Sirius (Sci-Fi Novel) 2023-11-12

sirius is a dog with humanlike intelligence he is raised by scientist thomas trelone in north wales near trawsfynydd thomas embarks on a program of using steroids and other chemicals to rapidly develop cognitive power of dogs resulting in super sheep dogs sirius however proves to possess a dog intelligence comparable to a normal human being as he is able to communicate with english words although it takes some time for the humans to understand his canine pronunciation he is born at the same time as his creator s human daughter playx and the two of them are raised together as brother and sister when playx leaves for school they drift apart and troubles for sirius begin with human intelligence and emotion he declines to lead a life of a regular dog and he tends to develop as a person but keeps running into obstacles

Talent Development in European Higher Education 2015-02-10

this book examines the much debated question of how to unleash the potential of young people with promising intellectual abilities and motivation it looks at the increasingly important topic of excellence in education and the shift in focus towards the provision of programs to support talented students in higher education it provides a systematic overview of programs for talented students at northern european

higher education institutions heis starting in the netherlands where nearly all heis have developed honors programs over the past two decades the book explores three clusters of countries the benelux the nordic and the german speaking countries for each of these countries it discusses the local culture towards excellence the structure of the education system and the presence of honors programs in total the book reviews the special talent provisions for nearly four million students at 303 higher education institutions in eleven countries in addition it offers an analysis of the reasons to develop such programs a look into the future of honors education and a practical list of suggestions for further research the sirius program assigned marca wolfensberger to carry out this research
