anyone needs the monolithic corporation is the most powerful entity in what remains of the world having manipulated society's values for decades in the name of profit. Her leader, Alexa Mathis, is a genius, ruthless, and obsessed with the idea of finding a digital savior. Nobody else believes in her, and she swings power even though the rulers don't know she has entered. Chloe Shaw is too young, too inexperienced, and too naive for the task before her. In a world where sex is queen, Chloe is an escort, the highest of the high. To those who've been searching, she seems to be much more than someone with strange abilities. No one can explain her, but it seems she's able to control the next-gen AI network on the horizon, an omniscient and nearly omnipotent entity known as the Beam. Chloe, who Alexa thinks she is, must try to stake a claim for our future before our future is decided by the Beam. Sex sells, yes, but it's never sold quite like this with the soul of humanity as its ultimate price. The future of sex is a 12-episode serial that takes place in a world where the Beam is the ultimate power.
