taking an interdisciplinary approach unmatched by any other book on this topic this thoughtful handbook considers the international struggle to provide for proper and just protection of indigenous intellectual property ip in light of the united nations declaration on the rights of indigenous peoples 2007 expert contributors assess the legal and policy controversies over indigenous knowledge in the fields of international law copyright law trademark law patent law trade secrets law and cultural heritage the overarching discussion examines national developments in indigenous ip in the united states canada south africa the european union australia new zealand and indonesia the handbook provides a comprehensive overview of the historical origins of conflict over indigenous knowledge and examines new challenges to indigenous ip from emerging developments in information technology biotechnology and climate change practitioners and scholars in the field of ip will learn a great deal from this handbook about the issues and challenges that surround just protection of a variety of forms of ip for indigenous communities the department of energy and climate change s warm front scheme to tackle fuel poverty in england helped to improve the energy efficiency of over 635 000 households between june 2005 and march 2008 there were however 1 9 million vulnerable households in 2006 so this rate of progress will still leave many in fuel poverty in 2010 the installation of central heating systems and insulation in homes has helped vulnerable 86 per cent of assisted households are either highly satisfied or satisfied with the work done the delivery of the scheme has been largely effective but it has been impaired by problems in scheme design the government s use of proxy measures such as benefit entitlement to determine who is eligible for scheme grants is a pragmatic approach but it has resulted in inefficient targeting of resources fifty seven per cent of vulnerable households in fuel poverty do not claim the relevant benefits to qualify for the scheme and nearly 75 per cent of households who would qualify are not necessarily in fuel poverty in addition between june 2005 and march 2008 the scheme has given 34 million in grants to households whose properties were already comparatively energy efficient gas and oil boiler replacement costs are at the higher end of the range partly because of scheme specifications the grant available has not increased since 2005 and more applicants around 25 per cent in 2007 08 are having to

contribute towards the cost of the work carried out some eligible applicants are therefore withdrawing from the scheme or not progressing their applications around 20 400 households in total as of october 2008 contains all the formal opinions and accompanying orders of the federal power commission in addition to the formal opinions there have been included intermediate decisions which have become final and selected orders of the commission issued during such period this book empirically examines health care financing reforms and popular responses in three major cities in east asia shanghai singapore and hong kong it adopts a new revised version of the theory of historical institutionalism to compare and explain the divergent reform paths in these three places over the past three decades it also examines forces that propel institutional change the book provides three detailed case studies on the development of health care financing reforms and the politics of implementing them it shows that health care systems in shanghai singapore and hong kong were the products of western presence in the nineteenth century it illustrates how greater attention is paid to the roles played by ideas actors and environmental triggers without abandoning the core assumptions that political institutions and policy feedback remain central to impact health care financing reforms it shows that health care financing reform is shaped by a complex interplay of forces over time it also provides the most updated material about health care financing reforms in shanghai singapore and hong kong the central argument of this book is that health care financing reform is both an evolving process responding to changing circumstances and a political process revealing an intricate interplay of power relationships and diverse interests it shows that institutional changes in health care financing system can be incremental but transformative in nature it argues that social policies will continue to develop and welfare states will continue to adapt and evolve in order to cope with new risks and needs this book sheds new lights on understanding the politics of health care financing reform and sources and modes of institutional change this report from the committee of public accounts follows two other reports into the subject of the compensation for former icelandic water trawlermen an nao report hcp 530 session 2006 07 isbn 9780102945621 and hcp 313 session 2006 07 entitled put together in haste cod wars isbn 9780102944471 the committee took evidence from the department for business enterprise and regulatory reform on administration of the compensation scheme the scheme was set up to compensate former trawlermen who had lost their jobs when the distant water fishing industry collapsed in the 1970s at the time of the collapse most trawlermen did not receive compensation the scheme itself ran

