This book provides a comprehensive history of counterinsurgency, drawing on historical records and interviews with hundreds of veterans. It identifies ten critical attributes of counterinsurgency leadership and reveals why these attributes have been more prevalent in some organizations than others. The tenth edition of Keen's Latin American Civilization inaugurates a new era in the history of this classic anthology by dividing it into two volumes. This second volume retains most of the modern period sources from the ninth edition but with some significant additions, including a new set of images and a wide range of new sources that reflect the latest events and trends in contemporary Latin America. The 75 excerpts in Volume Two provide foundational and often riveting first-hand accounts of life in modern Latin America. Concise introductions for chapters and excerpts provide essential context for understanding the primary sources. This 2002 study examines the process of the disintegration of the Soviet state. Guinea-Bissau is a small country in West Africa bordered by Senegal to the north and Guinea to the south and east. It has a population of around 1.8 million people with diverse ethnic groups, including the Fulas, Mandingos, and Balantas. The official language is Portuguese, although many people also speak Creole and other local languages. Guinea-Bissau gained independence from Portugal in 1973 but has suffered political instability and economic struggles since then. It is one of the world's poorest countries with low levels of education and healthcare and a reliance on agriculture for its economy. The country has a rich cultural history with traditional music, dance, and art still an important part of the society and is also home to several endangered species, including chimpanzees and African manatees. Under the rule of Recep Tayyip Erdogan, Turkey has descended into a dictatorship, promoting the Islamist agenda, abusing human rights, limiting freedom of expression in the press, and waging war against the Kurds. While Turkey has historically been important geopolitically, it has become an outlier in Europe and an uncertain ally of the United States. An uncertain ally is a straightforward indictment of Erdogan, drawing on inside sources, his Justice and Development Party (AKP), and the police. The book reveals corruption and money laundering schemes that

benefitted erdogan his cronies and family members erdogan has polarized turkish society and created conditions that led to the coup attempt of july 2016 he has also deepened divisions by accusing fethullah gulen an islamic teacher in pennsylvania of establishing a parallel state and masterminding the coup attempt erdogan has seized on the failed coup to justify a witch hunt arresting thousands and ordering the wholesale dismissal of alleged coup sympathizers rather than foster reconciliation he pursued vendettas and turned turkey into a gulag an uncertain ally exposes turkey s ties to jihadists in syria and the islamic state questioning its suitability as a nato member under erdogan turkey faces a dark future that poses a danger to the region and internationally this handbook links the growing body of media and conflict research with the field of security studies the academic sub field of media and conflict has developed and expanded greatly over the past two decades operating across a diverse range of academic disciplines academics are studying the impact the media has on governments pursuing war responses to humanitarian crises and violent political struggles and the role of the media as a facilitator of and a threat to both peace building and conflict prevention this handbook seeks to consolidate existing knowledge by linking the body of conflict and media studies with work in security studies the handbook is arranged into five parts theory and principles media the state and war media and human security media and policymaking within the security state new issues in security and conflict and future directions for scholars of security studies this handbook will provide a key point of reference for state of the art scholarship concerning the media security nexus for scholars of communication and media studies the handbook will provide a comprehensive mapping of the media conflict field since its inception in afghanistan in the late 1980s the lashkar e tayyaba let also known as the jamaat ul dawa jud has arguably been the most threatening and disruptive terrorist organization in south asia and beyond while there is considerable scholarship on its history and operations few scholars have exploited the organization s vast publications this volume is the first scholarly effort to curate a sample of let s urdu language publications and then translate them into english for the scholarly community studying this group and related organizations while the original texts were written and published by dar al andalus which exclusively publishes let s books pamphlets posters speeches and other materials with the explicit intention of diffusing the group s ideology raising funds and cultivating volunteers for the organization the authors hope that by rendering the group s materials more accessible this book can contribute to the myriad efforts to combat such groups and the violence they perpetrate and jen klein knows motherhood she s survived changing a soiled diaper in a truck stop bathroom while suspending a baby in mid air she s witnessed the judgment of the so called mommy mafia she s found

