## ***Shells***

2007-04-01

why are girls outperforming boys in literacy skills in the western education system today to date there have been few attempts to answer this question literacy and gender sets out to redress this state of affairs by re examining the social organization of literacy in primary schools in studying schooling as a social process this book focuses on the links between literacy gender and attainment the role school plays in producing social difference and the changing pattern of interest in this topic both within the feminist community and beyond gemma moss argues that the reason for girls relative success in literacy lies in the structure of schooling and in particular the role the reading curriculum plays in constructing a hierarchy of learners in class using fine grained ethnographic analysis of reading in context this book outlines methods for researching literacy as a social practice and understanding how different versions of what counts as literacy can be created in the same site

## **Insects Sticker Book**

1994

presents 1 000 common spanish words each accompanied by a small picture

## **Garden Wildlife Sticker Book**

2007-05-01

this book was born out of the idea that domain specific knowledge has two major dimensions since on the one hand peer to peer communication is primarily intended to further research within specific disciplines while on the other domain external asymmetric communication of filtered knowledge caters to different types of lay audiences collectively the chapters in the volume take the reader on a journey through knowledge communication and knowledge re presentation strategies that are able to successfully disseminate and communicate the domains under scrutiny are medicine and health corporate communication cultural heritage and tourism a number of issues are addressed at the interface of corpus linguistics genre studies and multimodal analysis the variety of questions posed and methods used to explore corpus data will contribute to further debate among scholars in applied linguistics sociolinguistics multimodality media studies and computer mediated communication