between october 2000 and october 2002 with some 7 000 claimants and a sum of 42 million having been paid to 4 400 former trawlermen findings in the two earlier reports indicated the then department of trade and industry had problems in verifying claims for the scheme and further that it lacked an understanding of the working practices of the 1970s fishing industry the parliamentary and health service ombudsman found maladministration of the scheme especially in delivering it in an effective manner the committee of public accounts has set out a number of conclusions and recommendations including that the department should learn lessons from this and the previous reports when administering future schemes that it is important for the department to test the availability of evidence on real cases before launching new compensation schemes that a clear understanding of the industry needs to be in place before setting the terms of any grant schemes that the department failed to test the impact of the scheme s rules on different types of applicant before the scheme s launch in 25 of 100 cases there was insufficient evidence to say whether payments made by the department accorded with the scheme s rules the department did not employ proper project planning and risk management this special issue of the climate policy journal outlines the fundamentals of the new european emissions trading scheme eu ets assesses the strategies for and impact of implementation and highlights the scheme s potential including positive aspects and remaining hurdles the eu emission trading scheme eu ets is the first international trading scheme for co2 in the world its aim is to reduce the cost of compliance to existing targets under the kyoto protocol from 1st january 2005 companies in high energy sectors covered by the scheme must limit their co2 emissions to allocated levels arranged in two periods from 2005 2007 and 2008 2012 to match the first kyoto commitment period in practice the scheme is likely to cover over 12 000 installations across the european union corresponding to approximately 46 of the total eu co2 emissions the eu ets represents a significant development in working at an international level to combat dangerous climate change the eu emissions trading scheme presents a comprehensive and insightful analysis of the eu ets written by international experts in the field the publication includes the latest research on emissions credits the interaction of the trading scheme with national energy policies and the debate on future expansion incorporating hcp 840 and hcp 1071 session 2005 06 for main report see hcp 107 i isbn 9780215033383 bbc s efficiency programme seventy third report of session 2010 12 report together with formal minutes oral and written evidence the environmental audit committee believes the government s 250 million compensation scheme to help

energy intensive companies with the cost of carbon must be tightened up to avoid over compensating large companies already profiting from the over allocation of eu emissions trading system allowances the committee scrutinised the government s proposal for a compensation scheme to help offset some of the future electricity price rises that energy intensive industries will face as a result of the eu emissions trading system and the government s carbon price floor across europe a large surplus of emission allowances in the eu emissions trading system worth 4 1 billion euros had been accrued by large industrial companies as a result of pre recession overly optimistic forecasts of growth and fierce lobbying by heavy industry sales of these allowances had already raised 1 8 billion euros for these companies in the uk the government s proposed rules do not take the value of these excess allowances into account when calculating compensation the committee also calls for an energy intensive industries strategy as part of a wider uk manufacturing strategy to set out a path for their maximum feasible decarbonisation and help guide and support companies to reduce their dependence on fossil fuels such a strategy should identify by how much these industries can feasibly decarbonise and improve their energy efficiency and how the government will help to ensure that this is achieved including through energy consumption reduction measures and incentives and support for innovation technological research development and investment this volume is the fourth part of a four volume set ccis 190 ccis 191 ccis 192 ccis 193 which constitutes the refereed proceedings of the first international conference on on computing and communications acc 2011 held in kochi india in july 2011 the 62 revised full papers presented in this volume were carefully reviewed and selected from a large number of submissions the papers are the papers of the workshop on cloud computing architecture algorithms and applications cloudcomp2011 of the workshop on multimedia streaming multistreams2011 and of the workshop on trust management in p2p systems iwtmp2ps2011 the four volume set assembled following the 2005 international conference on computational science and its applications iccsa 2005 held in suntec international convention and exhibition centre singapore from 9 may 2005 till 12 may 2005 represents the ne collection of 540 refereed papers selected from nearly 2 700 submissions computational science has rmly established itself as a vital part of many scienti c investigations a ecting researchers and practitioners in areas ranging from applications such as aerospace and automotive to emerging technologies such as bioinformatics and nanotechnologies to core disciplines such as ma ematics physics and chemistry due to the shear size of many challenges in

