the present commentary seeks to be a kind of halfway house between highly technical and popular treatments of galatians its purpose is to make the exposition as user friendly as possible with only as many technicalities as necessary to accomplish that end the emphasis of the work is decidedly theological with attention focused on the salvation historical argument of paul s letter its main target audience includes pastors students and pauline scholars the exposition assumes a modified form of the new perspective on paul and second temple judaism as its framework of interpretation and for this reason a premium has been placed on the letter s historical context as attested by the literature of second temple judaism as well as the greco roman environment however far from being inimical to the foundational concerns of the reformation this reading of the galatian letter is fully supportive of the great mottoes of the reformers themselves sola scriptura sola fide and especially solus christus and all the more as the present work endeavors to honor an oft neglected slogan of the reformation ad fontes to the sources the previous subtitle a new perspective reformational reading has now been changed to a reading from the new perspective in order to underscore the author s appreciation of what has been learned from such scholars as j d g dunn n t wright and numerous others this new commentary in the new testament library series is not a systematic study of pauline theology rather the aim of this study is to trace paul s theology as it unfolds in his letter to the church at galatia and to attempt to illuminate as far as possible how the galatians likely comprehended it at the time they received it the author asks readers to imagine themselves as silent witnesses to paul s dictation of the letter and to observe through a historical perspective how the galatian christians might have understood paul s words classic commentaries on a variety of themes by one of the world s greatest expositors commentary on the book of galatians a thorough exegetical commentary on galatians ephesians philippians colossians and philemon filled with applications john phillips writes with enthusiasm and clarity cutting through the confusion and heretical dangers associated with bible interpretation moody magazine aside from its high view of scripture this commentary is written with some other presuppositions in mind as well this is also true of any other individual commentary or series it is just not usually so forthrightly expressed first the genuineness of not only galatians but all of the pauline epistles is accepted without reservation second the historical accuracy of the book of acts and its concord with the pauline epistles is also unequivocally recognized third the primacy of paul and his epistles is maintained this does not mean that the pauline epistles are any more inspired than the rest of the scripture it does however mean that since the pauline epistles were specifically written to new testament christians and their churches that the emphasis will be primarily on what paul says and secondarily on what the rest of the bible has to add about any particular subject the fourth presupposition concerns the nature and significance of the new testament church when paul made converts on his missionary journeys he established churches independent churches of baptized disciples many of the same problems that existed in the churches of the first century can be found in churches today therefore this commentary will have an emphasis on the local church that is missing in most commentaries from the preface a distinctive resource for those who interpret the bible in the church planned and written specifically for teaching and preaching needs this outstanding biblical commentary is a major contribution to the general ministry of the word in today s world this scarce antiquarian book is a facsimile reprint of the original due to its age it may contain imperfections such as marks notations marginalia and flawed pages because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work dunn explores the book of galatians possibly paul s boldest exposition of the gospel and one of the best examples that his theology emerged from the framework of a living community dunn s penetrating analysis and original translation makes paul s rhetoric accessible to scholars students and laypersons as with the other volumes in this series you can expect a scripture index highlighted terms and phrases explanation of greek and foreign terms and references to primary and secondary literature one in a series of twelve new testament verse by verse commentary books edited by max anders includes discussion starters teaching plan and more great for lay teachers and pastors alike g walter hansen s study on galatians is part of

messages of the bible into today's context each passage is treated in three sections original meaning concise exegesis to help readers understand the original meaning of the biblical text in its schreiner and robert rapa the unique features from each volume along with the diverse insights provided by the authors gives you all the tools you need to study and master the book of galatians an in depth doctrinal commentary of st paul's inspired letter to the galatians this non academic theological exposition focuses on text and not outside concerns it does try to answer questions not answered or suggested by the text itself modern commentaries are pitiful examples of the intrusion of the scientific spirit this commentary is in the vein of pre scientific revolution commentaries like martin luther's for example which also read like sermons and devotions at times from the introduction galatians is different from the other epistles of paul it is the most passionate and intense of his letters while it addresses a historical situation the assumption here is that it is just as relevant and applicable to the people of this day but the addressees of this letter and their situation do affect the tone and language of this word of god while it would be interesting to figure out the specifics of their historical situation the simple fact is that the spirit who authored scripture gave us all that we need to know for salvation though not enough to satisfy our curiosity therefore we will stick to the words we have been given and not attempt to go behind around or under them the actual scriptural words must be the starting point and foundation for a faithful reading of the text the word of god is timeless we do not have to put ourselves in the place of the ancient galatians to understand this letter from paul the word of god gives salvation so it is also addressed to you and all people so this commentary will not interpret galatians as a historical document that has to be made relevant but as the always contemporary word of god addressing your problems issues and world this method is not popular among scholars today but it is what the scriptures themselves do this interpretation will stick closely to the words and their meanings which comprise this bold and fiery letter on the center of christianity and the gospel this commentary is meant to lead into the text not out of it it aims to address what the text actually says not what scholars or curious people wish it would have said unlike modern scholarly commentaries this is not a strictly exegetical work it desires to pay careful attention to the original greek text to explain apply sermonize and provide doctrinal and devotional meat all at a layman's level it tries to leave aside issues which the text does not make clear or actually address instead the words of scripture itself are the guide to how we are to think and do theology therefore this commentary is really meant to be a positive companion and help to an actual study of the text this commentary requires the biblical text to be open side by side with it since it was originally recorded for a radio

program it is somewhat informal and meant to be easily understood though theologically meaty enough to challenge this commentary is organized by verse numbers with each new verse expected to be read indicated in the text by the bolded verse number v1 for example this bolded indicator starts the discussion on a new verse the header on each page has the last chapter and verse discussed on that page for easy reference verses quoted from a translation are italicized translation of phrases in quotes are my own passages cited from an english translation are from the esv unless otherwise noted but any fairly literal translation of galatians can be used with this guide the understanding the bible commentary series helps readers navigate the strange and sometimes intimidating literary terrain of the bible these accessible volumes break down the barriers between the ancient and modern worlds so that the power and meaning of the biblical texts become transparent to contemporary readers the
