perspectives it further explores new lines of ethnographic research including as feminist ethnography and visual research that uncover non traditional routes to anthropological knowledge as the great ethnographer e e evans pritchard wrote anyone who is not a complete idiot can do fieldwork but will his contribution be to theoretical or just to factual knowledge as evans pritchard highlights and as this book argues successful ethnography must be connected to a sophisticated theoretical reflection rooted in social and cultural anthropology a major contribution to the history of european anthropology this book highlights the porto school of anthropology and analyses the work of its main mentor mendes correia 1888 1960 it goes beyond a portuguese focus to present a wider comparative analysis in which the colonial empire knowledge of origins ethnic identity and cultural practices all receive special attention the analysis takes into account the fact that nationalism as associated with an ethno racial paradigm decisively influenced discourse and scientific and political practices a new history of anthropology collects original writings from pre eminent scholars to create a sophisticated but accessible guide to the development of the field re examines the history of anthropology through the lens of the new globalized world provides a comprehensive history of the discipline from its prehistory in the age of exploration through to anthropology s current condition and its relationship with other disciplines places ideas and practices within the context of their time and place of origin looks at anthropology s role in colonization early traditions in the field and topical issues from various periods in the field s history and examines its relationship to other disciplines this book is a new introduction to the history and practice of economic anthropology by two leading authors in the field they show that anthropologists have contributed to understanding the three great questions of modern economic history development socialism and one world capitalism in doing so they connect economic anthropology to its roots in western philosophy social theory and world history up to the second world war anthropologists tried and failed to interest economists in their exotic findings they then launched a vigorous debate over whether an approach taken from economics was appropriate to the study of non industrial economies since the 1970s they have developed a critique of capitalism based on studying it at home as well as abroad the authors aim to rejuvenate economic anthropology as a humanistic project at a time when the global financial crisis has undermined confidence in free market economics they argue for the continued relevance of predecessors such as marcel mauss and karl polanyi while offering an incisive review of recent work in this field economic anthropology is an excellent introduction for social science students at all levels and it presents general readers with a challenging perspective on the world economy today selected by choice as a 2013 outstanding academic title this overview of the history of anthropological theory provides a comprehensive history from antiquity through to the twenty first century with a focus on the twentieth century and beyond unlike other volumes it also offers a four field introduction to theory as a stand alone text or used in conjunction with the companion volume readings for a history of anthropological theory erickson and murphy offer a comprehensive affordable and contemporary introduction to anthropological theory the third edition has been updated and fully revised throughout to closely parallel the presentation in the companion reader making it easier to

use both books in tandem new original essays by contemporary theorists bring theories to life and portraits of important theorists make it a handsome volume sources and suggested readings have been updated and glossary definitions have been updated streamlined and standardized

After Tylor 1995 stocking emphasizes the interplay of ethnographic data and anthropological theory offering a richly detailed account of the lives and works of a series of influential figures both well remembered and lesser known against a background of overseas colonial concerns and domestic intellectual ferment taking as its starting point a major comparative essay published in 1888 by Edward Burnett Tylor the reigning patriarch of evolutionary anthropology the book examines the developing tension between the social evolutionary paradigm and the ethnographic data collected by British missionaries in Australia, Lorimer Fison and Melanesia, Robert Henry Codrington and the attempts by second generation evolutionary theorists Robertson Smith and Andrew Lang to treat the growth of religion in less purely rationalistic terms than those of Tylor's animism

After Tylor 1995 the formative years of American anthropology were characterized by intellectual energy and excitement the identification of key interpretive issues and the beginnings of a prodigious amount of fieldwork and recording the American Anthropological Association (AAA) was born as anthropology emerged as a formal discipline with specialized subfields fieldwork among native communities proliferated across North America yielding a wealth of ethnographic information that began to surface in the flagship journal *The American Anthropologist* and researchers increasingly debated and probed deeper into the roots and significance of ritual, myth, language, social organization and the physical make up and prehistory of Native Americans the fifty-five selections in this volume represent the interests of and accomplishments in American anthropology from the establishment of *The American Anthropologist* through World War I the articles in their entirety showcase the state of the subfields of anthropology: archaeology, linguistics, physical anthropology and cultural anthropology as they were imagined and practiced at the dawn of the twentieth century examples of important ethnographic accounts and interpretive debates are also included introducing this collection is a historical overview of the beginnings of American anthropology by Irving Hallowell a former president of the AAA

The SAGE Handbook of Cultural Anthropology 2021-03-31 this volume presents both a historical exploration of ethnography and a thematic discussion of major trends that over different periods have oriented and re-oriented research practice as it overviews ethnography from different geographic and thematic perspectives it further explores new lines of ethnographic research including as feminist ethnography and visual research that uncover non traditional routes to anthropological knowledge as the great ethnographer e e evans pritchard wrote anyone who is not a complete idiot can do fieldwork but will his contribution be to theoretical or just to factual knowledge as evans pritchard highlights and as this book argues successful ethnography must be connected to a sophisticated theoretical reflection rooted in social and cultural anthropology

History of Theory and Method in Anthropology 2022-06 a major contribution to the history of european anthropology this book highlights the

porto school of anthropology and analyses the work of its main mentor mendes correia 1888 1960 it goes beyond a portuguese focus to present a wider comparative analysis in which the colonial empire knowledge of origins ethnic identity and cultural practices all receive special attention the analysis takes into account the fact that nationalism as associated with an ethno racial paradigm decisively influenced discourse and scientific and political practices