computational science the use of supercomputing parallel processing and phisticated algorithms is inevitable and becomes a part of fundamental t oretical research as well as endeavors in emerging elds together these far reaching scienti c areas contribute to shape this conference in the realms of state of the art computational science research and applications encompassing the facilitating theoretical foundations and the innovative applications of such results in other areas this book and its sister volume constitutes the proceedings of the 7th international symposium on neural networks issn 2010 held in shanghai china june 6 9 2010 the 170 revised full papers of part i and part ii were carefully selected from 591 submissions and focus on topics such as neurophysiological foundation theory and models learning and inference and neurodynamics the second volume part ii lncs 6064 covers the following 5 topics svm and kernel methods vision and image data mining and text analysis bci and brain imaging and applications this book constitutes the refereed proceedings of the 9th asia pacific network operations and management symposium apnoms 2006 the book presents 50 revised full papers and 25 revised short papers organized in topical sections on management of ad hoc and sensor networks network measurements and monitoring mobility management qos management management architectures and models security management e2e qos and application management management experience ngn management and ip based network management the act is in nine parts and includes provisions to i establish a non departmental public body called the pensions regulator to replace oprs this will take over responsibility for regulation of occupational pensions and specific functions of personal pensions and stakeholder pensions as well as assume new functions including referring determinations to a pensions regulator tribunal ii create a new pension protection fund ppf to provide compensation for members of occupational pension schemes in cases where insolvent employers leave insufficient pension funds iii introduce a new explicit ministerial function to promote and facilitate financial retirement planning including powers to require employers to provide pension planning advice access for employees in the workplace and iv provide greater flexibility and simplicity in pension scheme administration and greater clarity in existing pensions law modern food governance is increasingly hybrid involving not only government but also industry and civil society actors this book analyzes the unfolding interplay between public and private actors in global and local food governance how are responsibilities and risks allocated in hybrid governance arrangements how is legitimacy ensured and what effects do these arrangements have on industry or government practices the expert contributors

draw on law economics political science and sociology to discuss these questions through rich empirical cases with a view to solving equations of the form the partial derivative of zeta with respect to t u the partial derivative of zeta with respect to x 0 this paper first presents a discussion on the stability of the so called forward and centered finite difference schemes under general circumstances and specifies the conditions for stability the results are found to be different from those given by conventional techniques using centered differences three types of finite difference schemes are compared and the analysis indicates that the widely used conventional system which employs forward finite difference for the first time step and centered finite difference for the rest of the computations gives the worst results and is computationally unstable when $\lambda \Delta t \Delta s$ approaches 1 0 this difficulty may be overcome by replacing the forward finite difference operations by the procedure of any one of the other two schemes furthermore better results may be achieved by the introduction of an upwind analogue in the second and the third scheme this book constitutes the refereed proceedings of the advanced workshop on content computing awcc 2004 held in zhen jiang jiang su china in november 2004 the 26 revised full papers and 36 revised short papers presented were carefully reviewed and selected from 194 submissions the papers are organized in topical sections on mobile code and agent technology content sharing and consistency management networking infrastructure and performance content aware security multimedia content content mining and knowledge extraction services and content applications content retrieval and management and ontologies and knowledge conceptualization proceedings of symposium js 3 at the joint convention of the international association of hydrological sciences iahs and the international association of hydrogeologists iah held in hyderabad india 6 12 september 2009 title page novel algorithms and techniques in telecommunications automation and industrial electronics includes a set of rigorously reviewed world class manuscripts addressing and detailing state of the art research projects in the areas of industrial electronics technology and automation telecommunications and networking novel algorithms and techniques in telecommunications automation and industrial electronics includes selected papers form the conference proceedings of the international conference on industrial electronics technology and automation ieta 2007 and international conference on telecommunications and networking tene 07 which were part of the international joint conferences on computer information and systems sciences and engineering cisse 2007