her shirt and in her hair and the baby's hair and the dog's fur here she reveals secrets she's learned along the way about mastering the art of motherhood from how to handle strangers who ask how much weight you've gained to finally getting them on the big yellow bus on time and with clean underwear inside she knows comments the mommy files you'll find your mom didn't know what she was doing either a pediatrician is your partner not your adversary playgroups are for moms more than they are for kids just because they can talk doesn't mean they can reason being a supermom is all about asking for help disclosed here in a friendly wry look at motherhood jen klein takes you through each lovable and less than enjoyable step toward that coveted title that will be screamed at you so many times in the years to come mommy this volume in the Lector Sourcebooks in Ancient History series offers a generous selection of primary texts on Athenian democracy which flourished in the fifth and fourth centuries BC with an accompanying glossary and introductory notes it provides for the needs of students at schools and universities who are studying ancient history in English translation and has been written and reviewed by experienced teachers the texts selected include extracts from the important literary sources as well as some key inscriptions some of which were previously difficult for students to access collection of scholarly essays and primary documents exploring the significance of the 1893 World's Fair and the history of American anthropology this study of the development of education in the British West Indian colonies during the last half of the nineteenth century examines the educational policies and curriculum used in schools following the abolition of slavery during this period the nature and development of the educational system in the region was profoundly affected by the decline of the sugar industry the emergence of black and coloured middle classes and the threat they posed to the ruling white elite and the institutionalization of cultural divisions between the black and white populations Bacchus argues that after 1846 the elite white plantocracy used the educational system to maintain domination following the end of slavery this is the first book to present an overall picture of educational developments in the British West Indies in this period and pays special attention to the historical context in which they occurred in education as and for legitimacy the author continues the study of West Indian education he began with his previous book Utilization, Misuse and Development of Human Resources in the Early West Indian Colonies this is a critical review of the German social and political situation several decades before WWI the author attempts to analyze how the thoughts, views and influence of great personalities such as Goethe, Nietzsche, Princeton Buelov and Frederick the Great now in English this important new contribution from a distinguished Korean historian on the history of twentieth century Korea covers first the Japanese colonial period including detailed accounts of the anti-Japanese independence movements followed by the

liberation of korea the korean war and political developments up to the late 1980s a history of the inquisition of spain in 4 volumes is one of the best known works by the american historian henry charles lea the spanish inquisition officially known as the tribunal of the holy office of the inquisition was established in 1478 by catholic monarchs fernand ii of aragon and isabella i of castile it was intended to maintain catholic orthodoxy in their kingdoms and to replace the medieval inquisition which was under papal control it became the most substantive of the three different manifestations of the wider catholic inquisition along with the roman inquisition and portuguese inquisition the inquisition was originally intended primarily to identify heretics among those who converted from judaism and islam to catholicism the regulation of the faith of newly converted catholics was intensified after the royal decrees issued in 1492 and 1502 ordering muslims and jews to convert to catholicism or leave castile the inquisition was not definitively abolished until 1834 during the reign of isabella ii after a period of declining influence in the preceding century the spanish inquisition is often cited in popular literature and history as an example of religious intolerance and repression no detailed description available for not all the king s men the history of development has paid only little attention to cultural projects this book looks at the development politics that shaped the unesco world heritage programme with a case study of ethiopian world heritage sites from the 1960s to the 1980s in a large scale conservation and tourism planning project selected sites were set up and promoted as images of the ethiopian nation this story serves to illustrate unesco s role in constructing a useful past in many african countries engaged in the process of nation building unesco experts and ethiopian elites had a shared interest in producing a portfolio of antiquities and national parks to underwrite ethiopia s imperial claims to regional hegemony with ancient history the key findings of this book highlight a continuity in ethiopian history despite the political ruptures caused by the 1974 revolution and unesco s transformation from knowledge producer to actual provider of development policies the particular focus on the bureaucratic and political practices of heritage bridges a gap between cultural heritage studies and the history of international organisations the result is a first study of the global discourse on heritage as it emerged in the 1960s development decade a history of the american constitution s formative decades from a preeminent legal scholar when the us constitution won popular approval in 1788 it was the culmination of thirty years of passionate argument over the nature of government but ratification hardly ended the conversation for the next half century ordinary americans and statesmen alike continued to wrestle with weighty questions in the halls of government and in the pages of newspapers should the nation s borders be expanded should america allow slavery to spread westward what rights should indian

