marriage in interesting times because we are
living at a time when profound changes in the
way marriage is understood not that long ago
it was assumed by many in american society
that traditional marriage not only involved a
man and a woman but the man was the head of
the household and the woman was a homemaker
the man earned the money and the woman cared
for the children and kept the house in order
then came the idea that husband and wife were
equal partners in the marriage in most cases
both partners worked outside the home and they
shared more equally the duties of the home
today the definition of marriage has evolved

one more time to include same sex couples so when we talk about marriage in the twenty first century at least in the united states and a number of other nations around the globe we must remember that the legal definition if not the religious one includes both gay and straight couples yes these are interesting times dr bob cornwall