Indigenous Intellectual Property 2015-12-18 taking an interdisciplinary approach unmatched by any other book on this topic this thoughtful handbook considers the international struggle to provide for proper and just protection of indigenous intellectual property ip in light of the united nations declaration on the rights of indigenous peoples 2007 expert contributors assess the legal and policy controversies over indigenous knowledge in the fields of international law copyright law trademark law patent law trade secrets law and cultural heritage the overarching discussion examines national developments in indigenous ip in the united states canada south africa the european union australia new zealand and indonesia the handbook provides a comprehensive overview of the historical origins of conflict over indigenous knowledge and examines new challenges to indigenous ip from emerging developments in information technology biotechnology and climate change practitioners and scholars in the field of ip will learn a great deal from this handbook about the issues and challenges that surround just protection of a variety of forms of ip for indigenous communities

Managed Groundwater Recharge and Rainwater Harvesting 2009 the department of energy and climate change s warm front scheme to tackle fuel poverty in england helped to improve the energy efficiency of over 635 000 households between june 2005 and march 2008 there were however 1 9 million vulnerable households in 2006 so this rate of progress will still leave many in fuel poverty in 2010 the installation of central heating systems and insulation in homes has helped vulnerable 86 per cent of assisted households are either highly satisfied or satisfied with the work done the delivery of the scheme has been largely effective but it has been impaired by problems in scheme design the government s use of proxy measures such as benefit entitlement to determine who is eligible for scheme grants is a pragmatic approach but it has resulted in inefficient targeting of resources fifty seven per cent of vulnerable households in fuel poverty do not claim the relevant benefits to qualify for the scheme and nearly 75 per cent of households who would qualify are not necessarily in fuel poverty in addition between june 2005 and march 2008 the scheme has given 34 million in grants to households whose properties were already comparatively energy efficient gas and oil boiler replacement costs are at the higher end of the range partly because of scheme specifications the grant available has not increased since 2005 and more applicants around 25 per cent in 2007 08 are having to contribute towards the cost of the work carried out some eligible applicants are therefore withdrawing from the scheme or not progressing their applications around

20 400 households in total as of october 2008

The Warm Front Scheme 1975 contains all the formal opinions and accompanying orders of the federal power commission in addition to the formal opinions there have been included intermediate decisions which have become final and selected orders of the commission issued during such period

Federal Power Commission Reports 1972 this book empirically examines health care financing reforms and popular responses in three major cities in east asia shanghai singapore and hong kong it adopts a new revised version of the theory of historical institutionalism to compare and explain the divergent reform paths in these three places over the past three decades it also examines forces that propel institutional change the book provides three detailed case studies on the development of health care financing reforms and the politics of implementing them it shows that health care systems in shanghai singapore and hong kong were the products of western presence in the nineteenth century it illustrates how greater attention is paid to the roles played by ideas actors and environmental triggers without abandoning the core assumptions that political institutions and policy feedback remain central to impact health care financing reforms it shows that health care financing reform is shaped by a complex interplay of forces over time it also provides the most updated material about health care financing reforms in shanghai singapore and hong kong the central argument of this book is that health care financing reform is both an evolving process responding to changing circumstances and a political process revealing an intricate interplay of power relationships and diverse interests it shows that institutional changes in health care financing system can be incremental but transformative in nature it argues that social policies will continue to develop and welfare states will continue to adapt and evolve in order to cope with new risks and needs this book sheds new lights on understanding the politics of health care financing reform and sources and modes of institutional change