nations hold what was the proper role of the judicial branch in the words that made us akhil reed amar unites history and law in a vivid narrative of the biggest constitutional questions early americans confronted and he expertly assesses the answers they offered his account of the document s origins and consolidation is a guide for anyone seeking to properly understand america s constitution today reproduction of the original a history of the inquisition of spain vol 1 by henry charles lea here in this remarkable collection from american heritage such noted authors as tom brokaw wallace stegner john lukacs and others bring to life many of the most famous men and women of the old west from lewis and clark to charles frémont billy the kid wyatt earp chief joseph frederick remington the defenders of the alamo the texas rangers and the riders of the pony express it also shines a light on topics such as the origins of scalping the famous lincoln county war the grim medical reality of western gunfights cowboy jargon and the first rodeo features emerging trends that are shaping supply chain operations worldwide as well as impacting the global business landscape beginning with the assertion that supply chains are an overlooked factor behind anemic economic growth protean supply chains ten dynamics of supply and demand alignment provides a comprehensive overview of the developments occurring in the field of supply chain management a broad range of topics in facility location inventory strategic sourcing and supply chain coordination are addressed in addition to coverage of major developments within the field the author s main position is that supply chains must be more than agile or flexible rather they must become protean and capable of changing shape in response to a volatile global business landscape the author a well known editor and researcher in the field presents current real world examples combined with insights into the impact of recent trends that are expected to affect the global business landscape over the next decade highlighting companies with leading edge supply chains as examples the book discusses methods to reduce spending increase revenues and achieve streamlined productivity in a changing economic climate the book utilizes further examples from the growth of online retailing and automation in distribution centers as well as the use of protean supply chains to gain competitive advantages internationally in addition the book features the following ten emerging trends which are shaping supply chain operations worldwide the rise of regional theaters of supply global risk management through control towers customer segmentation real demand realization demand swing alignment with production and distribution omnichannel retailing challenges customer of one service sustainability challenges collaboration vs competition in the new economy financial dynamism the book is an ideal reference for professionals and practitioners in operations research business management science applied mathematics and industrial engineering as well as an appropriate supplement for undergraduate and graduate level

courses in supply chain management the complete history of northern ireland from the irish civil war to brexit a wonderful book beautifully written informative and incisive irish times after two decades of relative peace following the good friday agreement of 1998 the brexit referendum in 2016 reopened the northern ireland question in this thoughtful and engaging book feargal cochrane considers the region s troubled history from the struggle for irish independence in the nineteenth century to the present new chapters explain the reasons for the suspension of devolved government at stormont in 2017 and its restoration in 2020 as well as the consequences for northern ireland of britain s decision to leave the european union providing a complete account of the province s hundred year history this book is essential reading to understand the present dimensions of the northern irish conflict the author presents a cultural history of popular viennese electronic music from 1990 to 2015 from the perspectives of production scene and national and international reception to illustrate this history in depth a number of case studies of the most successful and distinguished musicians are explored such as kruder and dorfmeister patrick pulsinger toska electric indigo and sofa surfers the author draws on research about electronic music the relationship between music and the urban environment the history of austria and vienna music scenes and fandom the digital shift stardom in popular music especially electronic music as well as theories of postmodernism chapters 4 and 8 of this book are freely available as downloadable open access pdfs at taylorfrancis com under a creative commons attribution non commercial no derivatives cc by nc nd 4 0 license popular science gives our readers the information and tools to improve their technology and their world the core belief that popular science and our readers share the future is going to be better and science and technology are the driving forces that will help make it better

the history of development has paid only little attention to cultural projects this book looks at the development politics that shaped the unesco world heritage programme with a case study of ethiopian world heritage sites from the 1960s to the 1980s in a large scale conservation and tourism planning project selected sites were set up and promoted as images of the ethiopian nation this story serves to illustrate unesco s role in constructing a useful past in many african countries engaged in the process of nation building unesco experts and

ethiopian elites had a shared interest in producing a portfolio of antiquities and national parks to underwrite ethiopia s imperial claims to regional hegemony with ancient history the key findings of this book highlight a continuity in ethiopian history despite the political ruptures caused by the 1974 revolution and unesco s transformation from knowledge producer to actual provider of development policies the particular focus on the bureaucratic and political practices of heritage bridges a gap between cultural heritage studies and the history of international organisations the result is a first study of the global discourse on heritage as it emerged in the 1960s development decade
