the chapters are written by members of the

international geographical union igu commission on geography of governance

Guida 2020 alla fatturazione elettronica per il professionista tecnico 2020-01-27 l'obbligo di emissione di fattura elettronica è stato introdotto dalla legge di bilancio 2018 a decorrere dal 1 gennaio 2019 nel corso del 2018 e del 2019 sono stati numerosi i provvedimenti del direttore dell'agenzia delle entrate nonché le circolari ministeriali che hanno chiarito punti di difficile interpretazione e stabilito le modalità tecniche della nuova fattura elettronica questi chiarimenti sono presenti in questa edizione dell'ebook aggiornata a gennaio 2020

Bioclimatic Approaches in Urban and Building Design 2021-01-04 this book explores the bioclimatic approach to building design constant innovations in the field are evident including the need to face climate changes and increase the local resilience at different scales regional urban architectural differently from other contributions this book provides a definition of the bioclimatic design approach following a technological and performance driven vision it includes one of the largest collection of research voices on the topic becoming also a critical reference work for bioclimatic theory it is intended for architects engineers researchers and technicians who have professional and research interests in bioclimatic and in sustainable and technological design issues

GUIDA OPERATIVA PER LA REALIZZAZIONE DEGLI INTERVENTI DEL PNRR E DEL PNC

2022-07-04T00:00:00+02:00 questo testo vuole costituire una guida pratica operativa per l'esecuzione di un lavoro pubblico finanziato nell'ambito del pnrr o pnc in tutto il suo ciclo e per tutti i soggetti che operano nel procedimento per la realizzazione di opere pubbliche finanziate da tali piani sono stati infatti emanati appositi atti normativi in ultimo il d l n 77 2021 c d decreto recovery convertito con modifiche dalla legge n 108 2021 la disciplina citata ha l'obiettivo di semplificare molte procedure dei contratti pubblici così da consentire un più veloce compimento delle opere nei tempi stabiliti dai pnrr e pnc e nel rigoroso rispetto del codice degli appalti il volume presenta sia una versione cartacea che una digitale nella prima per ogni argomento è esposta una sintesi della disciplina mentre nella seconda i collegamenti ipertestuali consentono di consultare i documenti relativi onde avere così un quadro il più esaustivo possibile dell'argomento

Brick and Block Masonry - From Historical to Sustainable Masonry 2020-07-06 brick and block masonry from historical to sustainable masonry contains the keynote and semi keynote lectures and all accepted regular papers presented online during the 17th international brick and block masonry conference ib2mac kraków poland july 5 8 2020 masonry is one of the oldest structures with more than 6 000 years of history however it is still one of the most popular and traditional building materials showing new and more attractive features and uses modern masonry based on new and modified traditional materials and solutions offers a higher quality of life energy savings and more sustainable development hence masonry became a more environmentally friendly building structure brick and block masonry from historical to sustainable masonry focuses on historical current and new ideas related to masonry development and will provide a very good platform for sharing knowledge and experiences and for learning about new materials and technologies related to masonry structures the book will be a valuable compendium of knowledge for researchers representatives of industry and building management for curators and conservators of monuments and for students

Empowering Migrant Inclusion 2022-03-01 this book focuses on the management and conservation of architectural heritage with the aim of increasing awareness about the value of such conservation and of saving what is left of history which in turn rewards societies by supporting the tourism industry generating economic return and preserving communities identities since it has become an essential need to manage and conserve the architectural heritage in order to protect the identity and heritage of a city there appeared a gap between the theory and its application therefore a considerable amount of attention has been directed by experts in this field toward emphasizing the contribution of heritage conservation in order to inspire the development of imaginative useful high quality design

Conservation of Architectural Heritage 2024-04-01 the eight volume set Incs 13375 13382 constitutes the proceedings of the 22nd international conference on computational science and its applications iccsa 2022 which was held in malaga spain during july 4 7 2022 the first two volumes contain the proceedings from iccsa 2022 which are the 57 full and 24 short papers presented in these books were

