Vet On Call 1999-09-18 the themes of the different papers in this book are related to five major areas of research first the book presents the work on a large scale assessment in vocational and occupational education and training reason was the work of frank achtenhagen and his colleagues on the preparation of a vet pisa which started in 2004 which has now become more and more a concrete program the contributions to this part of the book contain a project description and profound presentations and discussions of measurement and evaluation problems it reflects also the work of achtenhagen with respect to item response theory

measurement and testing the second part of this book presents a unique endeavour of promoting vet research the swiss federal office for professional education and technology opet initiated a program of leading houses of vet which are dedicated to different important research topics this program might serve as example for comparable approaches in other countries the third part highlights central issues of research on learning processes curriculum theory and the use of technology here the work of achtenhagen on competence profile modelling competence measurement and instructional and curriculum designing is touched the fourth part stresses social and emotional learning as important aspects of vet learning the fifth part considers the political and institutional dimensions of vet research which have to be taken into account when an international large scale assessment of vet shall be getting started achtenhagen s work on learning at work leaning in economics and learning under the conditions of institutional modelling are discussed the whole book is a collection of central issues around a field that is not yet taken enough into consideration in educational research but pushed and supported by frank achtenhagen vet research he belongs to the founding fathers of it and this is why precisely the book reflects new trends and new concepts with respect to the question what can we educational psychologists and educational researchers learn from a rich and central research field

Clients, Pets, and Vets 2000 london veterinarian maz harwood has learned the hard way that love and work don t mix so when emma her best friend from vet school asks her to look after her practice in the english countryside for six months maz decides that is just the change of scenery she needs but country life is trickier than she could have imagined it is one thing to trade her smart heels for wellies it s another to deal with unwelcoming locals an intense rivalry with the town s other vet practice and worse yet the realization that her friend s practice is in as bad a shape as maz s own broken heart things get even more complicated when she meets her rival s dashing son who is totally unsuitable as a prospect or is he can maz win over the locals save the lives of her patients keep emma s practice from going under and find love again cathy woodman a fresh new voice in women s fiction has written a warm breezy romantic comedy with just enough mishap and plenty of adorable four legged creatures previously published in the uk as trust me i m a vet
