in the long controversy over the failure of the united states to extend early recognition to the people's republic of china the story of american efforts to maintain an official presence in the communist controlled areas of china until 1950 has been largely neglected moreover the often bitter partisan strife over sino american relations during this period has obscured important facts or so distorted them that making an independent judgment is difficult indeed in this book edwin martin seeks to set the confused record straight by providing a well documented detailed account of american responses to the policies and actions of the victorious chinese communists from their capture of mukden in november 1948 to their intervention in the korean war and rejection of u n cease fire offers uniquely martin provides also a parallel account based on recently released foreign office documents of sino british relations during this period shedding useful light on the course of american policy significantly neither the british nor the american approaches were successful both governments overestimated their power to influence events in china and the vulnerability of the sino soviet relationship only at the geneva meetings in 1954 did the chinese communists

reverse policy positions they had steadfastly maintained during 1949 1950 this corrective view of early american relations with the people s republic of china will be welcomed by all concerned with asian history and diplomacy

mao the unknown story by jung chang and jon halliday was published in 2005 to a great fanfare the book portrays mao as a monster equal to or worse than hitler and stalin and a fool who won power by native cunning and ruled by terror it received a rapturous welcome from reviewers in the popular press and rocketed to the top of the worldwide bestseller list few works on china by writers in the west have achieved its impact reviews by serious china scholars however tended to take a different view most were sharply critical questioning its authority and the authors methods arguing that chang and halliday s book is not a work of balanced scholarship as it purports to be but a highly selective and even polemical study that sets out to demonise mao this book brings together sixteen reviews of mao the unknown story all by internationally well regarded specialists in modern chinese history and published in relatively specialised scholarly journals taken together they demonstrate that chang and halliday s portrayal of mao is in many places woefully inaccurate while agreeing that mao had many faults and was responsible for some disastrous policies they conclude that a more balanced picture is needed

this is the final volume in a trilogy that examines the politics personalities economics culture and international relations of china from the mid 1950s to the mid 1960s it seeks to answer the central question why did chairman mao zedong launch the cultural revolution 1966 76 which plunged china into chaos and almost destroyed its communist party the coming of the cataclysm starts with the great famine of the early 1960s which resulted in tens of millions of deaths and set in train a series of emergency measures that increasingly divided mao from his comrades in arms his anger that they were prepared to adopt capitalist methods to rescue the country was sharpened by his belief that moscow had actually gone capitalist and sold out to the imperialist west from 1961 to 1966 the period covered by this volume the

increasingly urgent question for Mao was how to prevent a similar revolutionary degeneration in China. The Cultural Revolution was his answer, drawing upon new evidence from party documents, personal interviews, books, and journals. MacFarquhar details the growing rift between Mao and his colleagues as they attempted to cope with domestic privation and an increasingly hostile international environment until the Chairman finally decided to smash the unity of the Yan'an Round Table by unleashing society against the party-state.

People abroad always thought things were much scarier in China than they really were. What threw me though was the urgency of the diplomats in Beijing. They live it, they get it, and they wanted me out. Bill Birtles was rushed out of China in September 2020, forced to seek refuge in the Australian Embassy in Beijing while diplomats delicately negotiated his departure in an unprecedented standoff with China's government. Five days later, he was on a flight back to Sydney, leaving China without any Australian foreign correspondents on the ground for the first time in decades. A journalist's perspective on this rising global power has never been more important as Australia's relationship with China undergoes an extraordinary change that's seen the detention of a journalist, Cheng Lei, Canberra's criticism of Beijing's efforts to crush Hong Kong's freedoms, as well as China's military activity in the South China Sea and its

human rights violations targeting the mostly muslim uighur minority in xinjiang province chronicling his five year stint in china as he criss crossed the country birtles reveals why the historic unravelling of china s relations with the west is perceived very differently inside the country the truth about china is a compelling and candid examination of china one that takes a magnifying glass to recent events and looks through a telescope at what is yet to come