Carefully reviewed and selected from 279 submissions the other six volumes present the workshop proceedings containing 285 papers out of 815 submissions these six volumes includes the proceedings of the following workshops advances in artificial intelligence learning technologies blended learning stem computational thinking and coding aailt 2022 workshop on advancements in applied machine learning and data analytics aamda 2022 advances in information systems and technologies for emergency management risk assessment and mitigation based on the resilience aster 2022 advances in based learning awbl 2022 blockchain and distributed ledgers technologies and applications bdlta 2022 bio and neuro inspired computing and applications bionca 2022 configurational analysis for cities ca cities 2022 computational and applied mathematics cam 2022 computational and applied statistics cas 2022 computational mathematics statistics and information management cmsim computational optimization and applications coa 2022 computational astrochemistry compastro 2022 computational methods for porous geomaterials comppor 2022 computational approaches for smart conscious cities cascc 2022 cities technologies and planning ctp 2022 digital sustainability and circular economy disce 2022 econometrics and multidimensional evaluation in urban environment emeue 2022 ethical ai applications for a human centered cyber society ethicai 2022 future computing system technologies and applications fista 2022 geographical computing and remote sensing for archaeology gcrsarcheo 2022 geodesign in decision making meta planning and collaborative design for sustainable and inclusive development gdm 2022 geomatics in agriculture and forestry new advances and perspectives geoforagr 2022 geographical analysis urban modeling spatial statistics geog an mod 2022 geomatics for resource monitoring and management grmm 2022 international workshop on information and knowledge in the internet of things ikit 2022 13th international symposium on software quality issq 2022 land use monitoring for sustainability lums 2022 machine learning for space and earth observation data malseod 2022 building multi dimensional models for assessing complex environmental systems mes 2022 models and indicators for assessing and measuring the urban settlement development in the view of zero net land take by 2050 moveto0 2022 modelling post covid cities mpcc 2022 ecosystem services nature s contribution to people in practice assessment frameworks models mapping and implications nc2p 2022 new mobility choices for sustainable and alternative scenarios nemob 2022 2nd workshop on privacy in the cloud edge iot world pceiot 2022 psycho social analysis of sustainable mobility in the pre and post pandemic phase psyche 2022 processes methods and tools towards resilient cities and cultural heritage prone to sod and rod disasters res 2022 scientific computing infrastructure sci 2022 socio economic and environmental models for land use management semlum 2022 14th international symposium on software engineering processes and applications sepa 2022 ports of the future smartness and sustainability smartports 2022 smart tourism smarttourism 2022 sustainability performance assessment models approaches and applications toward interdisciplinary and integrated solutions spa 2022 specifics of smart cities development in europe speed 2022 smart and sustainable island communities ssic 2022 theoretical and computational chemistry and its applications tccma 2022 transport infrastructures for smart cities tisc 2022 14th international workshop on tools and techniques in software development process ttsdp 2022 international workshop on urban form studies uform 2022 urban regeneration innovative tools and evaluation model uritem 2022 international workshop on urban space and mobilities usam 2022 virtual and augmented reality and applications vra 2022 advanced and computational methods for earth science applications wacm4es 2022 advanced mathematics and computing methods in complex computational systems wamcm 2022

Nutrition and sustainable development goal 12: Responsible consumption 2022-07-28 second in a two volume set this book discusses the role of public private partnerships ppps in global transportation infrastructure specifically focusing on roads bridges and parking to provide vital services in an era of shrinking government budgets public private partnerships have become an increasingly important part of travel infrastructure worldwide this book describes and analyses the structure of various models of ppps in several countries evaluating their effectiveness and drawing policy implications for future use the chapters were written by leading international researchers and practitioners in the transportation field where each chapter is a case study on the adoption implementation and outcome

of transportation services taken together these diverse case studies provide an integrated framework for evaluating using ppps and suggesting policy implications to both the public and the private sectors in transportation providing rigorous empirical analysis of ppps in transportation this volume will be of interest to researchers in public administration political science public choice and economics as well as practitioners and policymakers involved in establishing and monitoring ppps in transportation

Computational Science and Its Applications – ICCSA 2022 Workshops 2022-07-30 le riforme che si sono succedute nel tempo hanno via via agevolato o limitato il ricorso alle tipologie contrattuali atipiche grazie a tali forme di flessibilità le imprese possono fronteggiare esigenze di impiego contingenti con lo strumento più adatto alle diverse necessità produttive e organizzative rispettando però le numerose regole di dettaglio per evitare la conversione a tempo indeterminato la guida analizza il contratto a tempo determinato il lavoro intermittente la somministrazione di lavoro le collaborazioni e le prestazioni occasionali senza dimenticare le nuove regole per i lavoratori digitali cd riders il volume è quindi il punto di riferimento per tutte le figure professionali quotidianamente tenute al corretto assolvimento degli adempimenti previsti per tali istituti