Sessional Papers 1986 this report from the committee of public accounts follows two other reports into the subject of the compensation for former icelandic water trawlermen an nao report hcp 530 session 2006 07 isbn 9780102945621 and hcp 313 session 2006 07 entitled put together in haste cod wars isbn 9780102944471 the committee took evidence from the department for business enterprise and regulatory reform on administration of the compensation scheme the scheme was set up to compensate former trawlermen who had lost their jobs when the distant water fishing industry collapsed in the 1970s at the time of the collapse most trawlermen did

not receive compensation the scheme itself ran between october 2000 and october 2002 with some 7 000 claimants and a sum of 42 million having been paid to 4 400 former trawlermen findings in the two earlier reports indicated the then department of trade and industry had problems in verifying claims for the scheme and further that it lacked an understanding of the working practices of the 1970s fishing industry the parliamentary and health service ombudsman found maladministration of the scheme especially in delivering it in an effective manner the committee of public accounts has set out a number of conclusions and recommendations including that the department should learn lessons from this and the previous reports when administering future schemes that it is important for the department to test the availability of evidence on real cases before launching new compensation schemes that a clear understanding of the industry needs to be in place before setting the terms of any grant schemes that the department failed to test the impact of the scheme s rules on different types of applicant before the scheme s launch in 25 of 100 cases there was insufficient evidence to say whether payments made by the department accorded with the scheme s rules the department did not employ proper project planning and risk management

An LU-SSOR Scheme for the Euler and Navier-Stokes Equations 2014-03-26 this special issue of the climate policy journal outlines the fundamentals of the new european emissions trading scheme eu ets assesses the strategies for and impact of implementation and highlights the scheme s potential including positive aspects and remaining hurdles the eu emission trading scheme eu ets is the first international trading scheme for co2 in the world its aim is to reduce the cost of compliance to existing targets under the kyoto protocol from 1st january 2005 companies in high energy sectors covered by the scheme must limit their co2 emissions to allocated levels arranged in two periods from 2005 2007 and 2008 2012 to match the first kyoto commitment period in practice the scheme is likely to cover over 12 000 installations across the european union corresponding to approximately 46 of the total eu co2 emissions the eu ets represents a significant development in working at an international level to combat dangerous climate change the eu emissions trading scheme presents a comprehensive and insightful analysis of the eu ets written by international experts in the field the publication includes the latest research on emissions credits the interaction of the trading scheme with national energy policies and the debate on future expansion

Health Insurance Reforms in Asia 2008-02-26 incorporating hcp 840 and hcp 1071

The Accountant 1996 the environmental audit committee believes the government s 250 million compensation scheme to help energy intensive companies with the cost of carbon must be tightened up to avoid over compensating large companies already profiting from the over allocation of eu emissions trading system allowances the committee scrutinised the government s proposal for a compensation scheme to help offset some of the future electricity price rises that energy intensive industries will face as a result of the eu emissions trading system and the government s carbon price floor across europe a large surplus of emission allowances in the eu emissions trading system worth 4 1 billion euros had been accrued by large industrial companies as a result of pre recession overly optimistic forecasts of growth and fierce lobbying by heavy industry sales of these allowances had already raised 1 8 billion euros for these companies in the uk the government s proposed rules do not take the value of these excess allowances into account when calculating compensation the committee also calls for an energy intensive industries strategy as part of a wider uk manufacturing strategy to set out a path for their maximum feasible decarbonisation and help guide and support companies to reduce their dependence on fossil fuels such a strategy should identify by how much these industries can feasibly decarbonise and improve their energy efficiency and how the government will help to ensure that this is achieved including through energy consumption reduction measures and incentives and support for innovation technological research development and investment

The Scheme of Control on Electricity Companies 2018-12-07 this volume is the fourth part of a four volume set ccis 190 ccis 191 ccis 192 ccis 193 which constitutes the refereed proceedings of the first international conference on on computing and communications acc 2011 held in kochi india in july 2011 the 62 revised full papers presented in this volume were carefully reviewed and selected from a large number of submissions the papers are the papers of the workshop on cloud computing architecture algorithms and applications cloudcomp2011 of the workshop on multimedia streaming multistreams2011 and of the workshop on trust management in p2p systems iwtmp2ps2011

The EU Emissions Trading Scheme 1992-05 the four volume set assembled following the 2005 international conference on computational science and its applications iccsa

