how did people exist and resist in their daily lives under soviet control in the cold war period shkodrova s monograph shows how in communist bulgaria many women passionately exchanged

recipes with friends and strangers to build substantial and impressive private collections of recipes this activity was borderline contraband in going against the general disapproval of home cooking that formed part of the ideology of communism in which home cooking was considered household slavery and an agent of patriarchalism private recipe collections were by far the preferred written source of culinary information more popular than the state approved commercial cookbooks shkodrova shows how these recipe collections held many different meanings for the women who collected them from helping to navigate the communist economy to enabling new friendships to be developed while engaging safely in power relations and cultivating a sense of individual identity in a society where collective existence was prioritised and exalted drawing on primary sources including scrapbook cookbooks and working from the establishment of cookery classes before communism and their obliteration thereafter shkodrova presents a structured outline of the meanings of recipes exchange and home cooking for bulgarian women under communism

longlisted for the baillie gifford prize 2023 from the author of apollo s angels the first major biography of the figure who modernised dance an intimate portrait of the man behind the mythology set against the vibrant backdrop of the century that shaped him balanchine s radical approach to choreography reinvented the art of dance and his richly evocative ballets made him a lasting legend today nearly thirty years after his death the man is still so revered that the mysteries of his biography are often overlooked who was george balanchine born in russia

under the last czar balanchine experienced the upheavals of world war one the russian revolution exile world war two and the cultural cold war he was part of the russian modernist moment a key player in paris in the 1920s and in new york he revolutionized ballet pressing it to the forefront of modernism and making it serious and popular art his influences were myriad he considered himself georgian yet he did not step foot in his ancestral homeland until he was in his fifties he was deeply influenced by the cold grandeur and sensuous beauty of the orthodox church but equally absorbed by the new rhythms and dance steps coming out of harlem in the 1930s he collaborated broadly with figures like diaghilev and stravinsky a man of muses balanchine was married five times always to young dancers and consumed by many other loves in between the difficulties of his life personal losses bouts of ill health debilitating loneliness and dark moods of despair resonate in his dances which speak so poignantly of love and loss and yet the full implications for his art remain unexplored now for the first time we look beyond the myth of mr b the mask which balanchine himself helped to create to see mr b the man

the opulent st petersburg imperial theaters were subsidized and administered by the russian court from the eighteenth century until the collapse of the tsarist order in 1917 this close association raises many questions about the uses of these theaters and where their loyalties lay in early twentieth century russia this history begins in 1900 with the theater flourishing but undergoing change then chronicles the impact of war and revolution as well as audience and administration leading up to the effective re establishment of state control over the theaters by the bolsheviks in 1920 while the theaters were often allied with the forces of change their grandeur harked back to the age of the tsars creating an irony that is explored here in depth photographs and diagrams of the theaters are included along with photographs of the central historical figures and contemporary cartoons referring to the theaters
