how modernist women writers used biographical writing to resist their exclusion from literary history it s impossible now to think of modernism without thinking about gender sexuality and the diverse movers and shakers of the early twentieth century but this was not always so the passion projects examines biographical projects that modernist women writers undertook to resist the exclusion of their friends colleagues lovers and companions from literary history many of these works were vibrant efforts of modernist countermemory and counterhistory that became casualties in a midcentury battle for literary legitimacy but that now add a new dimension to our appreciation of such figures as radclyffe hall gertrude stein hope mirrlees and sylvia beach among many others melanie micir explores an extensive body of material including sylvia townsend warner s carefully annotated letters to her partner valentine ackland djuna barnes s fragmented drafts about the baroness elsa von freytag loringhoven margaret anderson s collection of modernist artifacts and virginia woolf s joke biography of her friend and lover vita sackville west the novel orlando whether published in encoded desire or squirreled away in intimate archives these passion projects recorded life then in order to summon an audience now and stand as important predecessors of queer and feminist recovery projects that have shaped the contemporary understanding of the field arguing for the

importance of biography the passion projects shows how women turned to this genre in the early twentieth century to preserve their lives and communities for future generations to discover

walker evans said in his 1958 introduction to robert frank's the americans for the thousandth time it must be said that pictures speak for themselves wordlessly visually or they fail the images revolutionized post war american photography with their candid images of men and women from all classes and walks of life the photographs presented a very different story than that portrayed by the wholesome caricature of midcentury prosperity pervading american photography at the time although initially dismissed by his peers for his pioneering work frank was ultimately credited with changing the course of the art form and his photography holds a secure status in the history of twentieth century art and he did all this without words it seems appropriate then and not a little overdue that jonathan day has created a book that expounds explores and examines frank's work pictorially taking frank's iconic images as his point of reference day shot new photographs that commented on the road and contemporary america here these images are paired with critical commentary that details the aspects of the work that are visually expounded and explained in day's complementary images a visual entryway to the photographs and themes of this iconic book in the history of photography postcards from the road represents an innovative carefully considered departure from standard photographic textbooks