2005 held in suntec international convention and exhibition centre singapore from 9 may 2005 till 12 may 2005 represents the ne collection of 540 refereed papers selected from nearly 2 700 submissions computational science has rmlly established itself as a vital part of many scienti c investigations a ecting researchers and practitioners in areas ranging from applications such as aerospace and automotive to emerging technologies such as bioinformatics and nanotechnologies to core disciplines such as ma ematics physics and chemistry due to the shear size of many challenges in computational science the use of supercomputing parallel processing and phisticated algorithms is inevitable and becomes a part of fundamental t oretical research as well as endeavors in emerging elds together these far reaching scienti c areas contribute to shape this conference in the realms of state of the art computational science research and applications encompassing the facilitating theoretical foundations and the innovative applications of such results in other areas

Energy Research Abstracts 2007-03-29 this book and its sister volume constitutes the proceedings of the 7th international symposium on neural networks issn 2010 held in shanghai china june 6 9 2010 the 170 revised full papers of part i and part ii were carefully selected from 591 submissions and focus on topics such as neurophysiological foundation theory and models learning and inference and neurodynamics the second volume part ii lncs 6064 covers the following 5 topics svm and kernel methods vision and image data mining and text analysis bci and brain imaging and applications

The Rural Payments Agency and the implementation of the Single Payment Scheme 2012-03-06 this book constitutes the refereed proceedings of the 9th asia pacific network operations and management symposium apnoms 2006 the book presents 50 revised full papers and 25 revised short papers organized in topical sections on management of ad hoc and sensor networks network measurements and monitoring mobility management qos management management architectures and models security management e2e qos and application management management experience ngn management and ip based network management

The BBC's efficiency programme 2013-01-04 the act is in nine parts and includes provisions to i establish a non departmental public body called the pensions regulator to replace opra this will take over responsibility for regulation of occupational pensions and specific functions of personal pensions and stakeholder pensions as well as assume new functions including referring determinations to a pensions regulator tribunal ii create a new pension protection fund ppf to provide compensation for members of occupational pension schemes in cases where insolvent employers leave insufficient

pension funds iii introduce a new explicit ministerial function to promote and facilitate financial retirement planning including powers to require employers to provide pension planning advice access for employees in the workplace and iv provide greater flexibility and simplicity in pension scheme administration and greater clarity in existing pensions law

Energy Intensive Industries Compensation Scheme 2011-07-06 modern food governance is increasingly hybrid involving not only government but also industry and civil society actors this book analyzes the unfolding interplay between public and private actors in global and local food governance how are responsibilities and risks allocated in hybrid governance arrangements how is legitimacy ensured and what effects do these arrangements have on industry or government practices the expert contributors draw on law economics political science and sociology to discuss these questions through rich empirical cases

Advances in Computing and Communications, Part IV 1996 with a view to solving equations of the form the partial derivative of zeta with respect to t u the partial derivative of zeta with respect to x 0 this paper first presents a discussion on the stability of the so called forward and centered finite difference schemes under general circumstances and specifies the conditions for stability the results are found to be different from those given by conventional techniques using centered differences three types of finite difference schemes are compared and the analysis indicates that the widely used conventional system which employs forward finite difference for the first time step and centered finite difference for the rest of the computations gives the worst results and is computationally unstable when $\lambda \Delta t \Delta s$ approaches 1 0 this difficulty may be overcome by replacing the forward finite difference operations by the procedure of any one of the other two schemes furthermore better results may be achieved by the introduction of an upwind analogue in the second and the third scheme

SEC Docket 2005-05-02 this book constitutes the refereed proceedings of the advanced workshop on content computing awcc 2004 held in zhen jiang jiang su china in november 2004 the 26 revised full papers and 36 revised short papers presented were carefully reviewed and selected from 194 submissions the papers are organized in topical sections on mobile code and agent technology content sharing and consistency management networking infrastructure and performance content aware security multimedia content content mining and knowledge extraction services and content applications content retrieval and management and ontologies and knowledge
