the volume for 1886 contains the proceedings of the conference on temperance
legislation london 1886 how productivity culture and technology became
emblematic of the american economic system in pre and postwar germany the
concept of productivity originated in a statistical measure of output per worker or
per work hour calculated by the us bureau of labor statistics a broader productivity
culture emerged in 1920s america as henry ford and others linked methods of mass
production and consumption to high wages and low prices these ideas were studied
eagerly by a germany in search of economic recovery after world war i and decades
later the marshall plan promoted productivity in its efforts to help post world war
