bodhisattva doctrine in buddhist sanskrit literature published in 1931
was the first extensive study in english of the bodhisattva doctrine
dayal discussed the bodhisattva doctrine as it was expounded in the
buddhist sanskrit texts and it remains a question whether anything
more can be added to his excellent study however no other book on the
doctrine has appeared in english subsequent to dayal s study and
buddhist scholarship having expanded beyond the boundaries of the
sanskrit language must now take into account information found not
only in the sanskrit language but also in other languages fundamental
to buddhist studies in order to investigate what current research in
sanskrit tibetan chinese and japanese materials could contribute to
the study of the bodhisattva doctrine the department of religious
studies at the university of calgary planned a conference around the
theme of the bodhisattva the papers presented in this volume were
first read and discussed at the conference

**The Typology of Scripture, Or, the Doctrine of Types ... Applied to
the Explanation of the Earlier Revelations of God. With an Appendix on
the Restoration of the Jews** 1864 calvin s doctrine of biblical
authority offers a profound new approach to a long debated topic
istafanous draws upon calvin s twofold structure regarding salvation
to illumine the reformer s twofold knowledge of god with particular
focus on biblical authority in doing so istafanous presents calvin s
view of biblical authority framed within modern discussions of

subsequent editions john calvin presented justification and sanctification as the twofold grace of god he repeatedly taught this concept in all of his commentaries sermons and other writings more than any other reformer calvin used the twofold grace to express the full relationship between justification and sanctification in the definitive edition of the institutes 1559 calvin introduced the concept of the twofold knowledge of god this framework has been considered by many as the ordering principle of the institutes and all of calvin s theology istafanous argues that the twofold grace inspired calvin to introduce the concept of the twofold knowledge in 1559 thus the twofold grace of god provides the key to understanding the twofold knowledge specifically and calvin s theology generally

A Critical History of Christian Literature and Doctrine 1864 john henry newman and the development of doctrine provides an analysis of the attempts by john henry newman to account for the historical reality of doctrinal change within christianity in the light of his lasting conviction that the idea of christianity is fixed by reference to the dogmatic content of the deposit of faith it argues that newman proposed a series of hypotheses to account for the apparent

~~contradiction between change and continuity that this series begins~~
much earlier than is generally recognized and that the final
hypothesis he was to propose contained in an essay on the development
of christian doctrine provides a methodology of lasting theological
value and contemporary relevance stephen morgan establishes the
centrality of the problem of change and continuity in theology to
newman s theological work as an anglican its part in his conversion to
catholicism and its contemporary relevance to catholic theology it
also surveys the major secondary literature relating to the question
with particular reference to those works published within the last
fifty years additionally morgan considers the legacy of the essay as a
tool in newman s theology and in the work of later theologians finally
suggesting that it may offer a useful methodological contribution to
the contemporary catholic debate about hermeneutical approaches to the
second vatican council and post conciliar developments in doctrine
*Notes and Queries: A Medium of Inter-Communication for Literary Men,
Artists, Antiquaries, Genealogists, Etc* 1877 the formation of
christian doctrine is a high level academic study of the history of
christian doctrinal development the book distinguishes at length
between the scholarly term inventio making explicit what is implicit

~~in the biblical revelation and the idea of invention presenting a~~
novelty as christian teaching that conflicts with the biblical
revelation specifically the formation of christian doctrine identifies
biblical inerrancy as an inventio but sees the priesthood of believers
concept as a license to believe whatever teaching seems right to me
sure to be of interest in academic circles even to those who might
disagree with the author this book will appeal to three major groups
evangelicals in relation to the twentieth century development of a
detailed doctrine of biblical inerrancy baptists in light of both
biblical inerrancy and the seventeenth century development of believer
s baptism and roman catholics because of their respect for tradition
and interest in such a challenging conservative protestant perspective
