Investigating Lexis

2009-10

lexical research plays a central role in present day linguistics thanks to its ability to combine the traditional humanistic approach with state of the art linguistic theory it quickly responds to the demands of a constantly changing society which requires scholars to provide answers to challenges in the field of translation language teaching and language use furthermore while still dealing with areas like legal language or dictionaries the parameters of research have expanded to include previously unforeseeable fields such as video game terminology code mixing in pop music or the translation of erotic literature this book shows how researchers are currently responding to these challenges with a collection of essays representing various aspects of lexicography combining cutting edge research with a user friendly approach divided into four major sections lexical theory and acquisition legal terminology dictionaries and new challenges it proves that lexicology lexicography and terminology are very much at the forefront of current research trends

Flash MX Application And Interface Design

2024-03-21

the days of flash as a creative luxury are long gone after months of downsizing flash creativity has been on a huge rationalization program it is no longer enough to present animation in millions of colors and a hundred transparencies it is no longer sufficient to provide interactivity and dynamism for their own sake the purpose of this collection is to show how designers have taken flash and made it work for its supper what we discover is a series of creations that place flash at the hub of cutting edge web content the end result is a snapshot of flash as the ideal medium in these amazing examples we see the software pushed to its limits to create unbeatable applications a collapsible family tree an interactive video learning system and a drawing tool capable of running online beyond this we dip into the back end capabilities to look at how to improve flash still further some staple xml and php routines are brought in to add a bit of spice while flash s mysterious sharedobject command is hunted down and tamed to create a hybrid tamagotchi houseplant perfectly suited to lure surfers back to your website
