why pastors act strangely exemplified by moses double standard dealership style reveals that men of gods mistakes are usually multi dimensional there is what we can call mans monumental monstrous metamorphosis practiced it is that the job of leading the israelites that moses rejected earlier he was no longer eager to give up and be replaced by korah who volunteered to do so these do not add up there is also the subject of men of gods monstrous mindset mannerisms methods and tactics mmmmt it is part of mans mind mutilating manners and manliness moses was bold and courageous to use his god given privilege as he deemed fit and to the best of his interest and that of his loved ones maybe god gave his designated representatives in any generation that privilege because fundamentally he had meant man to take charge of the earth on his behalf as long as man obeyed him if so then moses was still in order as far as god was concerned

the meaning of our concern for mortal remains from antiquity through the twentieth century the greek philosopher diogenes said that when he died his body should be tossed over the city walls for beasts to scavenge why should he or anyone else care what became of his corpse in the work of the dead acclaimed cultural historian thomas laqueur examines why humanity has universally rejected diogenes s argument no culture has been indifferent to mortal remains even in our supposedly disenchanted scientific age the dead body still matters for individuals communities and nations a remarkably ambitious history the work of the dead offers a compelling and richly detailed account of how and why the living have cared for the dead from antiquity to the twentieth century the book draws on a vast range of sources from mortuary archaeology medical tracts letters songs poems and novels to painting and landscapes in order to recover the work that the dead do for the living making human communities that connect the past and the future laqueur shows how the churchyard became the dominant resting place of the dead during the middle ages and why the cemetery largely supplanted it during the modern period he traces how and why since the nineteenth century we have come to gather the names of the dead on great lists and memorials and why being buried without a name has become so disturbing and finally he tells how modern cremation begun as a fantasy of stripping death of its history ultimately failed and how even the ashes of the victims of the holocaust have been preserved in culture a fascinating chronicle of how we shape the dead and are in turn shaped by them this is a landmark work of cultural history
